once has moved slightly eastward and during the last 24 hours it has caused snow in the northern Rocky mountain region. An area of high pressure extends from the Lake region southward to the Gulf coast and another high pressure area is entering the Pacific states. Clear weather prevails over the southern states except in southern Texas and temperatures are somewhat higher. Fair weather is indicated for this vicinity tonight and Thursday with slight change in temperature.

T. R. TAYLOR, Observer.

MAJESTIC PRESENTING A DELIGHTFUL PROGRAM

The Majestic theater is now presenting a delightful program. For the most part it is of a higher class than is generally seen in vaudeville. There is nothing sensational about it. It is just such amusement as a man likes to take his family to see. One of the most pleasing numbers of the present bill is the singing of Miss List, a baritone with a charming voice. She sang two songs last night and responded twice to encores. She would have been encored just so long as she cared to sing. There is nothing remarkable about her voice, but it delights one with its simple appeal. Then there is the Cates Saxophone band, consisting of four "brothers." Some of their selections may be a trifle too classic, perhaps, but it does not take a music lover to tell that they are playing wonderfully; besides they lighten the effect with novelty, stunts and simple melodies.

They cause continual laughter while they are on the stage. On the whole it is a well balanced bill, and will come about as near pleasing all classes as any the theater has had.

Compare Your Baby With Denver's Best Baby.

In the May Woman's Home Companion appears a report of a scientific baby show recently held in Denver at which children were judged not for their beauty, but for their physical condition. Following is an extract: "The letter to understand the system of scoring, read the averages made by Denver's very best baby, Daniel Foster Burns. This is a complete reproduction of a score-card."

	Score.
"Age—10 months, 4 days	100
"Weight at Birth—7 1/2 lbs.	100
"Condition at Birth—perfect	100
"Breast fed—two months, then artificially (condensed milk) every 3 hours	100
"Sleep—14 hours daily, alone and outdoors	100

THE REAL SECRET OF REJUVENATING THE FACE.

(From The Clubwoman.)
She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercolized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercolized wax, procurable at any drug store (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, blackheads, pimples, moth patches, liver spots and fine surface wrinkles. For the deeper wrinkles an excellent recipe is: Powdered saxolite, 1 ounce, dissolved in 1/2 pint with hazel. Bathing the face in the solution produces quick and wonderful results.
