WEEKLY MEETING OF THE ALDERMEN

Two Patrolmen Resign—O. E. Franklin Denied Whiskey License—Routine.

Preliminary steps were taken by the board of aldermen of the city, at last night's meeting, to secure additional equipment for the water department to be installed at the intake. The new equipment needed is an additional pier head and several additional settling tanks. After discussing the matter briefly last night, the water committee was instructed to secure estimates of the cost of the work.

The present equipment at the intake is considered altogether inadequate. There is only one pier head, which is the initial receiver of the water supply, and on this account it cannot be cleaned out at any time. The work cut off, at present it is badly in need of repair, as well as a cleansing. It is the plan to build another just above it, and then extend the line of settling tanks so that either the pier heads or the tanks may be disconnected and cleaned out unless the water supply is well doubtless be done at an early date.

Two of the patrolmen of the police department, W. H. Centerfeit and W. P. Towse, tendered their resignations at the meeting last night. The former asked that he be relieved September 26, stating as his reasons for leaving the service that illness in his family will not allow of his making full time any more. Patrolman Towse asked that his resignation be accepted at once; and W. B. Taylor, who has been serving as substitute patrolman, was named in his place.

Carolina lane was tendered to the city as a street, and the board decided to accept it as soon as properly graded. The work of grading, it is understood, will be begun at once. The offer of several streets, made by the McInnes estate, was taken under advisement by the street committee.

O. E. Franklin was denied a license to sell whiskey on prescription at this meeting of the board. His application for several weeks, and last night Judge Thomas A. Jones asked that it be taken up and acted upon. The application was denied, the vote being strongly against the granting of the license.

Several other matters were taken up for consideration, including the following: The city attorney, upon the suggestion of the sanitary committee, was asked to investigate the validity of the sanitary tax, and if found not sufficiently strong to hold in court to ask for certain amendments by the general assembly; to the finance committee was referred the matter of purchasing two lots on Hill street for colored school purposes; the purchase being suggested by the school board; the request that the Eagle street water line be extended was referred to the water committee with power to act; the city engineer was instructed to make certain surveys in the eastern section of the city to determine the work necessary in the laying of concrete sidewalks that have been requested; and the question of planting trees on Pack square was referred to the park committee.

The following were the building permits granted:
E. G. Barber, eight room residence on Hillside street; estimated cost, \$4000.
Katherine Williams, addition to residence on Davidson street; estimated cost, \$1250.
L. E. Jarrett, four room residence on Olive street; estimated cost, \$850.
Dr. J. M. Lynch, addition to residence on Orange street; estimated cost, \$50.
Misses Hamilton, six room residence in Grove Park; estimated cost, \$4000.

SUNDAY SPEAKERS

Men's Meeting of Y. M. C. A. Will Be Addressed Tomorrow Afternoon by Hon. J. J. Britt.

The men of the city are promised one of the best meetings of the year at the Y. M. C. A. building tomorrow afternoon at 4 o'clock, when they will be addressed by Hon. J. J. Britt, third assistant postmaster general under the Taft administration. Mr. Britt needs no introduction as a speaker here, as he is generally known as one of the best of the section, or even of the state. His subject for tomorrow afternoon's meeting will be, "The Master Man," and a most interesting discourse is expected.

A very special musical program has been arranged, on which Mrs. J. E. Menares appears as the soloist, Miss Daisy Smith will act as accompanist. The boys' orchestra will make its appearance as a full organization for the last time for several months. Every man in the city is given a cordial invitation to be present, but a special invitation is extended to the Baracas.

Sheriff Williams will pay a small reward for the apprehension of A. R. Abbott, who escaped from the road force of Captain Rice this morning. Abbott was sent to the roads for 18 months for forging a check, and had only served about three months of the sentence. He is about five feet and eight inches high; heavy set; full face; has blue eyes and light hair.

This morning the passengers on the Asheville and East Tennessee railroad enjoyed for the first time a ride on the new combination passenger and baggage car. This car, while a double trucker and built on the lines of the big interurban cars used by the company, is not quite so long as they. It runs about as smoothly, however, and the patrons of the road are very much pleased with it.

Waller and family have returned to the city, and Dr. Waller will preach at the First Baptist church tomorrow morning, especially to "church members" on the topic: "The Hands of the Pastor Upheld" and in the evening "The Bird With a Broken Wing", another sermon dealing with problems of Young men and women in "City Life".
