

PRESIDENT HAS 201 DELEGATES

Exclusive of 72 Contests Awarded Him by National Committee, According to Associated Press.

411 ARE INSTRUCTED FOR COL. ROOSEVELT

La Follette Has 36, Cummins 10—There Are 254 Contested and 166 Are Un-instructed.

The Associated Press last night compiled and sent out what it considers "reasonably dependable" figures of the instructed, uninstructed and contested delegates to the Chicago convention.

Instructed for Roosevelt and uncontested, 411. Instructed for Taft and uncontested, 261. Instructed for LaFollette and uncontested, 36. Instructed for Cummins and uncontested, 10.

Chicago, June 10.—The possibility of the arrival here of Col. Roosevelt within the next few days furnished the chief topic of discussion at both Roosevelt and Taft headquarters with the beginning today of the final week of preliminaries for the national convention.

Another test vote came unexpectedly soon after the committee met and the Taft forces won 23 to 13. It was announced when the committee was called to order that the California contest would be taken up first.

Indiana cases involving 12 delegates were then taken up. During the argument Horace G. Stillwell, for Roosevelt, aroused the ire of the Taft forces saying, "I am sorry to stop the process of your steam roller and give this case a fair consideration."

The Indiana delegation at large, four votes, was given to Taft. The contests in Alabama, Arkansas, Florida, and Georgia which were decided last week, added a total of 72 delegates to the strength credited to Taft.

The vital importance of the decisions of the national committee on the decisions of the national committee on the contests is apparent to anyone studying the lists of delegations. Such study incidentally discloses the great weight which may attach to the 36 delegates from Wisconsin and 10 from North Dakota, instructed for LaFollette and the 10 from Iowa, instructed for Cummins.

There is no reconciling the conflicting claim of the Taft and Roosevelt managers regarding the respective strength of their followings; each is figuring into his tables delegations emphatically claimed by the other on the strength of convention indorsements, alleged pledges and other more or less substantial grounds.

Reasonably dependable, however, seem the figures collected by the Associated Press from which can be derived what may be described as the "bare bones" of the situation. These figures, which are unofficial and by no means guaranteed, are as follows: Whole number of delegates 1075. Necessary for nomination 546. Instructed for Roosevelt and uncontested 411.

Osterhaus Has Extra Men to Land in Capital of Cuba.

Washington, June 10.—American marines will be available for service in Havana before noon today. The battleship Rhode Island and the cruiser Washington, which left Key West early today, are expected to make the run to the Cuban capital in six hours.

The gravity with which the government regards the situation is indicated by the fact that Rear Admiral Osterhaus is to observe conditions at first hand. The remainder of the third division of the fleet remains at Key West, but can join the others in a few hours if needed.

Minister Beaupre's message reporting a race war in Havana said that conditions in and around Havana had been menacing since Friday night and that Saturday night there were anti-foreign demonstrations of large proportions by irresponsible elements, and that there were clashes in every quarter of Havana and vicinity.

The state department has decided to leave entirely to Rear Admiral Usher, commanding the fourth division of the Atlantic fleet, the disposition of the American marines who are to be employed as guards for foreign owned property in eastern Cuba.

It is felt that being on the scene, and an officer of much experience in such matters, Admiral Usher should be given a free hand to deal with developments without delaying to seek authority from Washington in each case requiring action.

Intervention Think Cubans. Havana, June 10.—Publication in the morning papers of the news of the dispatch of United States warships from Key West to Havana created a profound impression. Popular impression is that this means intervention but officials scout intervention, regarding the sending of warships as a friendly act.

Officials assert rioting in Havana Saturday night was not significant of race hatred, but do not explain the reason for the extensive military preparations taken to prevent trouble tonight.
