# Cottolene

Let the children eat their fill of doughnuts-if made from Cottolene. There's no stomach-ache or indigestion in Cottolene doughnuts, because Cottolene is a vegetable oil product, pure and healthful as olive oil. It makes food rich, without making it indigestible. It makes food palatable without the greasiness of lard-soaked food. It is more economical than butter or lard because one-third less is required.

From the standpoints of health and economy, Cottolene is unquestionably the leading cooking fat on the market.

Use one-third less *Cottolene* than butter or lard.
