AMUSEMENTS

COMING ATTRACTIONS. TONIGHT, 8:30—Dockstader's Minstrels. Dockstader's Minstrels. The Inimitable Lew Dockstader with a big company of merry-makers.

has been produced on a scale of magnificence and bigger and better than the former high standard set by Dockstader. Among the song hits introduced by Dockstader are "Lord Have Mercy on the Married Man," "Huh for the Red, White and Blue," "Father Sees Us Twice a Year," and "I'm Surprised, That's All." Neil O'Brien, one of the funniest of humorists in burnt cork, is an added feature to the show this season. The performance opens with a most novel first part entitled "The Controversy of Melody and Laughter," which is said to be one of the most pretentious semi-circles ever offered in minstrelsy. Prices: 50 cents to \$1.50.

who are the pick of the American minstrel, will entertain the local playgoers at the Auditorium tonight. There has never been a time when it is said, the Dockstader minstrels numbered as many fine voices as this season. Mr. Dockstader will tell some new stories, and offer a monologue on "Daffydillies." Neil O'Brien has a new farce called "Reforming the Force." There are many sumptuous settings and brilliant light and color effects. The musical numbers of Lew Dockstader's minstrel show are said to be of singular beauty and musical excellence and the entire organization

INSPECT PLACES THAT SELL FOOD

Plan Recently Inaugurated by Sanitary Department, and Method of Grading.

METHOD, 100 POINTS, AND EQUIPMENT 100

How the Score Card Is Subdivided—No Stated Times for the Inspections.

The sanitary department of the city has lately inaugurated a very effective system of grading the restaurants and places where foods are prepared for sale or sold, which would also include bakeries, grocery stores and fruit stands. By this arrangement the restaurants and other places are graded every month. So many points are allowed for different phases of the particular business which is being inspected. There is a possible 100 for equipment and 100 for methods. In arriving at the grade, the number scored on equipment is added to twice the amount obtained on methods and this is divided by three, which gives the average grade.

**Equipment.** Under equipment, 10 is possible for construction and under this 7 for drainage, 2 for walls, and 1 for ceiling. Seven is the possible amount for arrangement, under which 4 for proper rooms and the 3 for conveniences. For light, ventilation and screens, 5 each is possible. For the cellar 3 is the highest grade.

The best for plumbing is 20, that is 10 for closets and 10 for sinks. Particular equipment is put down as 25, under which is 15 for ice boxes, 5 for tables and 5 for utensils. Water for cleaning is counted as 20, for hot water 15 and for cold 5. There are additional deductions for exceptionally bad conditions.

**Methods.** "Methods" is subheaded as follows: Cleanliness of plant, 20; cleanness of equipment, 30; employes' cleanness, 5; foods, 30; garbage receptacles, 15. Under plant cleanliness is 3 for floors, 3 for walls, 1 for ceiling, 1 for doors, 1 for windows, 1 for good order, 2 for "free from odor", 6 for freedom from flies.

Under cleanliness of equipment is 10 for ice boxes, 5 for tables, 5 for sinks, 10 for utensils.

The grading for foods is as follows: Conditions 10, storage 10, handling 5, cleanness 5.

Garbage receptacles are graded 5 if they are adequate, 5 on location, and 5 on condition.

There are also other deductions for methods in case of exceptionally bad conditions. The grading is obtained as follows: If the inspected plant scores 94 for equipment and 92 for methods, the 92 is doubled making 184 and the 94 is added, making 278, and then divided by three which gives 92 2-3.

There are indications that the plan is working well. The proprietors of the places inspected, at least some of them, are as anxious to have as good grades as a school boy or girl is to get good marks at school.

As they have no way of telling when the inspector is going to call, they are more likely to have things in pretty good shape all the time.

METHOD TO RAISE MONEY FOR BUILDING ROADS

Penny Stamp, Devised by Dr. Joseph Hyde Pratt, Is Offered for Sale.

Dr. Joseph Hyde Pratt has brought into play a very novel method to raise funds for good road work. He has had some attractive stamps printed something like Christmas stamps, which are put up in rolls of 50 each and sold to those who desire to give the plan their support, for 50 cents.

They are a little over an inch square, are white and light blue in color and around the sides are the following words: "Better business; better farms; better homes; better people." In a circle inside is: "North Carolina Good Roads Association—Lend a Hand;" and inside of this, "Better roads in N. C."

E. C. Chambers of the local association is selling these stamps here and is having very good success at it, the idea being that business men will use them in their correspondence.

AUTOWAY EXTENSION UNDER CONSIDERATION

Motor Club Discussed a Number of Important Matters Last Night.

Several matters of importance were discussed last night at the meeting of the Asheville Motor club, among which was the proposition to build a motor road from the terminus of the Grove autoway at the top of Sunset mountain to Craven's gap, which would give an exclusive automobile road about nine miles in length. A committee, composed of Dr. C. P. Ambler, C. Sawyer, and H. C. Chedester, was appointed to secure estimates of the cost of construction.

A communication was received from the American Association of Highway Improvements saying that the application of the local club for membership in the national association had been received and also the invitation for the association to hold its convention in Asheville, and that the matters had been taken under advisement. Three other organizations interested in better roads meet with the above organization in the next convention and it is expected to bring together a large number of good road enthusiasts, for which reason the several municipal organizations will make a strong effort to secure it for Asheville.

A request from the board of trade asking that the club co-operate in the raising of the amount of money Bon-combe is asked to contribute to the Greater Western North Carolina association was referred to a committee appointed to make recommendations.

A motion was carried that the club use its influence to discourage the placing of advertising signs on automobile highways.

R. E. Edwards was elected to membership.

IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "92" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "92" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet requisite, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "92" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to your every penny you paid us for it. Two sizes, 50c and \$1.00. Sold only at our store—The Rexall store, Smith's Drug Store, Cor Pack Square and South Main St.

NEW HIGH SCHOOL

Mt. Carmel School, Beginning Monday, Will Have Three Teachers in Faculty.

The Mt. Carmel school will open as a high school Monday. Miss Agnes Sams having been added to the faculty, which is now composed of three teachers. The school house has been enlarged, the county having furnished the necessary material and the people of the district doing the work.

For the high school the state furnished \$250, the county \$250; from the general school fund \$280 is appropriated; and from the special tax \$250. The high school district has about 140 pupils.

About the Time It Takes for a Stuart's Dyspepsia Tablet to Work on the Food and Bring Relief.

TRIAL PACKAGE SENT FREE.

There is no long wait between the time you take a Stuart's Dyspepsia Tablet and the feeling of relief it will bring to an overloaded stomach. It gets busy in a jiffy and quickly sets things to rights in that tired and disordered stomach. It goes right at the work of digesting the food it finds lodged there and in no time at all has things on the move—the gases cease forming, the breath is sweetened, the coating on the tongue disappears and you are no longer conscious that you even have a stomach.

That is one of the chief recommendations for Stuart's Dyspepsia Tablets—that they don't take forever to accomplish the purpose of which you need them. It is just as if you put an extra stomach or two to work when your needed help. You can't continually overload your stomach and expect it to always make it. It is going to get rebellious and sulky after awhile and refuse to go on being driven to do double work. You must rest it occasionally—not by starving and there-by weakening yourself physically—but by using a Stuart's Dyspepsia Tablet to do the work of digesting your food.

These tablets contain all the active elements of the natural stomach juices and will alone and unaided digest food just the same as the gastric juices. And nothing could be more harmless than these tablets. They do not effect the system in any way—do not cure any ailment except as they digest food. Use them freely.

Stuart's Dyspepsia Tablets are sold by all druggists everywhere. Price, 50 cents per box. A trial package will be sent if you will write F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

WELL KNOWN SQUASH PLAYERS IN SPIRITED CONTEST.

GEORGE WHITNEY, JOHN W. PRENTISS. John W. Prentiss, second in national rank as a squash player, met defeat in New York the other day in a spirited contest against George Whitney, of the Harvard Club. In justice to Mr. Prentiss, it must be admitted that the odds were decidedly against him. In addition to being compelled to make ten points before he could register one, the conditions required him to make two in succession to count.
