HUFF IS TO BE TRIED IF INDICTMENT IS FOUND

If not, or if He Is Acquitted, Then Brewer Will Be Put on Trial Again.

Superior court for the trial of criminal cases began this morning for a three weeks' term with Judge Bragaw presiding. Most of the morning session was given to the selection of the grand jury, the judge's charge, the calling of the docket and the submit- tions of several prisoners. Quite a number of the cases were continued for the term or not, pressed with leave, but the docket is still rather full.

The cases of most general interest on the docket are those of Wes Brewer, previously tried for the murder of Patrolman McConnell, and John Huff, who was arrested several months ago for the same crime. Brewer has been in jail several months and Huff has been since his arrest. There has been much inquiry as to how these two men would both be tried for the same crime. A presentment against Huff, which he says is his real name, will be given to the grand jury at once. If a true bill is returned, which it is thought likely will be done, Huff will be arraigned and tried two weeks from today. If he is convicted, Brewer will be released automatically. If Huff is acquitted, Brewer will be given another hearing. It is claimed by the defense that they have evi- dence from identification witnesses that will result in Huff's release at once—the testimony of numerous people that will show that Huff could not have been in Asheville or near the place at the time of the murder.

It is hardly likely that Brewer will be tried at this term. The case will probably go over until the April term.

The following cases were disposed of:

John Jones, rocking train; pleaded guilty to assault with a deadly weapon; \$25 and the costs.

Mary Swenson, larceny and receiv- ing; pleaded guilty to forcible tres- pass; cost.

Ray Miller, pleaded guilty of lar- ceny; prayer for judgment continued, defendant to appear at court terms for one year.

D. E. Oakes, called and failed to ap- pear; nisi judgment entered and capias issued.

Babe McCorkle, larceny; prayer for judgment continued for one year.

Henry Smith, tried by jury for lar- ceny and found guilty.

The following were drawn as mem- bers of the grand jury: F. P. Roberts, foreman; E. B. Garren, A. L. Cauble, H. Sprinkle, D. A. Lashley, S. J. Joyce, G. Burnett, R. E. Justice, T. W. Sorrels, W. E. Herron, J. A. Gwaltney, M. Hyams, J. F. White, N. L. Frady, W. Ed. McCall, J. J. Garren, David Moore, J. L. Williamson.

The clerk of court has received from Governor Craig the commission for Judge Bragaw to hold this court and the next term in Madison.

MOTOR CARS
Made in Chalmers Shops.

LET'S REASON TOGETHER—ABOUT PRICE.

To you who are considering buying a motor car, we want to offer a few suggestions on the subject of price. They are based on the ex- perience of thousands of buyers.

First of all: Buy a real car. Don't economize too closely on the purchase price. Economy is not merely spending the least money. And buying an automobile at too low a price is the worst economy in the world.

If a man is going to pay \$1000 for a motor car, he surely is not so pressed for funds that he could not afford to add enough more to that \$1000 to get him a really high grade motor car—a car of genuine quality. The additional cost, distributed over the years he will use the quality car, is nothing compared to the satisfaction of owning it from the start.

If you don't get a car of real quality to start on, you will surely want one later. Many who purchase low priced cars graduate from what they buy to what they should have had to begin with. But in doing this they pay from \$300 to \$600 for so-called "automobile ex- perience."

You don't need this costly experience. Save the money. Buy a quality car to start with.

Examine the 1913 Chalmers "Thirty-Six" at \$1950, fully equipped, and see if you really are not money in pocket by laying out the extra few hundred dollars in the original purchase price rather than buy- ing a car at a lesser price only to trade it in later on at a big dis- count.

Note these splendid features of the 1913 Chalmers cars: See these cars at our showrooms.

Electric lights, Turkish cushions, Nickel trimmings.
4-forward speed transmission 11-inch upholstery.
New flush-sided bodies, Chalmers self-starter.
