General Conditions Past 24 Hours: There is a slight disturbance over the south Atlantic states which has caused rain in the east gulf, and middle and south Atlantic states. There is a slight depression over the eastern lake region which has caused showers

MARS HILL DEFEATED Y.M.C.A. AGGREGATION

Locals Were Handicapped but Victory Was Earned by the Visitors.

The Mars Hill baseball team took the first of a series of three games that are to be played for the western North Carolina championship with the Y. M. C. A. team Saturday afternoon by the score of 3 to 1. It was an earned victory for the visitors, although they might not have fared so well if four of the regular Y. M. C. A. players had not been absent and if Chambers had not been slightly indisposed. With all this they had no walk-over, and a very small thing might have changed the result. Notwithstanding the conditions of Chambers, he pitched a great game after the first inning when he gave up four hits and two men scored. After that he allowed only two hits. His pitching and that of Greenwood was easily the feature of the game. Greenwood struck out 11 men and passed one, Chambers struck out seven and passed two. The game was full of errors and spectacular plays. The visitors outbatted the locals.

One of the prettiest plays of the game was made by Patton on third when he ran back and caught a would-be Texas leaguer. Sams of the visitors made the same kind of play. Reeves of Weaverville did some fast work at short, which was not his regular place, and both Brown and Woodrow caught excellent games. It could be easily seen that the local team lacked only in team work.

S. A. Lynch acted as umpire in a very satisfactory way. There was not a single kick at his decisions.

At first it was meant that only one game should be played for the championship, but after the game, it was decided to play a series. The second will be pulled off July 25.

License to Wed.

John Brown and Esther Cordell, white.
C. Y. Fortune and Rose E. Cordell, white.
Charles Elkin and Alice Walsh, white.
Eugene Allen and Harriet Edney, white.
Webster Hunt and Osie Walker, colored.

In that section. There has been a decided rise in pressure from the plateau section eastward to the plains states and temperatures are much lower in the Rocky mountain region and the northern plains states. The following heavy precipitation (in inches) has been reported during the last 24 hours: Denver, 2.00; Mobile, 1.34; Washington, 2.92. Showers are indicated for this vicinity tonight or Tuesday.

T. R. TAYLOR, Observer.

EXPRESS RATES TO BE CHANGED

(Continued from page 2)

On every question except that of rates, a substantial agreement has been reached between the commission and the companies. The latter express their willingness to conform their business operations to any requirements the commission might make; but they expressed anxiety concerning any serious reduction of their rates lest it might seriously affect their revenues.

Attacks Scale of Charges. Commissioner Lane makes a vigorous attack, in his report, upon the so-called scale of graduated charges by which the express companies now determine the rate which shall apply to a package of given weight. This scale is held by the commission to be unreasonable, discriminatory and arbitrary. The report says:

"It is the product of years of shrewd manipulation has no justification in the minds of the express men themselves, and in the richest example yet brought to our attention of a tariff based exclusively upon the theory that the charge should be what the traffic will bear."

With respect to the standard of rates, the commissioner says:

"What then may be said to be the standard of a reasonable express rate? Our answer is, no one consideration. These conclusions, however, we have reached:

"1. That express rates should be made primarily to meet the need of the great body of our people and should therefore be stated in terms that represent the small packages which the express company is intended to carry rather than by the 100 pounds as freight rates are stated.

"2. That in the fixing of its rates an express company should not be allowed to charge more than a railroad company if the latter undertook to, and did, give the same service.

"3. That it is proper for the government to treat the express company as a freight forwarder by passenger train, giving supplemental service at each terminal and intermediate care.

"4. That an express rate may not be based upon the monopoly right of the express company to be the exclusive freight forwarder over one or more lines of railroad.

"5. That the rate should not include more than a reasonable compensation for the service given, even though such compensation falls below that which the railroad exacts as a minimum for the carriage of 100 pounds of freight.

"6. That it is unreasonable to fix so rapid a decline in express rates for long distance as is made by the railroads in their freight rates, express service in this respect being more analogous to passenger than to freight service.

"7. That in compounding the express rates the railroad should be allowed compensation for bulked freight which is moved upon a passenger train as to which it is relieved by contract for all liability for loss or damage and is without expense for the furnishing of a receipt, the billing, the bookkeeping and a great number of other general expenses.

"8. That the rate should include a return to the express company which will compensate it with profit for the expense of the service which it gives, there being added thereto in the formation of the total rate the proper charge which it may reasonably make for the service which the railroad gives as stated in the preceding paragraph."

The report contains a wealth of detail concerning the financial operations of the express companies and their relations with not only the public but with the railroads. Attached to it is a voluminous appendix giving an analysis of the relationship which exists among the various express companies, showing the directors of express companies which are interested in railroads, the railroad officials who are interested in express companies, the organization and capitalization of the companies and a thorough analysis of their operating expenses and income.

After the hearing next October a supplementary order will be entered by the commission putting into effect the rates proposed as soon as it may be considered practicable to make them effective.

THE COMB'S MORNING STORY

You know the story the comb tells. It's a very discouraging story, too. Day by day, a few more strands are added, of hair that is turning grey, losing its vitality, its strength and its health. Grey hair is as unbecoming as old age. Natural pride should have its own say. You wish to look young and it is your DUTY to appear so. You can't even LOOK young if the silver threads begin to show. Be a "Young Woman" in looks, always. The grey hairs belong to the chaperon and to the grandmother.

Stay out of the grandmother class, until your years justify it, by using — HAY'S HAIR HEALTH

Keeps You Looking Young
