HUERTA PROMISES TO SPARE MADERO

Four Governors Refuse to Recognize New Government—Troops to Be Sent North

Mexico City, Feb. 21.—Francisco Madero's fate has first place in the interest of the Mexican populace today because of the more pressing concern as to the extent to which Mexico is yet in a condition of revolution. In spite of the termination of hostilities in the capital and the establishment of a new administration, there are indications of widespread trouble in other sections of the country.

General Huerta, according to dispatches from Chihuahua, yesterday conferred at El Paso with David De La Fuente, who has been chosen from the rebel list as a cabinet minister.

General Aguilera and Colonel De La Haza, who have been in rebellion in the south, are reported to be in accord with the new administration.

On the other hand there has been no intimation from Zapata nor from the elusive Genevo de la O, of their conformity with the new order of things.

Serious Report From North. Beyond this, reports have been received from the north, which appear very serious, that the governors of four states—Aguascalientes, Nuevo Leon, Coahuila and Sonora—have openly refused allegiance.

Senora Madero, who accompanied her husband in his campaigns against Porfirio Diaz and who had since been his closest adviser, broke down today under the strain she has undergone.

Charges which are not altogether substantiated were made today by the new authorities tending to indicate that the Madero administration in its extremity was contemplating a whole-sale slaughter.

A police officer declared that Francisco Madero personally and verbally gave him a list of 42 deputies, a number of senators and all the newspaper men, including the foreign correspondents with instructions to have them assassinated.

Such stories as this have created a bitter sentiment against Francisco Madero and have caused a number of men whose names were on the list to use their influence to secure summary punishment for the fallen president.

Francisco's Four Generals. Provisional President Huerta, who long ago promised with Madero for provisions for a number of officers of the regular army, today promoted four generals and a number of inferior officers of the line.

All the newspapers of the capital have made their respective editorially noises of their resentment with their criticisms on the governmental changes.

TAFT MOVES TO SAVE MADERO

Huerta Notified that the United States Will "Seriously Object" to His Execution.

By Associated Press. Washington, Feb. 21.—Francisco L. Madero, deposed president of Mexico, will not be railroaded to jail, thrown into a madhouse or summarily executed by Provisional President Huerta, according to reports today from Ambassador Wilson.

Secretary Knox, with the approval of President Taft, had instructed Ambassador Wilson to convey to Huerta, in diplomatic terms, the intimation that the United States would seriously object to a summary execution or sentence of Madero.

It was not felt here that the former president should be slaughtered or put out of the way for crimes which seemed purely political, without a fair and open trial.

The Beginning of Revolution In the Penal System of Ohio

Convicts at Work, Completed Road and Highway Commissioner Markers.

Columbus, O., Feb. 21.—(Special)—Unshackled and under the control of a single unarmed guard, 25 convicts labored a busy month to build a model brick highway just completed near the southern boundary of Columbus.

Overjoyed to breathe the open air and proud of the trust reposed in them, the men worked without hint of mutiny or attempt to escape, although often widely separated.

Each day an auto bus, driven by convicts, backed up to the prison entrance for its load of laughing, energetic "highwaymen."

From beginning to end, not one was reported for discipline, although several of them were life-term men and two more were convicted murderers.

Quick to Learn. Although none of them had ever worked upon paving, the convicts quickly developed skill under the direction of the engineers from the state highway department.

The brick pavement is in exceedingly good condition, says State Highway Commissioner James H. Marker.

Other engineers who have examined the completed work of the convicts declare they had built a highway that will last at least 50 years without repair or maintenance of any kind.

One of the life-termers who worked on the Columbus road explained the seal with which he labored: "My identity is lost to the world and I am merely a prisoner with a number. There is no one interested enough in me to plead for my pardon or parole.

A good roads bill to be introduced at the coming session of the Ohio legislature will contain a clause providing for convict work on the main market roads.

If the plan to have convicts build many of the roads of Ohio is carried out it practically will empty the penitentiary during the day time of every able-bodied man.

TRUSTEES BOARD NOT SELF PERPETUATING

Power to Fill Vacancies Vested in General Conference of Church Declares the Court.

Nashville, Tenn., Feb. 21.—Chancellor John Allison today handed down his decision in the Vanderbilt university case, involving the right of the board of trustees to elect its own members.

That Vanderbilt university was founded by the Southern Methodist church, and "is now being largely maintained and patronized by said church in the true sense."

That the original character was granted to representatives of various annual Methodist conferences.

That the board of trustees of the university were never and are not members of the corporation, and do not hold and never have held the right to elect persons to fill vacancies on the board.

That the annual conferences having created the board of trustees, the right to fill vacancies in "the creature" was vested alone in the creator, the annual conferences, which by appropriate action transferred the right to the general conferences, which in the exercise of that right elected N. E. Harris of Macon, Ga.; A. W. Biggs of Memphis, and V. A. Godbey of Austin, Tex. to the board of the Asheville conference in 1910 and who are entitled to their seats.

That the college of bishop constitute a board of supervision of the university and have the right to confer with the board to elect officers and professors and prescribe the course of study and plan of government.

That "Commodore" Cornelius Vanderbilt did not impose any conditions or reserve any of the rights or privileges. Prior to 1910 vacancies on the board had been filled by the board, the annual conference and later the general conference through the board of education.

The court in this connection paid a handsome tribute to Commodore Vanderbilt for his unflinching philanthropy.

It is expected that the case will be appealed.
