

ABUNDANT FLUFFY HAIR IS IMPOSSIBLE IF YOU HAVE DANDRUFF

How often do we hear or see this expression used in describing a beautiful woman?

Denude that head of hair and instead of a queenly, royal bearing we have a fright. To have that glorious abundance of radiant hair which always crowns "a regal head," one should use Newbro's Herpicide.

Herpicide represents the last word in scientific hair culture. It destroys the dandruff germ, checks falling hair and corrects generally diseases of the hair and scalp.

The positive results and its delicate but refreshing odor recommends Newbro's Herpicide to ladies of refinement everywhere.

Send 10c in postage for sample bottle of Herpicide and booklet to The Herpicide Co., Dept. R, Detroit, Mich.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

UP-TO-DATE DRY CLEANING PLANT

Asheville Dry Cleaning Co. Has Installed Latest Improved Machines.

The plant of the Asheville Dry Cleaning company, situated on Lexington avenue, is now completed and is one of the most up-to-date that can be found in the south. E. S. Paine, who is a half owner of the Mountain City laundry and a veteran in the business, is the proprietor and will be assisted in running the place by S. V. Freeman and O. E. Hanson, both of whom have had years of experience in the largest dry cleaning plants in the country. Besides the plant here, Mr. Paine has like plants in Columbia, Jacksonville and other large southern cities.

The plant which he has established here appears to be a model of what a dry cleaning plant should be. No expense has been spared to make it the best, and the result is that the people of the city have a plant that they may rest assured can do any kind of dry cleaning work that they may want done and do it in the best way known to the cleaners.

The plant has all the improved machinery obtainable. The washers are rotary and run by machinery. The materials to be cleaned are put into an initial washer with gasoline and cleaning soap and given a thorough washing. They are then taken from this and put into a centrifugal machine and the most of the dirty gasoline is thrown off. When this is completed the materials are again washed, this time in pure gasoline, the process being called the rinsing. From here the material goes to a dryer, where the gasoline is so thoroughly removed that not the slightest odor of it remains.

This completes the cleaning process and the pressing is done on steam boards which puts new life into the fabric and restores it to the condition of immaculateness, free from wrinkles or wrinkles, as when it was new.

For ladies' wearing apparel practically the same process is used as with the heavier materials except that distilled gasoline is used for the cleaning and the drying is a slower process carried on in a metal drying room, where there is absolutely no chance of the goods being injured, no matter how fine or delicate the fabric.

All the clothes after being pressed on the steaming boards, are put on hangers, enclosed in sanitary bags and delivered in this way, never being crumpled up, but hanging in a natural position in the delivery wagon, where no dust or dirt may get to them.

Besides wearing apparel the plant is also equipped to do the heavier cleaning work, a special machine being installed for the cleaning of carpets, rugs and other heavy materials. These are thoroughly dusted in a big machine made especially for the purpose before they are put into the

Why Salves Can't Cure Eczema

Since the old fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for Smith's Drug Store, corner Pack Square and South Main St.

cleaning mixture, and then as much care is taken of the cleaning and drying process as is ordinarily accorded wearing apparel.

There are also facilities in the plant for the cleaning of the finest articles of ladies' wear, such as gloves, plumes, or anything in fact that gets dirty. Special processes are used that guarantee the best results, and these processes and the whole work are backed by the thorough experience of the men behind the plant.

BARNES COMING TO TAFT CAMP

(Continued from page 1)

and contestants were in the places when this question arose. Mr. Dick argued that a similar delay had been granted last week in the California case at the request of the Roosevelt people, and he thought he was entitled to the courtesy. During this debate the fabled "steam roller" figured in the discussion. Some of the Taft men resented mention of the political juggernaut, which they said was a fiction; whereupon Mr. Borah later intimated that the Roosevelt people had no sensitiveness on the subject; in fact, they rather liked to talk about the machine.

In the roll call on the California postponement the line-up was 28 to 12; the personnel on each side being substantially the same as in the other divisions on factional lines.

LaFollette Opens Headquarters. The state setting for the republican national convention was completed yesterday with the opening of LaFollette and Cummins headquarters at hotels. Cummins' headquarters was established in the same hotel that houses the Taft and Roosevelt workers.

The LaFollette headquarters, opened by Alfred T. Rogers, national committeeman from Wisconsin, is situated six blocks from the others.

The managers of the several headquarters, together with their advisers and assistant completed plans for the reception of delegates who are expected to begin arriving at once. Special committees to handle the delegations have been named and will be on duty from this time until the close of the convention.

A direct appeal will be made to each individual delegate by the campaign manager of each candidate for the nomination, despite instructions or pledges. No possible vote in the convention will be overlooked and any indication among the delegates of shifting sentiment will precipitate a lively scramble among the managers.

A number of prominent Roosevelt leaders declared reports of a possible bolt by the Roosevelt delegates in case the president's friends succeed in nominating Mr. Taft, were without reasonable foundation.

Senator William E. Borah of Idaho, an active worker for Roosevelt in the sessions of the republican national committee, said:

"No bolt for me. I have not even considered such a possibility and I don't expect to consider it."

The Roosevelt headquarters was particularly alive with meetings and conferences in the afternoon and last night. A number of well known Roosevelt adherents, including Judge Ben B. Lindsey of Colorado, James R. Garfield of Ohio, Congressman William Kent of California and Gifford Pinchot of Washington, were among the scores to participate in the various councils held in the interests of the former president.

"We have got them 'skinned' despite the work of the national committee," said Garfield, who was secretary of the interior under Roosevelt. "The committee cannot stop the nomination of Roosevelt. There will be an uprising against the action here."

CUBAN SITUATION IS ENCOURAGING

(Continued from page 1)

commanding the Atlantic fleet, will pay official visits to Secretary of State Sanguny and President Gomez this morning.

Havana, June 11.—Interest in Havana centers in the outcome of Colonel Farrera's mission to Washington, which is generally believed to be for the purpose of convincing the American government that there does not exist any necessity for intervention. The impending arrival of the United States battleships, Nebraska and New Jersey from Key West tends to strengthen the belief that the United States is about to take a leading hand in Cuban affairs.

All danger of racial disturbances in Havana has apparently been dissipated by the arrival of Rear Admiral Coghlan on the flagship R. D. Long, yesterday afternoon. None of the American bluejackets were allowed ashore.

Colonel Farrera sent a cablegram to President Gomez in which he stated that the United States government did not contemplate intervention, but would permit in its policy of affording military protection to the foreign properties. Presidential Secretary Ramirez, on behalf of the president, made a statement in part as follows:

"According to the news published in the local press the arrival of two American warships yesterday is due to alarming reports sent to Washington, which in general state the recent events in Havana lack importance, the police having promptly quelled the disorders."

There is no real need of anyone being troubled with constipation. Chamberlain's Tablets will cause an agreeable movement of the bowels without any unpleasant effect. Give them a trial. For sale by all dealers.

Better Try Again. Atlanta Journal. A contributor, hitherto unsuccessful, suggests that he, having been waiting for three years to see his start in print, is a waiter, and therefore should strike.

IMPORTANT TO MOTHERS. A record of sixty-five years continues the use of Mrs. Winslow's "Soothing Syrup" by mothers in all parts of the world, is the highest praise that any remedy for "children's teething" has ever received. Every year the young mother follows in the footsteps of her mother and her mother's mother, giving the "Soothing Syrup" to her favorite child, and so it has gone on for a period of sixty-five years. Millions of mothers have used it for their children while teething with perfect success. It soothes the child, cures the gums, allers all pain, cures wind colic and is the best remedy for diarrhoea. Sold by druggists and medicine dealers in all parts of the United States. Twenty-five cents per bottle. Beware of cheap imitations.

WEAVERVILLE PEOPLE PLANNING WATERWORKS

Citizens May Vote on Bond Issue for Gravity Line—Summer Gaiety Begins.

Correspondence of The Gazette-News. Weaverville, June 11.—The summer gaiety at Weaverville is beginning. Already the visitors are arriving in the town and are flocking to the farmhouses in the immediate vicinity. The prospects for a record season are very bright and the people have made preparations to take care of the large number of tourists who are expected.

Travel on the Asheville and East Tennessee railroad is increasing every day. The company is now maintaining an hourly schedule and most of the cars are comfortably filled. The road bed has been so improved that with the heavy interurban cars the ride to the village is as smooth as could be wished.

The Weaverville people are continually planning improvements and it is now likely that the citizens will be called upon to vote on an issue of bonds for the construction of waterworks. The rough plans have already been drafted and the surveys made, but the details have not been worked out. It is planned to get the water from one of the small tributaries of Reems creek. By going up the valley about three miles a sufficient head can be secured and the laying of the main will not be very expensive. Negotiations are now under way to secure the watershed where the water will be practically as pure as spring water.

Would Not Need More. If the truth could be discovered probably it would be found that among all of Solomon's 700 wives there were only three or four whom he felt like calling to his assistance when he wanted his rheumatism rubbed.—Galveston News.

ASSEMBLY STOCKHOLDERS ARE TO MEET ON JUNE 20

Maps Will Be Ready and Lots Can Be Placed on Sale at That Date.

Correspondence of The Gazette-News. Waynesville, June 11.—The Annual meeting of the stockholders of the Southern Assembly will be held at Waynesville Thursday, June 20, at 10:20 a. m. This date has been selected because the engineers report that the maps will be ready and lots can be placed on sale on that date. It was expected that the lots would be ready some time during the past spring, but the severe winter weather greatly retarded all engineering and road work.

It was decided at the stockholders' meeting in August, 1911, that the assembly should be formally opened in June, 1912, and the board of commissioners has made its plans with that end in view. After very thorough investigation, the board has selected a superintendent of construction for the dam, who will bring with him experienced foremen who have associated with him in similar work. The steel, cement and machinery necessary for construction have all been bought at extremely low figures, and before the date of the stockholders' meeting June 20, the work on the dam will have begun, and with the expectation that the time from now until December will be most favorable for such work, there seems to be no reason why the dam should be completed by January 1, 1913.

Plans for the auditorium to seat 1,000, and for the modern 1900 room hotel, have been adopted, and it is hoped that the drawings will be ready for inspection by the stockholders June 20.

Possibly So. Maybe by the time the deadlock is going at Baltimore, Alton B. Parker will change his mind about the recall of Judges.—Columbia State.

More Dollars for Jingles

In June, 1912, 50 persons will make \$20.00 each writing short, snappy Post Toasties Jingles most acceptable for a "Toasties" Jingle Book.

This offer for June, 1912, is entirely separate from, and in addition to, the Jingles purchased by us in May, 1912.

Read instructions below, then see how good a Post Toasties Jingle you can write. It's pleasant amusement for Girls and Boys and older folks.

A COMPLETE JINGLE (As an example only.)		FINISHING THIS JINGLE	
Early morning breakfast, sad 'tis to relate, Serene over-slept today, getting awfully late, Father growing nervous wants a bite to eat, Calls for his Post Toasties, goodness, that's a treat.		Old Mother Hubbard's family, a happy bunch were they, Of healthy little kiddies playing all the day, History hasn't told me, but to me 't would seem, (Fill in this line, mentioning Toasties and write plainly.)	
Sign here—Name		Date	
Street		City	
Address and mail your Jingles to		State	
Jingle Dept. 129, POSTUM CEREAL CO., LTD., BATTLE CREEK, MICH.			

Use of above form of answer is suggested, but not required.

We will buy 50 Post Toasties Jingles, acceptable for use in a Jingle Book, received during June, 1912, at \$20.00 each.

Only the Jingles we pay for will be used, but no Jingles, whether purchased or not, will be returned.

The names and addresses of the writers of the 50 Jingles purchased in June, 1912, will be printed and mailed to each enquirer who sends us a stamped and addressed envelope for return.

The Jingles will be judged honestly upon merit, so if you are a sensitive person and not a good sportsman don't try, for we have no time to "pet up" those whose Jingles are not accepted.

DOINGS OF A DAY IN THE PIEDMONT

Greensboro Y. M. C. A. Membership Committee—Kirkpatrick Nominated.

Gazette-News Bureau, Daily News Building, Greensboro, June 11.

The Greensboro Young Men's Christian association has just completed a campaign for new members and the friends of the association and those who labored in its interest during the campaign are greatly pleased with the result. The association in inaugurating the contest placed the number at 2000 and when the wind-up came it was found that the bull's eye had been missed by only 25 points. The campaign brought the membership of the local association to 284, and since that time several new ones have dropped in until the membership now totals more than 700, or in the same class with Asheville, Charlotte, Wilmington and Raleigh.

It is interesting to note that S. Kirkpatrick, who has lived in Greensboro for the past several years but who maintains his citizenship in the far western state of Iowa, making a pilgrimage to that state semi-occasionally, was last week nominated for congress by the democrats of his district, the sixth, against the opposition of two strong men. The district is republican but Mr. Kirkpatrick feels that in this year of democratic hope he may be elected. Mr. Kirkpatrick has just returned from Iowa, where he has been for several weeks, but will likely return to participate in the campaign during the late summer and early fall.

The North Carolina Public Service company of Greensboro has placed an order for two new cars for the Southern Car company at High Point. The new cars are "trailers" and will be hitched to the regular double-truck cars to accommodate big crowds on occasions.

A pretty home wedding took place Sunday afternoon at the home of Mrs. W. M. McClure on Blandwood avenue, when Miss Emma Lee Joyner of Wilson, Mr. Crutfield is connected with the Keystone hotel of this place and, with his bride, will make his home there.

FLIES TO PATIENT

Physician Crosses Lake in Hydroplane to Save Life of Boy Hurt in Fall.

Hammondsport, N. Y., June 11.—A hydroplane operated by Aviator Hughes Robinson, instructor at the Curtis school, carried Dr. D. L. Alden of Hammondsport across Lake Keuka in answer to a telephone call from Edwin Patrie, chief engineer of the Urbana Wine company, whose 11-year-old son was seriously injured by falling 30 feet from a platform in the wine cellars.

Realizing the importance of reaching the boy quickly, and seeing Robinson on the street, Dr. Alden asked the former to take him over in the hydroplane.

With the doctor clinging to the machine with one hand and holding his medicine case with the other, the machine made a short run on the water and rose in the face of a brisk wind, and for the first time in history a doctor was actually flying to his patient.

In just ten minutes Robinson had landed and beached the machine at Urbana and the doctor was on his way to the house, a few rods from the shore.

The Patrie boy had suffered a compound fracture of the hip and other injuries. He will probably recover.

There is no real need of anyone being troubled with constipation. Chamberlain's Tablets will cause an agreeable movement of the bowels without any unpleasant effect. Give them a trial. For sale by all dealers.

Better Try Again. Atlanta Journal. A contributor, hitherto unsuccessful, suggests that he, having been waiting for three years to see his start in print, is a waiter, and therefore should strike.

PEARL LEE HOLMAN, Principal.
G. L. HALL, Asst. Principal.

To illustrate the value of shorthand to a business man, let me tell you the following story:

A wealthy New Yorker bought a piece of property for \$300,000. He strongly suspected that the middle man was making a large profit, although he represented he was getting merely the ordinary broker's commission.

In order to get at the facts the buyer put some questions to the owner who verified the broker's statement. He put down the answer in shorthand, having learned it reluctantly in his youth. The fact of the case was that the owner was only to get \$200,000 for his property, and a division of the difference. As usual with people of this type, a row occurred, and the facts came out five years later. The seller of the property and the broker got into a lawsuit. The seller employed one of the best firm of attorneys in New York. The hoodwinked buyer was subpoenaed as a witness, and testified from his shorthand notes. The testimony was so accurate and explicit that the firm of attorneys threw up the case for the original owners and sued and recovered \$100,000 for the man whose parents had sense enough to give him a commercial course in shorthand.

This investment paid 100,000 per cent dividend and an investment of \$70 in our business courses can always be relied upon to pay a bigger dividend than any investment which you are ever likely to make.

Is it not worth while to have a talk with us?
