General Who Put Mexican President in Now Seeks to Unseat Him.

FIGHTING IS BEGUN AT CHIHUAHUA CITY

Federalists Take to Initiative as Rebels Start Movement on the National Capital.

Washington, March 4.—Definite confirmation of the disaffection of General Pascual Orozco from the Madero government in Mexico reached the state department today in a delayed telegram from American Consul Summers at Chihuahua.

El Paso, Tex., March 4.—A telegram stating that fighting for the possession of Chihuahua City, capital of the Mexican state of that name, had begun, was followed yesterday by the hasty departure of the rebel garrison at Juarez to join their comrades in the fight.

Two telegrams bearing on the fight were received by Gen. Salazar, the Juarez commander, from Braulio Hernandez, one of the rebel leaders at Chihuahua.

The first telegram from Hernandez stated that his force, numbering about 220 men, and some of the force of Pascual Orozco, had been defending Chihuahua against an attack by federal troops under Col. Pancho Villa.

"Orozco is with us," the telegram said, meaning, the rebels declare, that he has announced himself openly as in arms against Madero.

Orozco had pressed. There was no intimation as to how serious the reported fighting was but the Juarez leaders received the impression that Villa's attack had been a surprise and that Orozco, if not defeated, was in immediate need of assistance.

There was no lack of box cars in the Juarez yards when the movement to the south was decided upon. The matter of motive power was more difficult, but two locomotives eventually were secured.

TWO FORMER FRIENDS AND THEIR FRIENDS

BELIEVE MOREHEAD WILL BE DEFEATED

Opponents Also Believe That Marion Butler Is Riding for a Fall.

Jacksonville, March 4.—S. Silverstein, a German merchant, is dead, his wife lies in a hospital with a fractured skull and their two children, a boy and a girl, are badly injured, as the result of the attack of a negro burglar in their store and residence in the Brooklyn suburb late Saturday night.

The dead body of the merchant and the prostrated forms of his wife and son were found late Sunday morning after the little girl had ventured into the street. She related the story of the murder and assault.

The child says that after closing hours Saturday night a negro came to the house and asked her father to sell him some groceries. While he was in the store he struck the merchant over the head with an iron pipe, then assaulted the woman and children.

The cash drawer in the store was robbed as were trunks and bureau drawers. The police have no clue to the guilty person.

Mr. Dockery is of the opinion that the fourth, sixth and tenth congressional districts are already for Roosevelt and he believes the sentiment in this state is largely for him.

The anti-Morehead men in this section, and there are a number of them, declare that Marion Butler will never defeat E. C. Duncan for national committee and what is more they say Morehead will be defeated for state chairman.

STRIKE CONDITION IS EXAGGERATED

So Foss Writes—Member of Lawrence Strike Committee Testifies.

Washington, March 4.—Conditions growing out of the Lawrence textile strike have been greatly exaggerated. This fact was communicated to the house rules committee this morning in a communication from Governor Foss at the committee's hearing.

Samuel Lippson of the strike committee, recalled to the stand, was given a grilling cross-examination by Representative Hardwick of Georgia. Mr. Hardwick inquired into the purpose of sending children away from Lawrence.

"Was it for their own good or to arouse sympathy throughout the country?" Hardwick enquired. Lippson said it was to keep them from the strike's dangers.

Lippson testified that when they tried to get the children to the train the police pushed the women and children with clubs. "Then we decided," said Lippson, "to appeal to our ambassadors for protection."

Representative Hardwick asked, "then most of you are foreigners, and decided to appeal to foreign governments, rather than the United States for protection?"

Lippson had previously testified it was because of a lack of funds he had not become an American citizen. Representative Barrett asked, "Isn't it true that you are not in sympathy with our institutions and would not take the oath to support the constitution?"

"Then you are not an anarchist?" he was asked. "I was never arrested until the strike," he replied.

LEGATION QUARTERS UNDER HEAVY GUARD

German Physician Killed in Recurrence of Disorder in Peking—Japan Sends More Soldiers.

Tien Tsin, March 4.—Absolute quiet prevails today in all parts of the city as measures taken by foreign consuls and commanders of troops of the various nations have intimidated the riotous element.

There is no looting or incendiarism, but a feeling of restlessness prevails and all trade is at a standstill. Ruin is seen in every important thoroughfare. Some partly burned corpses lie about the streets.

Peking, March 4.—Rioting of a serious nature took place here Saturday night. The outbreak had been feared and precautions were taken as far as possible to protect residents from harm.

Between 9 and 10 o'clock the soldiers mutined, set fire to a number of buildings and then began looting from house to house. They were joined by the rabble. Shops and banks in all the important streets were looted and some of them were wrecked.

In order to intimidate the populace the soldiers kept up a continual gunfire. The rattle of musketry could be heard throughout the night. Only a few police remained loyal and they were outnumbered and powerless to suppress disorders.

No fewer than 14 fires were raging in various parts of the city. The soldiers broke into the Pei Yang mine, which was set on fire. Machinery to the value of many thousands of dollars was destroyed.

The looters entered the silver stores wrenching off the shutters and even making holes in the walls. The mint was looted of everything portable, and the ground was strewn with empty cartridge clips and cases.

The German consul dispatched a guard to protect German residents in the city, composed chiefly of the engineering staff of the Tien Tsin Puhow railway. A German doctor named Schreier, who entered the city to assist German friends, was shot dead by looting soldiers.

A company of the Somerset regiment was sent to the British station at midnight to protect the railway property.

An Associated Press correspondent, while proceeding from Peking to Tien Tsin yesterday witnessed a critical incident at Peking, which was in the hands of the mutineers.

The train pulled in between lines of troops of the Somerset regiment, who were crouching with guns loaded and bayonets fixed. One hundred yards away were groups of Chinese soldiers who were sulkingly discussing the action of the British.

They were given one hour by the British commander to vacate their positions. Just about that time 700 of the inniskilling fusiliers arrived and began to detain a quarter of a mile away. The Chinese, who numbered 1500, did not move until the inniskillings marched up and took their positions. Then they scurried away in all directions as the train continued to Tien Tsin.

Eight hundred foreign troops patrolled the outskirts of the legation quarters for three hours, but there were no disturbances. There are now 3000 foreign troops in Peking and the natives feel safe. Five thousand Japanese troops have been ordered from Port Arthur to Tien Tsin, where there are only 1500 foreign soldiers.

VICTORY SURE ASSERTS DIXON

Col. Roosevelt's Campaign Manager Discusses Conditions in eRepublican Party in North Carolina.

SAYS THREE DISTRICTS WILL GO REPUBLICAN

High Praise From Former President for Members of His Party in This State.

Gazette-News Bureau. Wyatt Building, Washington, March 4. Senator Joseph M. Dixon, a former North Carolinian, and who today took active command of former President Roosevelt's campaign for the republican nomination for the presidency has given the Gazette-News an interview on the forthcoming campaign.

He predicts the nomination and election of Mr. Roosevelt and says the nomination of the former president means three and possibly four republican congressmen from the state at the next election. Mr. Dixon said:

"Believing as I do that the overwhelming sentiment among the republican voters in the north and west is for the nomination of Colonel Roosevelt as president, it has given me peculiar satisfaction to learn of the widespread movement in his behalf in my old native state of North Carolina.

With a virile, strong, real republican party, as I know there is in North Carolina, made up of men who have stood under adverse circumstances for republican principles, I want to see the republicans of my own native state keeping step with the republican party of the great states of the west and north.

Never Last Victory With Roosevelt. "With Roosevelt as our leader we have never yet lost a victory. I believe his nomination will give courage and enthusiasm to every loyal republican not only in North Carolina, but in the nation at large.

"With Roosevelt as our candidate we can carry three or four, and possibly more, congressional districts in North Carolina. With Roosevelt as our leader the republican party will emerge from the fog of uncertainty that surrounds it at the present time.

"Roosevelt's great strength with the people lies in this thorough knowledge of men and conditions and his sympathy for the masses. When he was president, I remember that his knowledge of men and conditions in North Carolina was wonderful. I distinctly remember when I first met him nine years ago as the newly elected congressman from Montana, and he thought it was a queer condition of politics when a North Carolina Quaker should be representing so wild and woolly a constituency, as the state of Montana.

Roosevelt Praised Tar Heel Republicans. "During the early agitation over the selection of a federal judge for the eastern district of North Carolina to succeed Judge Purnell, he sent for me one day to make some inquiry regarding a certain condition in the state. During the conversation, after commenting on the steadfastness of purpose of the North Carolina republicans under discouraging conditions, he said: 'I know of no situation in the south that calls for more real admiration on my part than the fighting courage of the rank and file of the republicans of your own native state.'

"I also remember that Mr. Roosevelt at that time was of the belief that there were plenty of judicial timber among North Carolina republicans from which to select a federal judge. Unfortunately his successor did not evidently labor under the same impression as did Colonel Roosevelt.

"His great strength also lies in the fact that all republicans can and will rally to his standard. Under his former leadership there was no factional discord. With Roosevelt as our nominee at Chicago, the present divided ranks will close up and go forward to a splendid victory."
