Moving on Tien-Tsin.

Tien-Tsin, Nov. 10.—Notwithstanding the avowed intention of the revolutionaries to take over the city, and the finding in the British concession of a proclamation to that effect, Tien-Tsin remains quiet and is still loyal to the reigning dynasty. A French gunboat, however, in anticipation of trouble, has moved up the river to protect

the Catholic mission.

General Chang's alde visited the Tien-Tisin consular headquarters on November 8 and presented a communication to the effect that General Chang intended to take over the city of Tien-Tain. He said he anticipated the transfer would be peaceful, but Manchu residents would be inclined to fight. Hence he wished the con-suls to take what precautions they deemed necessary. General Chang in his measage added that he had 20,-000 troops whom he desired to bring within the 20-mile limit prescribed by

the protocol.

The consuls have considered the viceroy's request that they issue a proclamation forbidding additional troops, particularly those from Enchau, from entering the interdicted area, within seven miles of Tien-Tsin. They have replied to the viceroy that such a proclamation was a matter for such a proclamation was a matter for the diplomatic body, but expressed the opinion that it was not desirable that further troops should enter the interdicted area. Tammany Man's Power to Control Delegation to Democratic National Convention Questioned.

New York, Nov. 10.-The revival of republican power in this state and city at Tuesday's elections is expected to make important political changes in New York city. Since the returns in-dicated that Tammany Hall's strength has been restricted, practically to one borough of Manhattan, its opponents are planning to emancipate the other boroughs from Tammany control. Charles F. Murphy has made no re-

ply to threats to supplant him as head of the organization. It is understood that Norman E. Mack, chairman of the democratic national and state ommittees, will be at Mount Clemens Mich., during Murphy's stay there and that other democratic leaders of na tional importance will join this conquestion about the power of Murphy and his friends to name the delegation which will represent the empire state at the next democratic national conention.

The rejection of Tammany by the emocrats of the Bronx is attributed largely to the attitude which Murphy last winter, in Albany, assumed toward the plans of the Bronx democrats to have their borough made a county, and to Mr. Murphy's refusal to let them have what they regarded as a fair apportingment of the con-gress districts in the Bronx.

Loss of the assembly deprives Tam-many of a great deal of patronage which was considerable of a help in buffding up an organization. It will also be a disastrous blow to the ambitions of the Tammany leader to reby him immediately after the success ful democratic contests of 1910.
