## DISTRICT CHANGES THOUGHT PROBABLE

In W. N. C. Conference—Destructive Fire, of Mysterious Origin, at Granite Quarry.

Gazette-News Bureau, Daily News Building, Greensboro, Nov. 3.

A disastrous and mysterious fire at Granite Quarry, Rowan county, Wednesday night shortly before 11 o'clock did damage estimated at more than \$10,000. Among the buildings destroyed was the Methodist church, which was erected at a cost of more than \$3000. The church authorities carried no insurance and the loss is total. The residence and store of T. J. Lyster and the residence of George Dry were also destroyed before the fire burned itself out. Mr. Lyster carried about \$2500 insurance. His net loss will be in the neighborhood of \$3000. The fire originated in Mr. Lyster's store. Persons entering the store found the front door open and the combination to the safe knocked off and this indicates robbery and possibly incendiarism.

**Fewer Districts?**  
It is rumored in Methodist circles here that when the Western North Carolina Methodist conference meets in Statesville next week in 32nd annual session the number of districts in the conference will be reduced to 11, the number obtaining before the North Wilkesboro district was created last year. The rumor is that one or more of the mountain districts will be converted into other districts of possibly two districts consolidated. It is known that the reports to be made at the conference next week will be perhaps the most gratifying in the history of the conference, which is one of the strongest in the general conference.

**Dr. Rowe's Report.**  
The report of Rev. J. C. Rowe, D. D., presiding elder of the Salisbury district of the Western North Carolina conference, to the conference next week will show a splendid growth. There are now approximately 1000 Methodists in the Salisbury district which means that the church during the past year has gained in that district alone approximately 600 members. The financial report will be exceptionally fine.

**Victory for Southern.**  
The Southern Railway company won a victory in the Superior court of Guilford county yesterday afternoon when the jury in the \$5000 personal injury suit of John Harris against the corporation returned a verdict finding for the defendant. Harris was injured on the railroad here some time ago and subsequently brought suit for damages alleging that the defendant company or its employees were negligent. The jury found otherwise. Another interesting case now on trial is that of J. R. Pitts and E. M. Maddox against the Public Service corporation, operators of the electric car system here for \$500 damages for alleged injury to an automobile. The plaintiffs allege that a car of the defendant company struck their automobile and very nearly demolished it.

**Called to Chapel Hill.**  
Dr. F. P. Venable, president of the University of North Carolina, Prof. McKee, also of the university, and Dr. Neal Anderson of Winston-Salem came to Greensboro yesterday to meet Rev. Charles E. Raynall of Statesville, and together with Rev. Milton Clark of this place, to formally tender the Statesville minister a call to become pastor of the Presbyterian church at Chapel Hill, and to urge upon him acceptance of the call. Rev. Mr. Raynall preached at Chapel Hill a short time ago and last Sunday night the congregation of the church unanimously voted to tender him a call to become its pastor.

The city commissioners of Greensboro have granted the request of the Southern railway for 30 days' extra time in which to erect gates at the East Washington street crossing. As a result of several accidents at crossings here recently the city commissioners gave the railway 30 days in which to provide gates at certain crossings and watchmen at others. The East Washington street crossing was one of those designated by the city authorities where the railway must make safe the passage of people and vehicles by erecting gates. Originally the company was given 30 days in which to safeguard the crossing but by the order of today the time has been extended to 60 days.

## LACKED CONFIDENCE STILL IT HELPED

Happy Experience of Ridgely Lady, Who Describes Her Own Narrow Escape from Death.

Ridgely, Tenn.—Mrs. Jennie Estes of this place, writes: "I want to say something good for Cardui. I can't begin to say enough. I was sick and with womanly troubles, from February until October, and was in very bad condition. The doctor came to see me, three or four times a week, but he did me no good. One day, I thought I would give Cardui a trial. I had no confidence in it, at all, but I bought a bottle. In a few days, I was up and doing my housework. Now, I have gained 15 pounds, and am feeling as well as I ever felt in my life. If it had not been for Cardui, I honestly believe I would have been in my grave. I advise all sick and suffering women to take Cardui. It cured me when all other medicines failed."

In the past fifty years, thousands of ladies have written, like Mrs. Estes, to all of the benefit received from Cardui. Such testimony from those who have tried and know Cardui, surely indicates the value of this reliable woman's remedy.

For quick relief from all forms of womanly trouble, Cardui is the medicine you need. Try it.

## MR. WHITMIRE WINNER IN REPORT OF REFEREE

Almost Every Issue in Whitmire vs. Power Company Decided in Plaintiff's Favor.

Gallatin Roberts has completed his report as referee in the matter of W. P. Whitmire vs. Cascade Power Company of Brevard, in which the plaintiff was suing for 96 shares of common stock in the defendant company for money spent in organization and development and for his time. The report was filed yesterday in the Superior court of Transylvania county. Almost every issue is decided in favor of the plaintiff and the referee finds that judgment should be entered for the 96 shares or for their value, which he finds to be \$9666. The referee found that Mr. Whitmire had spent his time and energy in the organization of the company and the development of the power plant; that he caused to be conveyed to the defendant company Hamilton shools property and other property value at \$10,000 in which he had a third interest; that he was the leader in the organization and at one time prevented

foreclosure, and had subscribed for 75 shares in the company.

He found that there was a contract by which he was to receive one-third of the common stock, which amounted to 96 shares, and that he had paid for the 96 shares; and that the defendant company had refused to issue it to him; that for the purpose of gaining control of the company the defendants had purchased notes to the amount of \$6500 which were not due, and for which common stock was issued.

He also found that the plant developed 500 horse power and that by spending a few thousand dollars it would develop 1000 horse power when the plant would be worth \$10,000, which is greatly in excess of its actual cost.

The principal stockholders of the company are R. J. Picklesimer and his two sons, J. H. and C. W. Picklesimer.
