INFORMAL BANQUET AT Y.M.C.A. LAST NIGHT
Preceded Opening of Night School—Large Attendance Is Expected.

An informal banquet preceded the opening of the night school at the Y. M. C. A. last evening and a large number of students and friends were present. The management stated that from all present indications the school would open with a larger attendance this year than ever before. Rev. C. E. Roach, pastor of the First Methodist church, spoke to the students along the lines of education and his remarks were given very close attention by the students. Book lists were distributed last evening and the members of the faculty met the students and made final arrangements for the classes to begin tonight. The senior membership contest closes tonight at 10 o'clock and it is expected by that time the desired number of new members will have been secured, although extra efforts will be put forward today by those conducting the campaign to get more than the number allotted to them. The Bible class which is conducted every week during the winter months by Dr. R. F. Campbell, at the Y. M. C. A. auditorium, will be started tonight, and efforts are being made to have 100 men and boys present at the opening class. Supper will be served from 7 to 7:30 o'clock, and the class will be taught from 7:30 to 8 o'clock. Last year the average weekly attendance at these Bible classes was sixty, and it is aimed by the secretary of the association to keep up this standard this year if not to make it larger.

DIRECTORS OF B. OF T. DISCUSS ROAD MATTERS
Endorse Gov. Craig's Idea of Good Roads Days—New Road Projected.

At a meeting of the board of directors of the board of trade, held in their offices yesterday afternoon, the subject of good roads for North Carolina, and Buncombe county in particular, were discussed at length. Several good roads enthusiasts were present and made talks on roads as they now exist in this county and what can be done in the way of building better ones. The directors heartily endorsed Governor Craig's proclamation calling for two days to be set aside as good roads days in the state, and a request will be made by the board that a committee be appointed to make arrangements for co-operating for the success of the good roads. It is planned for this committee to consist of the president of the Good Roads association, the Asheville Motor club and the chairman of the board of county commissioners, these gentlemen to hold a meeting soon and appoint a central committee to help in the work.

At this meeting it was decided to ask the county to build a concrete road between Asheville and Biltmore, and H. W. Plummer made a short talk in which he told of concrete roads he had visited and gave some idea as to the cost of building same. Chairman Reynolds of the county commissioners said that upon the completion of the Mine Hole gap road, the county would discontinue the building of Macadam roads, as it is thought from experience that it does not pay to build Macadam roads in this county. A committee from the board of trade will ask the county commissioners to employ a road supervisor to devote his entire time to the roads of the county. The supervisors in the different townships would be under such a man, and it is thought best to have one central head.

SEPTEMBER LAST ABOUT AN AVERAGE SEPTEMBER
Mean Temperature Almost Normal but There Was More Rain Than Normal.

September just gone by was about like other Septembers as to temperature, notwithstanding it may have seemed that the fall came rather early. The average daily mean temperature for the month was 64 degrees, while the normal is 65 degrees. The highest temperature recorded was 87 degrees on the second and the lowest was 36 degrees on the twenty-third; both were within one degree of touching the records, as the highest temperature recorded on any day in September for the past 12 years is 88, and the lowest is 35. The precipitation was rather heavy—considerably above the average—the total being 4.15 inches as compared with 3.04 for the normal. However, we are behind on rain as compared with the average months to this date by 5.32 inches. On the twentieth and twenty-first there was a precipitation of 1.52 inches during 24 hours. There were 16 clear days, 11 partly cloudy and nine cloudy; and there was 59 per cent of a possible amount of sunshine.

City News

Two divorce suits were filed in the office of the clerk of Superior court this morning. Perry Smith is suing Cora Smith for a divorce and Nora J. Lee against Choice Lee.

Workmen are "doctoring" the large oak tree which stands on the lawn of the county court house. The dead limbs are being trimmed and the decayed spots treated.

Only two classes will take up work in the night school of the Y. M. C. A. this evening—the classes in business and show card writing. Those students who intend to enroll in these classes can do so tonight. The classes will start promptly at 8 o'clock.

Secretary N. Buckner, of the board of trade, has received an invitation to be present at the meeting of the National Fire Prevention convention, to be held in Philadelphia, October 13-15.

Hon. W. A. Smith of Hendersonville, vice-president of the Greater Western North Carolina association has accepted an invitation to introduce M. V. Richards of the land and industrial department of the Southern Railway company, when he speaks at the Western North Carolina fair next week.

The American National Bank filed a complaint in the office of the clerk of Superior court this morning, against the Haddock-France Lumber company. The complaint sets forth that the defendant owes the plaintiff the sum of \$400 and interest, on a promissory note which the defendant company endorsed and which is due and unpaid.

DESIGNS AGAINST ONE-ROOM SCHOOL
U. S. Bureau of Education Favors the Consolidated or Centralized School Where Possible.

By Associated Press.
Washington, Oct. 2.—The old fashioned one-room school house of the country cross roads, within whose walls many of the country's most illustrious men received the rudiments of their education, would be entirely a thing of the past, if the United States bureau of education had its way. Its place would be taken by the consolidated or centralized school, as recommended in a bulletin just issued by the bureau.

Wherever this change can be made without too great expense and without breaking up or disintegrating existing communities, it should be done, says the bureau. There is constant improvement in the facilities offered by the one-room rural school, particularly in relating school work to the farm needs, it is reported, by fewer and better schools with transportation furnished to pupils living at a distance is the recommendation.

REXROAT MURDERER, ELUDES DETECTIVES

By Associated Press.
Chicago, Oct. 2.—Interest in the mysterious murder of Mrs. Mildred Allison Rexroat centered today in West Chicago, where the inquest over the victim's body was resumed by Coroner William V. Hopf. Meanwhile a dozen Chicago detectives searched for "Mr. Spencer" who is said to have accompanied Mrs. Rexroat to Wayne, Ill., the night she was shot to death and her body placed on the tracks of a railroad.

Coal Higher.
By Associated Press.
Boston, Oct. 2.—Retail prices of all grades of coal were advanced 25 cents a ton by dealers in this city today. The dealers say the increase was necessitated by high cost of handling.

QUALITY WILL TELL

REMEMBER
When You Cook With Gas

Your baking and cooking is done QUICKER because the fire is always ready, any size; BETTER—because the heat varies only when you want it to, simply turn the valve.

You eliminate all the DIRT—the discomfort of removing ashes—keeping the fire going and the disappointment of slow cooking and uneven baking.

That allows more time for other duties or much needed rest perhaps—makes the kitchen inviting and the work pleasant instead of a drudgery.

Gas Ranges \$15.50 to \$25.00
