LATE DELIVERIES CAUSE COMPLAINT

It Seems Conditions Cannot Be Improved Without Changing Laws.

Lately there has been considerable complaint by residents of North Liberty street, Grove Park and other sections of the city which are quite a distance from the central part of the city regarding the delivery of mails by the city carriers. At these points only one delivery is made daily, sometimes between noon and 2 o'clock in the afternoon, and mail is received at the postoffice after the carriers leave early in the morning and not received until the following day, sometimes a good deal more than 24 hours.

The matter was called to the attention of Postmaster W. W. Rollins today and his explanation of the conditions seems to indicate that the situation will be very hard to change under the present laws under which the carriers are working.

The special law in question is that he carriers and clerks of the office are to work only eight hours a day, and this time must be made within a 10-hour limit. In other words they cannot be kept on duty after the expiration of 10 hours from the time they report for duty. This is a law passed by congress a little less than a year ago and its enforcement is mandatory, the postmasters being required to keep a sworn record of the time of the carriers and clerks.

AGED EGG CHAMPIONED BY EXPERT, WHOLESOME

Even if They See a Hundred Summers You Needn't Shy He Says.

By Associated Press.
Trenton, N. J., July 11.—The state board of health is considering releasing for sale 400 cans of frozen eggs seized by the federal government here three years ago. Professor W. G. Segal of Stevens Institute of Technology, appearing as an expert witness yesterday and furnished surprising testimony by declaring that the three year old eggs were still perfectly wholesome. As evidence he told of feeding them to members of his family with no ill effects. He pointed to the custom of the Chinese, who preserve eggs for indefinite periods, and said that when Li Hung Chang visited America he brought with him eggs "a hundred years old" because there were no eggs in this country old enough to suit him.
