M. Ferrero Says America Has Given New Trend to Progress.

Paris, Dec. 8 .- America has started new current of civinzation in the world, according to Guglielmo Ferrero, the Roman historian. Prof. Ferrero, in a lecture before the Societe des Conferences Etrangeres in Paris, contrasted America and Europe and declared that new standards of judgment must be formed if Europe is to understand America at its rue value.

"We are accustomed," said he, "to regard things solely in terms of quality. We look upon the riches of America, for instance, with a kind of disdain. They are often regarded in Europe in the same light as the riches of a barbarous people which, to acquire them, has forsaken man's superior spiritual activities. It is not nec-essary to spend much time in America to see that Americans are very far from being devoted solely to the pur-

suit of wealth, "I have also heard it said Americans are without taste for art; that their cities are hideous. They are pictured as paying large prices for This eccentric act appears to have anything that is antique or passes as such, without distinguishing the beautiful and the authentic from the medocre and the false. It is unjust to say that the American is indifferent to to affirm that the progress of the arts, etters and sciences is at this moment he principal pre-occupation of the old world? Listen to what is said old world? Listen to what is said about us. We hear nothing but talk of perfecting economic equipment, the xploitation of iron and coal mines, industrial development, and how to in crease trade. If all this is American, then Europe must be undergoing Americanization at an amazing rapid

M. Ferrero sees in this new spirit. which has developed since the dis-covery of America, an immense historical movement which threatens to overthrow the very foundations of the resent civilization. It is founded on the idea of progress, which, born at he end of the seventeenth or the beginning of the eighteenth century, new dominates our civilization.

"The idea of this progress is as vague and indefinite in its meaning,' said M. Ferrero, "as it is popular and powerful in action. But it is a strange henomena that just in this century so-called progress everyone seems to be complaining of the decadence of things. Are we progressing or are we Can it be that this progress for which we sacrifice our repose, our tranquility and sometimes even lives, is only an illusion? This is the supreme problem which presented itself to me as the result of all I saw and learned during my travels in North and South America.

"In former times quality was more important than quantity. We have now reversed the world in which our ancestors lived, piling up riches has become our aim. We have won liberty, destroyed almost all the limitations of the past, but we have had in the process to abandon almost all the ideals of artistic, moral or religious perfection held in veneration by our ancestors. Nowadays we must everywhere sacrifice quality to quan-

"Thus there are two standards by which we may judge civilization, the standard of quantity and the standard of quality. One is typified by the the past civilization of Europe. Either, judged by the other's standard, will appear deficient. You cannot rereach a presidential candidate in the United States who is compelled to make half a dozen speeches during the day if his utyle is not so polished nor his phrases so nicely turned as An idea; git for the tacticior is the those of Cicero. Nor could you expect "handy" lox confaining tags, cubber such gems of oratory from Cicero if he had been called upon to comply fact, almost my article one might need with the same demands as are made

A Futurist Ambition.

The "painting of sounds, noises and smells" is the latest ambition of the most advanced school of Paris futurmore pleasure from one of these boxes | ist artists. Sounds, noises and smells, which was given to aim than from al- they affirm, "are incorporated in the most any other gift he could mention expressions of lines, volumes and col-The boxes come in various sizes, the ors are incorporated in the architecnumber of useful articles contained ture of musical work. From the point of view of form there are sounds, noises and smells which are concave or convex, triangular, ellipsoidal, ob-long, conical, spherical, spiralis, etc. From the point of view of color they are yellow, red, indigo, sky-blue and The divsion of education of Har- violet. In stations, factories, garages, vard University and the city of New- hangars and in fact throughout the holder of the followship is a member red. In cafes, restaurants or salons of the faculty both at Newton and at they are silverish, yellow and violet. and experiments in the Newton animals they are yellow and blue of with the active co-operation women, green, sky-blue and violet.

screaming reds," and "greens," never enough greens; yellows, never enogh yellows, exploding yellows, saffron, copper and early morning yellows."

Hector Granet, an obscure scholar living at Viverols, in the Auverne, conceived the idea of preserving in alcohol the corpse of his dead father. supplied the touch which was necessary to transform his obscurity into prominence. M. Granet is now the celebrity of Viverols. It has since been discovered that his studies are worthy of some notice and the French government has decorated him with the Academic Palms. M. Granet also has prepared a glass-roofed coffin similar to that for his father, which is one day to receive his own body for similar preservation.

CHICAGO-YALE GAME

MATTER OF CONJECTURE

Pinchurst, N. C., Dec. 8,-A. A. Stagg, director of physical culture and athletics at Chicago university, last right said that the possibility of Har-vard and Chicago meeting on the gridiron next year still is a matter of conjecture. The invitation recently received from Harvard, Mr. said, had been referred to President Judson of Chicago university. He added that President Judson probably would call a meeting of the university's athletic board in the near future to take action upon what he described as Harvard's "challenge,"

There were 5 schools and 150 pupils in the Brooklyn kindergartens organized by Superintendent Wm. H. Maxwell 15 yeas ago; now there are 40,000 children in the kindergartens of Greater New York.

COMING ATTRACTIONS.

WEDNESDAY, DEC. 10, Lyman H. Howe's Travel Festival.

THURSDAY, DEC. 11, "The Quaker Girl."

FRIDAY, DEC. 12, Deceiver.

Lyman H. Howe's Travel Festival.

portance cannot be over-estimated. If it were noteworthy for no other of its many merits this fact alone would justify its great vogue and prestige. In this respect it is playing a much more important role than any dramatic attraction extant. In the refine ment and enlightenment of the mind it is fulfilling a mission that is as far reaching in its scope as halls of learning and culture. It serves to increase the sum total of human wisdom to a degree difficult to realize. When you leave the theater after a two and a half hours' world tour with Howe, you have derived more real satisfac tion, wholesome entertainment, and beneficial knowledge than can gleaned from a score of dramatic or musical offerings. Prices will be 25c, 30c and 50c. Tickets are selling at

"Peg o' My Heart." Manager Bailey is to be congratu-ated on being able to offer his patrons one of the greatest comedy success of recent years, and one which Laurette Taylor has played for over a year at New York's latest and finest theatur, The Cort, "Peg o' My Heart." Mr. Morosco is sending his organization to

"The Quaker Girl,"
"The Quaker Girl," the famous mu sical hit of three continents, having enjoyed a season's run in New York comes to the Auditorium on next

Thursday, December 11.

John P. Slocum is sending the entire company here of over \$6 singers, headed by Victor Morley who will play Tony Chute, the role of the young American who sings and dances his way into the heart of the Quaker lass during three acts of tuneful and amus-ing entertainment. Not much need be said of the history of this musical hit f three continents, as most pernow that it ran two years in Lor
