REFORM SCHOOL READY BY FIRST OF THE YEAR

Work on the Buildings at Old Waterworks Is Now Going on.

A number of people have been evincing considerable curiosity lately as to what is being done about the establishment of the reform school at the site of the old waterworks on the Swannanoa river. It was decided by the commissioners at their last monthly meeting that the school should be established and it was later announced that the work of repairing and getting the place in shape for the opening would be started at once. It was thought that the school would open in all probability on the first of December, although there might be a chance of its being done at an earlier date. It is not many days until December 1 and little has been heard about the matter.

A Gazette-News reporter tried to get some information concerning the school. There wasn't much to get, but what there was goes to show that the matter is not dead. As a matter of fact, men are at work on the buildings, and the school will probably have their work completed within the next two weeks. This work includes the covering of the two houses on the place, replastering where it is needed and rebuilding porches that had about rotted down. There is not going to be any great sum of money spent on the buildings, according to one of the men who have the matter in hand, but when the present repairs are completed and the place is ready to be occupied, it will be in fairly good shape and will at least be comfortable. There will be room for about 25 boys, if they are crowded, but it is not thought that there will be over 15 or 20 there at any one time.

According to present calculations the institution will be opened about the first of the year. It might be done sooner so far as the buildings are concerned, but a member of the board of county commissioners stated this morning that the delay would probably be caused by the difficulty of finding a man who is capable of taking charge of it. The success of the venture, in fact, depends upon the man who runs it and the authorities wish to make no mistake in choosing him. There have been a number of applicants for the position but it is said that none of them are considered capable. The trouble seems to be, that the ones who are capable are not anxious for the place.

That is the situation at present.

INSANE, SAYS HUSBAND, BUT NEIGHBORS SAY NOT

Habeas Corpus Hearing in Case of Mrs. Hughes—Judge Lane's Decision.

No cases were tried at this morning's session of Superior court Judge Lane having been engaged in hearing evidence in the habeas corpus proceeding, in which was concerned the matter of determining the mental condition of Mrs. John L. Hughes. The proceedings were instituted yesterday afternoon, after the officers, armed with a commitment, had taken Mrs. Hughes into custody preparatory to sending her to the state hospital at Morganton. Several witnesses were summoned and the evidence was not completed until about 1 o'clock today. Judge Lane decided to give Mrs. Hughes into care of her sister, provided the latter arrives from Virginia today as expected, and if not, she will be committed to the asylum.

A good deal of opposition developed to her commitment, several of Mrs. Hughes' neighbors testifying that she is sane. Dr. Whittington and Mr. Hughes, however, testified that she is insane.

The sheriff was made upon the statement of Dr. Whittington, who had examined her, and Mrs. Hughes was then taken into custody.

It was then her friends employed counsel, J. Frazier Glenn; the habeas corpus proceedings were started, and the papers served on the officer.

Some of the witnesses were examined yesterday afternoon, among them Dr. Hunnicutt, who said that he had not observed anything wrong with her mental condition, although he had not examined her with that condition in mind.

Counsel for Mrs. Hughes contended that she is suffering from delusions and that she has been in insane asylums before.

Revenue Agent Sams received a report today from Special Employee D. A. Kanipe of the seizure of another illicit distillery in Burke county last Saturday near Connelly Springs. Two men, Monroe Lail and John Huff, were captured while operating the plant and were held for federal court under bonds of \$500.

The North Carolina Electrical Power company has filed two petitions in the office of the clerk of the court asking that three men be appointed to lay off a right of way and assess damages for an electrical transmission line running from Marshall to Craggy through the property of C. F. Frady and J. H. Starnes, with whom the company has been unable to come to an agreement in this matter.

The city authorities are getting active in the collection of street, sidewalk and sewer assessments. The auditor has been working on the books for the past several weeks and the assessments are to be turned over to the tax-collector and if not paid by December 1, the property will be sold at auction. The books show that the city is carrying over \$130,000 of assessments of one kind or another, most of which are long past due, and efforts are to be made to collect this, some of which is to be applied on the interest of the bonded debt.
