

BLOODY RIOT IN BUDAPEST

Strikers Disobey Leaders' Orders and Fierce Street Fighting Is in Progress Today.

TROOPS CALLED OUT TO ASSIST POLICE

Six Are Killed and 160 Are Wounded, 100 of Them Seriously—200 Arrests Made.

Budapest, Hungary, May 24.—Fierce fighting has broken out again in the streets between the strikers and the police. A large force of troops was called to the police's aid today. A big mob of men disobeyed their leaders' orders to return to work and renewed yesterday's wrecking tactics. The infuriated men first overturned a number of street cars and demolished display windows on the principal streets. They fiercely attacked Calvary church. In Neuchâtel they fired a factory, feeding the flames with petroleum. Troops attempting to quell the riot were targets for revolver shots. The rioters replied with their rifles. Rioters and troopers suffered heavy loss.

Five hundred strikers stormed the electric works and were beaten off by troops. Excitement throughout the city was intense. Rioting continued late this afternoon.

The general strike called by the socialists yesterday was marked by bloody conflicts. Fifty thousand workmen, representing half the factory hands here, participated in the disturbances. The list of casualties shows six killed and 160 wounded, 100 of them seriously. The police have made 200 arrests.

Only about one-third of the workers obeyed the order to strike. To the number of 50,000 they marched through the city, attacking men at work and being frustrated in attempts to hold demonstrations outside the parliament buildings, resorted to reckless violence, pillaging and destroying property of all kinds.

The rioters stopped all traffic, formed barricades of street cars and demolished hundreds of gas lamps, and came into constant collision with the police and troops. The fighting continued until a late hour.

A notable feature of the outbreak was the participation of a large number of schoolboys and apprentices, armed with revolvers. The rioters displayed a stubborn spirit, remaining behind their barricades until driven to shelter by the police. The parliament buildings, stock exchange, banks and railway stations are now occupied by soldiers and additional troops have been summoned from neighboring towns.

The origin of the outbreak was entirely political, due to the prospects for getting universal suffrage, which was rendered more remote by the election of Count Tisza, the bitterest opponent of the extension of the franchise.

Gov. Wilson Tells Why He Doesn't Take Stump

Stands on His Gubernatorial Record and Attacks His Opponents.

Trenton, N. J., May 24.—Governor Woodrow Wilson today issued an "address to the voters of New Jersey" explaining why he did not take the stump to ask for their votes at the coming primaries and attacked his opponents, who organized against him, and placed on the primary ticket, a full set of "uninstructed" delegates to the national convention. Wilson is the only candidate for the democratic presidential nomination openly seeking votes at the state primaries.

Wilson says nothing he could say upon the platform could alter for better or worse the record which the state well knows. He says: "It would be unbecoming in me to commend it to you or to seek to give it color by my own exposition of it."

NO INSTRUCTIONS BIND DELEGATES

Wilson Men Tied Up Only Two Votes of Old Dominion's 24.

Norfolk, May 24.—The democrats action by the Virginia democrats state convention, the state's 24 votes at Baltimore will be cast by 36 delegates. The unit rule can be applied only by a two-thirds vote after the first ballot. If the contention that 11 out of 24 votes are for Woodrow Wilson is correct, these 11 can prevent the enforcement of the unit rule.

Norfolk, Va., May 24.—The democrats of Virginia in state convention here yesterday named 22 delegates to the democratic national convention at Baltimore in June to cast the Old Dominion's 24 votes in that convention.

With the exception of two instructed votes for Woodrow Wilson, the Virginia delegation is without ties of instructions or preference resolutions. The first district instructed for Wilson.

Of the state's 24 votes, the line-up is believed to be eleven pronounced votes for Woodrow Wilson and 13 unpronounced in choice. Of the latter 1-3 are expressed for Underwood; 2 1/2 lean to Underwood; one is for Clark and one for Harmon.

The unit rule will not be applied until the delegates get to Baltimore and then not until after several ballots shall have been taken and two-thirds of the 24 votes are cast for a unit rule application in the delegation.

This was a compromise with the Wilson forces which were strong in desire to have the convention go on preferential record for their favorite candidate.

GOAD TESTIFIES AGAINST C. ALLEN

Chair in Which Massie Sat Exhibited to Jury at Wytheville.

Wytheville, Va., May 24.—The bullet-scared chair in which Judge Thornton L. Massie sat at Hillsville the day he was killed in his court room and for whose murder Claude Swanson Allen, one of the younger members of the Allen clan, is being tried, was exhibited to the jury today to show from which direction the shots had come. Clerk Dexter Goad, one of those who finally put the Allen to route at Hillsville, took the stand against Allen. He testified he heard shots from the northeast corner of the court room, where other witnesses testified Claude Allen stood during the shooting.

That Wesley Edwards, still a fugitive from justice, distributed cartridges to members of the Allen clan shortly before the shooting up of the Carroll county court, was the testimony yesterday of John Dalton, a young farmer. Dalton also said he saw Byrd Marion shoot several times on the court house green, and this has caused the prosecution to order the re-arrest of Marion, who was released on bail.

Thirteen witnesses were examined yesterday, among them being Detective Lucas who arrested Claude Allen, J. W. Early, a member of the jury which convicted Floyd Allen at Hillsville in March, testified the first shots came from the corner of the room where Claude Allen was standing.

Several Witnesses Who Know Her Testify as to Her Movements and Statements.

TESTIMONY OF OFFER OF \$150 MADE TO HER

This Was to Be in Jewelry, That Myrtle Was to Take From Her Father's Store.

Special to The Gazette-News.

Hendersonville, May 24.—The testimony of four Asheville witnesses, mainly directed against Mrs. Shaft, one of the defendants in the Hawkins case, was heard this morning. R. S. McCall conducted the cross-examination.

Katie Wheeler testified that she knows Mrs. Shaft. At the Asheville depot, September 7, between 1 and 2 o'clock, she saw Mrs. Shaft with another woman. The former wore a black skirt and white waist. Did not know the other woman. Saw Mrs. Shaft buy two tickets for Hendersonville.

Cross-examined: The other woman was light haired and of average size. She was pretty sure the other was Mrs. Shaft. She did not see them get on the train; went herself to Marion to work in a cotton mill. Tilda Dryman, who was with her, said it was Mrs. Shaft. She did not think she could be mistaken as to the time. Katie said she was married to Jim Miller, although going by the name of Wheeler. Asked whether she conducted a disorderly house she said no, but used the occasion to slip in a quick remark reflecting on the character of her sister and "Laver Bennett." She denied, among other things, that she stayed at a negro's house in Hendersonville. She denied she told Deputy Mitchell she had sworn a lie at a former hearing.

Tilda Dryman testified that Thursday before the firing of the body she was at the Asheville depot and saw Katie Wheeler.

She saw Mrs. Shaft and another woman that she took to be Mrs. Britt, but she would not swear to this, as the woman wore a veil. She only spoke to Katie Wheeler. She heard Mrs. Shaft ask for two tickets to Hendersonville. She works for Mrs. Balfew on Spring street, near Mrs. Britt's. Attempt was made to bring out that she would have known the Britt woman, but she said she could not be positive on account of the veil. She did not remember when she told Chief Garren about seeing the women at the station in Asheville. She said she did not come here with the Wheeler woman. She said she spent one night at a negro's house here. She does not know where her husband is, but denies he left her because he detected her in infidelity. She admitted she had had trouble with the Britt woman. The latter had said that if Tilda testified against her she would kill her, she understood. Mrs. Britt had stricken her with a piece of iron.

Justice James H. McIntyre was the next witness. He knows Mrs. Shaft; had a general conversation with her September 15. She told him she knew the Hawkins family; they were nice people. Said Myrtle did not die from an operation, but from the effects of chloroform. He testified Mrs. Shaft had attended his wife as midwife. Denied that they regularly employed her; said they only did so when they could not get a physician. He testified as to where the two women lived, indicating that one would naturally have got on the train at Biltmore and the other at Asheville. He said he got his impression as to the theory of the case from the newspapers. He could not tell what Mrs. Shaft meant when she said the girl died from chloroform; she might have said "I think she did." Admitted Mrs. Shaft had caused his ejection from a house as a tenant. It seems she had bought the house. He said he might at present owe her money, and that she had asked him for pay for services. He denied he had any special ill feeling against her. He did not know that he had ever been charged with damaging her property.

Yancey Guest, an Asheville painter working in Hendersonville, was called. His testimony was the most sensational of the morning. Sunday before the Tuesday, when she was arrested, Mrs. Shaft asked him what was done to women sent to the penitentiary; whether their heads were shaved. At the home of her son-in-law, Stepp, a conversation occurred. Guest said the Bradleys were in jail. The defense objected to the admission of the conversation that ensued, and the jury was sent from the room. The conversation was about as follows:

Stepp—I don't care if it was my mother, whoever did it ought to be hanged.

Mrs. Shaft—O, it is not as bad as that; O, it is not as bad as that. It was not the operation, it was an overdose of chloroform.

Stepp—it was bad to kill two people.

Mrs. Shaft—Only one was killed. The court allowed Mrs. Shaft's answers, but not what Stepp said, to go to the jury.

Was to Get \$150 in Jewelry.

Arthur Miller, living here, was the next witness. His daughter married 600 men.
