

# Make Somebody Happy with a KODAK

Home memories that are cherished most are those of the great home day—Christmas. Better than mere memory, though, is the pictured story of the family reunion, the happy children, the gay young folks, the grown-up boys and girls back home again. The pictures taken with the Christmas Kodak will give pleasure the whole year round and for all the years to come.

Let us show you the simple Kodak way which makes picture-taking so much fun. We have Kodaks at \$5.00, others up to \$65.00.

## GOOD MARINES, MAYBE; CANNOT PLAY FOOTBALL

Bingham Ate the Charleston Aggregation Bodily—  
Score 64 to 0.

Yesterday again the expectations of a good football game at Riverside park, between Bingham and the United States marines of Charleston, were shattered and instead of there being a close and interesting contest it was another walk-over. This time it was worse than at any previous time this season, the final score being 64 to 0 in favor of Bingham. It looked more like a track meet than a football game, and it required no arts on the side of the locals to win. All they had to do was to coax the quarterback to let them have the ball and then

they could run to their hearts' content and make just as big a hit with the rosters on the side lines as they wanted to.

In the first quarter the cadets made three touchdowns and kicked two goals, following this in the second quarter with two more touchdowns and one goal. For the first half of the play of 30 minutes they had secured 23 points. In order to cut down the merry-go-round, possibly, the quarters in the last half were reduced to 12 minutes each and then things got worse than ever, for in the last half the locals made six touchdowns but didn't take the trouble to kick any more goals.

Certainly it is an undignified fact the marines haven't any team. Nobody can tell what the cadets could do unless they should happen to run up against a good team.

The line-up for the teams yesterday was as follows:

**Marines:**  
Hinkle, R. E. Presas  
Condon, R. T. McIntyre  
Markle, R. G. Hinson  
Smith, C. McDonald  
Lesure, L. G. Walton  
Strobel, L. T. Ray  
Morgan, L. E. Post  
Livingston, Q. Norton  
Dennis, R. H. Hickman  
Schwyler, L. H. Angier  
Ritzenheim, F. Wright  
**Officials:**—Lynch, referee; Thompson, umpire; Cox, field judge. Time, first and second quarter, 15 minutes; third and fourth quarters, 12 minutes.

## OPPOSED TO EXTENSION OF CEMETERY LIMITS

Petition Against It Being Circulated by Property Owners of Neighborhood.

It was announced several days ago that the Asheville Cemetery company intended extending the bounds of Riverside cemetery, the proposed extension to bring the cemetery grounds within 300 feet of Pearson drive, and that proper application would be made to the board of aldermen. That announcement has not met with favor among the property owners in that section of the city and there is likely to be a big fight over the matter before the extension is granted or until the proposition is given up. The property owners and others interested hope that the latter will be the case.

In order to make the extension of the cemetery company must have the consent of the board of aldermen of the city. If the aldermen give their consent then the extension be made so the people who are interested in the matter propose to go before the aldermen themselves to fight the proposition. A petition is now in circulation which is receiving a number of signatures, asking the aldermen not to grant the request for the extension. This petition may be laid before the board tonight but if not then it will be presented at an early meeting.

The reasons why the signers of this petition do not think it advisable to have the bounds of the cemetery increased are plainly set forth in the petition and are five in number. Essentially these reasons are as follows:

"First: That there is a modern and well grounded sentiment existing today among all enlightened people against the laying out of cemeteries within the limits of cities or other populous places.

"Second: That since the site of the proposed extension is on one of the highest points in the northwestern part of the city, the large extent of the cemetery will be advertised to the four quarters of the country as soon as a part of the trees are cleared away, which would be a bad advertisement for Asheville as a health and pleasure resort.

"Third: That the proposed extension would prove of incalculable damage to property in that section since there is a popular prejudice in the minds of most people against acquiring property in the neighborhood of a cemetery or living there afterward.

"Fourth: That the land for the extension has been secured since the extensive building operations have been going on in that section of the city; that it is rather wedge shaped and extends far into some very valuable residence property; that further building extensions in the future would be practically forced if the extension were made.

"Fifth: That there are other cemeteries now existing near the city and further that the Cemetery company now owns an abundance of land sufficient for present purposes that is not in such desirable residence property and that it is already enclosed."

For these reasons the signers of the petition think that the proposed extension would be prejudicial to the general welfare of the city and especially to the neighborhood surrounding the extension. They therefore ask that the board of aldermen deny the application for the extension if such is made.

ing at 10 o'clock at the new rifle range in the Beaverdam section, was not pulled off for the reason that there were not a sufficient number of the "bluecoats" present to form a team. Several of the soldier boys were out, however, and they did some very fine shooting by themselves. The distances from which the shooting was done and the time for the shots were: 15 yard line, five shots in 10 seconds; 25 yard line, five shots in 20 seconds; 50 yard line, five shots in 30 seconds. Following are the scores which were made, each score representing the number of perfect shots, or what are considered perfect ones, out of a total
