Believes that When Nature of Mission Is Understood Mexicans Will Be Pacified.

By Associated Press Washington, Aug. 7 .- Administration officials do not believe the Huerta government in Mexico really intends to be discourteous to John Lind, President Wilson's personal representative, as would seem to appear in las night's official statement by the Mexican acting minister of foreign af-

At the White House, the state de partment and in official circles today the impression put out was that when the Huerta government was fully apprised of President Wilson's views as transmitted by Mr. Lind, a different construction would be placed upon Lind's errand, and Mcxico would realize it as a "mission of peace."

Messages Crossed. Secretary Bryan declared he had not received the Huerta government's declaration, said in last night's news dispatches to have been forwarded to Washington as well as to Europe. Mr. Bryan explained that a message he ent yesterday to Charge O'Shaughnessy instructing him to advise Huerta to await the coming of Envoy Lind in-stead of proceeding on colored reports stead of proceeding on colored reports published in Mexico, was dispatched before news of Huerta's declaration had been received, and therefore it was in no sense an answer to the announcement that Mr. Lind's presence in Mexico would be undestrable.

Further demand for passage of his

resolution for investigation of Mexi-can conditions by the foreign relations committee was made today by Sena-tor Clark of Wyoming. Chairman Bacon asked that the resolution be re-ferred to his committee before being upon, but Senator Clark ob-

President Wilson and Secretary
Bryan are disposed to await the arrival of Mr. Lind in Mexico City before taking any further steps in the situation. This was made clear today at the White House,

It was pointed out again today that Mr. Lind goes merely as advisor to the American embassy in Mexico City and carries credentials to neither the federal nor the constitutionalist gov-eraments. He will deal with Provi-

ernments. He will deal with Provisional President Huerta's government only through the charge d'affaires of the American embassy, so that there will be no necessity for his being received by Huerta.

The envoy is expected to transmit the opinions of the American government in such fashion as to reflect only the friendliness of the United States government toward the Mexican people, and no political interest in the factional warfare. He will make clear that what the American government desires to see established is a constitutional government jegally set up and it has no concern with the personnel of the candidates.
