CARRANZA MEN ARE JUBILANT

Air of Hopeful Expectation Today About Headquarters of the Constitutionalists.

RAISING OF EMBARGO CONSIDERED CERTAIN

Word from Washington Eagerly Awaited—Carranza-Hal Conference Saturday.

By Associated Press.

Nogales, Mexico, Nov. 14.—An air of cheerful expectation was noticeable today about headquarters of the Mexican constitutionalist movement led by Venustiano Carranza. Word from Washington was eagerly awaited and Carranza's adherents believed the plans of the American administration when fully revealed could not fail to be of advantage to the constitutionalist cause.

It was considered virtually certain that the embargo against the shipment of arms and ammunition across the border would be lifted soon by the United States, and Carranza's officers were jubilant at the prospect of a vigorous campaign against the federals. American property owners along the border also took great interest in proceedings here. They sought further information as to the conference between William Bayard Hale and the constitutionalist leader, but were forced to be content with assurances that the result appeared satisfactory, although details were not forthcoming.

ATTEMPT TO BE MADE TO IDENTIFY WRECK

Overturned Freighter in Lake Huron Still Unknown—Vessels Lost.

By Associated Press.

Port Huron, Mich., Nov. 14.—With five big steamers given up for lost with all on board and practically all hope given up for three others that encountered the terrific storm on Lake Huron during the early part of this week, interest today centered again upon the identity of the overturned freighter which lies in the lake a few miles northeast of here. Weather conditions this morning indicated that it would be possible for a diver to go down and examine her before night. The five steamers for which all hope has been abandoned are:

The John A. McGeen and the Charles S. Price, both of Cleveland; the James S. Carruthers, the Regina and the Wexford, all of Toronto. The three vessels, the description of which has not been so definitely determined are:

The Hydrus, the Argus and the Inac M. Scott; all of Cleveland. The loss of the eight ships with all of the crews would make a life loss of more than 150.

Wreckage from both the Hydrus and the Argus has been washed ashore and the Scott has not been heard from since she sailed away in the storm. She was due to report in Chicago yesterday, it is said.

The general opinion this morning was that the unidentified overturned steamer will be found to be either the Price or the Regina.

COMPROMISE WITH HUERTA INDICATED

Bryan and O'Shaughnessy Exchange Messages Concerning Reported Concessions by Huerta Advisors—Speculation as to the Probable Retirement of Huerta.

By Associated Press.

Washington, Nov. 14.—Secretary Bryan exchanged messages early today with Charge O'Shaughnessy in Mexico City about the reported concessions which members of President Huerta's official advisers have intimated he would make to the United States.

Efforts to recall John Lind, President Wilson's personal representative, from Vera Cruz to Mexico City to discuss the American memorandum demanding that the new Mexican congress should not convene were taken here to indicate that the group surrounding Huerta would suggest a compromise arrangement whereby the new Mexican congress would meet but not pass upon concessions or other measures calculated to continue Huerta in power.

W. H. TAFT VISITS THE WHITE HOUSE

Former President Calls and Pays Respects to President Wilson.

By Associated Press.

Washington, Nov. 14.—Former President Taft visited the White House offices today. He came to Washington to lecture before the National Geographic society.

"I just came to pay my respects," he said to Assistant Secretary Forster. "Please take my card to the president and tell him so. I know he is a busy man and I don't want to trouble him."

President Wilson, however, directed that his predecessor be ushered in immediately. The two men chatted for a few minutes, greeting each other heartily.

As the former president walked out he was surrounded by many old friends.

"I am becoming more pleased each day," he remarked, "with the dignity of a college professor's life."

Professor Taft has three times paid his respects at the White House since he left office. According to a veteran employee who has kept a memorandum of these things, Mr. Taft therefore has been back more times than any one else for 50 years.

Andrew Johnson, he said, never called at the White House after his term expired. Grant made only one visit—to be a house guest of President Garfield. Harrison called only once on President Cleveland and the latter never went back to the White House after his second term. Colonel Roosevelt on his return from Africa, left his card as Mr. Taft was out of the city and has not been here since.

CITRUS FRUITS FREIGHT RATE IS DECLARED UNREASONABLE

By Associated Press. tionalists.

While the United States might refrain from making any suggestions of its own, it would endeavor to act as a medium of communication through William Bayard Hale with General Carranza and Charge O'Shaughnessy at Mexico City so that there might be an exchange of views upon various names.

There was a report early today that Foreign Minister Moheño might be the man selected, though the views of the constitutionalists as to Moheño's acceptability were not known.

No Alternative Stated. Secretary Bryan declared today that none of the instructions to John Lind contained any statement of the alternative the United States would pursue in the event of Huerta's failure to meet this government's demands for his retirement.

Mr. Bryan made this statement in response to inquiry as to the truth of a recent report from Vera Cruz that Mr. Lind had delivered a note to General Huerta informing him that if he had not abdicated the presidency by tomorrow noon the United States would blockade Mexican ports.

The secretary declared that at no time had this government stated what its course would be if Huerta refused to accede to its demand for complete elimination. Mr. Bryan likewise declined to say what course of action the United States would pursue if the Mexican congress convened tomorrow in the fact of representations by this government that it will not recognize any of that body's acts as legal.

The secretary said that thus far no foreign power had interposed any objection to the course the United States is taking in its endeavor to restore order in Mexico.
