TARIFF ADVOCATES PULLING FOR TAFT

Big Manufacturing Concerns Bringing Pressure to Bear on Employes.

Harrisburg, Oct. 19.—In the industries dependent on the protective tariff the impression is growing that a strong pull together for Taft is the only thing that will save their tariff schedules, and it is understood that a number of big manufacturing concerns whose management had been neutral until quite recently are taking steps to urge their employes to support the republican national ticket.

The Taft people are putting the proposition up to the manufacturers in this way: Wilson has the democratic vote solid. With the republican vote about equally divided between Taft and Roosevelt the state will go to Wilson.

To help accomplish this result a county chairman's league is being organized, consisting of the heads of republican county committees who are loyal to the national ticket, and this league will make the fight for Taft and Sherman independently of the republican state committee, two-thirds of whose members are Roosevelt men.
