FORECASTER IS CAUTIOUS.

Washington, March 3-"Fair Tuesday morning, probably fellowed by unsettled Tuesday afternoon or night, winds becoming variable Tuesday," was the official weather bureau forecast for inaugural day, issued early today.

Apparently, baving in mind the flareback of last inauguration day when the prediction of fair weather was overturned by snow and a sleet storm, the weather forecasters today were none too positive in their prediction of what kind of weather would greet the inaugurationof President Wilson and Vice-President Marchall.

Unofficial indications of the weatherwise citizens today were that the incoming president and the thousands of visi-tors would be favored with pleasant weather for part of inauguration day, at least.

"The indications are that the disturbance now over the Plains states will move east and be attended by local snows in the region of the great Lakes, the interior of New York and North New England and unsettled weather Tuesday in the middle Atlantic states and the Ohio Valley," said the
