Col. Cohen Prophecies 1913 Season Will Be Most Successful in History.

Col. Sanford H. Cohen, manager of the Greater Western North Carolina association, has just returned from the south, where he has been for the past several weeks on an advertising campaign for this section, and he is enthusiastic over the prospects for the season.

The Southern's advertising, in addition to the distribution of booklets, is confined to the newspapers of the south and east, and this booklet campaign will last for 11 weeks, extending from San Antonio to Tampa, and from Tampa to Philadelphia.

In addition to the newspaper advertising, the Southern is also carrying display advertisements in many of the leading magazines of the country for June and July.

There will be over 30 excursions here for 10 and 15 days, during June and July, and arrangements have been made for a large number of early excursions this year.

Announcement was made some time ago that the Southern will operate an extra train to Asheville this year from Augusta, and now another announcement of interest is made, to the effect that the C. & W. C. has decided to put on a special train between these two points for the summer season, connecting with the Southern at Spartanburg.

fortified those making the trip to the mountains from the South. Want More Space. At Savannah, according to the statement of Col. Cohen, 100 reservations have been made to this section for the month of June, and from Jacksonville every bit of space is taken up until July 5.

Col. Cohen spoke especially to the interest that has been aroused throughout the south in the erection of the Grove Park Inn. He says that he has never before known any proposition to arouse such intense interest, and he makes the statement that there will be thousands of people to visit Asheville this year, just to see the place who are unable to stop there. A large number of others are planning to spend their vacations there.

Interest is also being aroused over the completion of the Southern assembly grounds near Waynesville, and it is expected that a mammoth crowd will be there for the opening convention. The Waynesville people are distributing a booklet of their own, having taken the letters about their little city and the assembly grounds from the association booklet, and bound them for distribution.

Col. Cohen prophesies that the 1913 season for Asheville and western North Carolina will be the biggest ever, and preparations are being made for a big movement here in September that will prove of interest.

MR. FLAVELLE ABLE TO IMPROVISE HIS JOKES

It Is Said Even His Fellow Players Get Ticked When He Works.

Each succeeding presentation of "The Gingerbread Man," at the Auditorium by the Nella Brown Musical Comedy company, seems to be better than the preceding one, and those attending the show are rewarded with some of the best comedy ever produced here, even in the highest priced shows of the regular season.

There was a good attendance at the show last night, and they must be growing fat today, else the old saying "laugh and grow fat" was never true. The crowd was in an uproar nearly every minute that Mr. Flavelle was on the boards, and between times they were entertained with some of the best singing ever heard here in a musical comedy. Possibly the most popular selection last night was "The Land of Bon Bon," sung by Miss Brown and Miss Lawrence.

6 Lb. ELECTRIC FLAT IRON \$3.50. A DIFFERENT ACCOUNT OF FISHING EXPEDITION. J. E. Swain Says That in His Opinion It Was a Bandanna, Not a Flag. With reference to the account published in yesterday's Gazette-News of the fishing trip recently taken by J. E. Swain and Zeb F. Curtis, Mr. Swain said today: "I cannot altogether agree with Mr. Curtis in his account of the trip which he gave in the interview yesterday, although I will say that I am not much surprised at his version of some of the happenings on the trip. There were several details and happenings about which we held different opinions: For instance, he says that an iceberg floated down on which was an American flag. I insisted at the time and I still insist that it was a bandanna handkerchief on the berg; but Mr. Curtis violently maintained that it was a flag, and I refrained from much argument at the time, thinking that it did not make much difference. "There are some other little things that I might notice, but the above will serve sufficiently to make my point." Chicago Police "Color-Blind." Chicago, June 12.—The police department has a "color blind squad." It was selected yesterday at the civil service examination for assistant class detective sergeants when seven per cent of the policemen failed to qualify in colors. One policeman picked four green skeins and a brown one to match a yellow skin. Another selected two pink skeins, one lavender and two blues and insisted they were all the same color.
