THE FOX APPOINTMENT.

Original Wilson men of California-anti-machine Democrats and Progressives who cast their lot with the Democratic nominee for President in the belief that he stood for a new deal in politics—are now probably experiencing about the same emotions that men of like type experienced in this State when the President slapped the progressive sentiment of North Carolina in the face to nominate and procure the endorsement of Watts as collector.

This distinction is made possible by a difference in the character of the two appointees. Nothing was urged against the personal character of Mr. Watts. His offense has been that when any real reform has been broached he was automatically aligned with the opposition.

Endorsement of the suggestion that the Asheville Auditorium is in urgent need of attention with a view to improving its acoustical properties has been received from an unexpected but interesting source.

Waynesville people who attend these shows are put to considerable expense in addition to the price of seats, and they deserve more for their money than an opportunity to sit in the tenth row, strain forward and try to guess what the performers are saying.

The death of William J. Gaynor removes a unique figure in the politics of today and one of the strongest and best equipped executives in the history of American municipal politics.

There are some fields in Germany that produce an average of 70 bushels of wheat to the acre, but the average of course is from 40 to 50 bushels.

Jack Johnson's going to dwell in France, to come back never more; no more in twelve-foot rings he'll prance on this, his native shore.

after the Westport wreck: "The New Haven has disregarded orders issued for its guidance after the Bridgeport wreck." Then he continued to Vice-President Horn: "When are you going to quit thinking and talking and do something? Your road has killed 20 or 25 people and injured nearly 100 in three cross-over accidents that were almost identical."

Having a wreck to investigate every month or two the commission could not help but know that its recommendations were not being carried out.

THAW SHORT OF FUNDS?

We do not know that there is any reason why the general public should be concerned about it, but there have at least been a few evidences that there is a scarcity in the Harry Thaw funds.

Since Canada has seen fit so unceremoniously to thrust our countryman, Harry K. Thaw, across her borders as an undesirable, England could not complain if we turned back Mrs. Pankhurst for the same reason.

A PROTEST FROM WAYNESVILLE.

The mayoralty campaign in New York is thrown in confusion by his unexpected death, but the prospects of the fusionists appear to have been bettered thereby.

though Jack Johnson says that he will not come back from France. Our butchers stack up just as high as the days of yore; palladiums you can not buy much cheaper than before our grand old Constitution still has prestige in the land.

A Word for the Dog.

Editor of The Gazette-News: Witnessing a trial a few days ago which was the result of the killing of a dog and which came near being a serious affair between the parties to the suit, and seeing the excited interest taken in the matter by the general public, it brought to my mind reflections upon the dog.

And what is a dog anyway? From the days of old Rip Van Winkle and his dog Wolf until the day of the Baltimore convention, when one of the most ardent supporters of Oscar Underwood for president deserted his standard and rushed down Baltimore street after Champ Clark's 40 hounds the dog has been held in admiration and respect by a class of citizens of one hand, while on the other hand he has been as equally despised and chased by another class.

Every time I come to town, The boys keep kicking my dog around. Makes no difference if he is a hound, You got to quit kicking my dog around.

It has well been said: "Man's truest and most faithful friend, under all circumstances, is his dog. Many times the person whom we think our best friend will turn against us and become our most violent enemy."

PUREST AND BEST Rumford Baking Powder

Formal Fall Opening Continues Today

Hundreds of interested women viewed the new styles here yesterday. Words of admiration and appreciation came from all sides. There was an unanimous opinion that Asheville was being given a decided treat.

The latest creations in the world of Fashion are being shown. The prices are reasonable all the way through. We have marked them low to sell quickly and Asheville women, quick to recognize value, showed their appreciation by purchasing heavily.

Millinery for Fall was shown in all its novel beauty. Hats are decidedly chic and interesting. They are becoming, and to try them on is to create a desire for one.

In the Ready-to-Wear Section the efforts of our critical and thorough research were rewarded by liberal enthusiasm by all who attended. Suits, dresses, coats, waists and skirts all received a share of attention from prospective buyers.

All in all, it was a Banner Day for the Bon Marche. People from all over Western North Carolina, as well as Asheville, were present, and seemed to enjoy the season's showing at Asheville's Style Center.

Come again today. You are always welcome to look or buy.

Demonstration of Koh-i-noor Dress Fasteners

"Good-bye, old hook and eye," is what everyone says when they see this new dress fastener. It is guaranteed not to rust, has all the good points of the hook and eye, with none of their bad characteristics.

Koh-i-noor dress fasteners are priced at 10c card.

A representative from the manufacturer is here and will explain the various features when you come in.

Brocade Silks and Satin

Our buyer, now in the East, has been buying largely of the new silk materials that are so fashionable. Brocade effects are in high favor. Our stock right now contains the choice selections from several large Eastern manufacturers.

Creme de chine, imported crinkle crepe, satin, crepe meteor and mesalines are some of the popular materials we show, in plain and brocades. Prices up to \$3.50 yard.
