SEGREGATION LAW ON FIRST READING

Before Joint Health Board Last Night—Unlike First Proposed.

BOARD OF TRADE HAS SUGGESTED CHANGES

Provides That Health Board May License Homes Affected by the Ordinance.

A new segregation ordinance was introduced at a joint meeting of the board of health last night, immediately following the weekly meeting of the board of aldermen and the ordinance passed its first reading.

This proposed ordinance is materially different from the one introduced some time ago and which was abandoned at a later date than any time since 1810, when Robert Fulton was running his steamer Car of Neptune between New York and Albany as late as January 20.

That no person, firm or corporation shall keep, run or operate any hospital, sanitarium, sanatorium, rooming house, boarding house or other institution at which any person or persons suffering with tuberculosis are received, treated, lodged, kept, roomed or boarded in the city of Asheville without a license from the joint health board; that application for such license be made to the board in writing, giving the name and address of the owners or proprietor and the names and addresses of all property owners and others residing within 400 feet of the proposed location, giving the location specifically; that an agreement be made in the application that the applicant is not a suitable person to conduct such an institution; that any license may be revoked immediately upon the conviction of the licensee or any agent for violations of the ordinance; that each license shall expire on December 31 of the year it is issued and renewal must be secured in the same manner as the original license; that no license shall be transferred without the consent of the board.

Section three provides that no such institution be conducted within 300 feet of the premises of any public school, theater, church or other public institution nor within 150 feet of the nearest outside wall of any private residence, boarding house or hotel at which no tubercular people are allowed.

Publicity as to whether or not any house for the accommodation of guests receives those suffering from tuberculosis is provided in section four, it being made unlawful under the ordinance for any institution that accommodates such persons to represent to the public that such is not the case, and it is further provided that in all advertisements of houses of entertainment, hotels, boarding houses or others, whether these advertisements are on cards, in newspapers or in any other form, it shall be specifically stated whether or not persons suffering from tuberculosis are received.

As provided in section five, a list of all persons holding licenses for the conduct of institutions for persons suffering from tuberculosis shall be kept in the offices of the joint board of health, and this list will be open to the public.

In section six it is set forth that any person, firm or corporation who does not have such a license and suspects that some person is being entertained at his place suffering with tuberculosis shall report the case to the board, and the person in question will be examined and in case a tubercular condition is found then that person will have to be removed to a proper institution.

The board extends from the Charlotte road to Perimeter bay, offering the best outlet for the great river system in the south.

OIL LEASE SCANDAL INVOLVES FISHER

Secretary Is Accused of Attempting to Coerce Osage Indians into Leasing Valuable Lands to the Standard—Mandamus Proceedings Instituted.

By Associated Press. Washington, Jan. 18.—Charges that Secretary Fisher attempted to coerce the Osage Indians into leasing valuable oil fields to the Standard Oil company and a counter-charge by the secretary that the Uncle Sam Oil company attempted to acquire the fields under circumstances which were threatening proceeding by Attorney General Wickersham, were aired today before the house committee on Indian affairs.

PARDON IS ISSUED TO FOLKE BRANDT

Former Voleet of Schiff Freed on Ground Sentence Was Excessive.

By Associated Press. New York, Jan. 18.—After serving six of the thirty years to which he was sentenced for burglary at the home of Mortimer L. Schiff, where he was a servant, Fouke E. Brandt left for the west on an early morning train today to enjoy the freedom of the pardon granted him yesterday by Governor Sulzer.

Brandt was accompanied by United States Senator Nelson of Minnesota. He will stop first in Washington before going to Minnesota to begin life anew. Many members of Swedish societies were at the Pennsylvania railroad station to wish him luck.

Brandt very audaciously followed the instructions of Governor Sulzer that he should not discuss his case. He has been warned that if he does discuss the slanderous statements previously made, which he retracted publicly yesterday, or seeks to gain any notoriety by either writing of his case, or appearing on the stage, the pardon will be revoked.

At the request of Governor Sulzer, Attorney General Carmody made a statement in which he said he favored Brandt's pardon "not as a matter of mercy, but as a matter of justice." He criticized the procedure through which Brandt was tried and sentenced.

Mr. Carmody declared that the governor's action wiped out "a blot on the judiciary of the state" and showed that "there is nothing that can defeat the ends of justice."

United States Senator Knute Nelson of Minnesota made a speech in which he characterized Brandt's sentence as judicial tyranny.
