## EVENTS FROM THE WORLD OF SPORTS

Special to The Gazette-News.  
Raleigh, Jan. 27.—That he will on Tuesday of this week suggest to the trustees of the University of North Carolina plans for the resumption of athletic relations between the university and A. & M. college was a statement made by Governor Craig when approached by newspaper men about the conditions that now exist between the athletic associations of the two institutions. He will also bring the same proposition to the attention of the trustees and officials of the A. and M. at the first opportunity. He insists that these two state institutions should maintain athletic relations if they have intercollegiate relations at all. He insists that the present differences should not be allowed to continue. He says if the conditions are wrong in either institution, and each insists that the other is wrong, then these conditions should be rectified by mutual agreement. He feels that not only the trustees and officials of the two institutions, but the people of the state generally, whose institutions they are, should insist that friendly athletic relations be resumed.

The governor will suggest that a uniform system of rules be agreed upon so that ball teams of the two institutions can meet on equal footing.

(By Associated Press.)  
Philadelphia, Jan. 27.—Tentative groupings of colleges and universities which have been invited to compete at the twelfth annual relay race carnival of the University of Pennsylvania were made public yesterday. Oxford University, which has announced its intention to send a team from England to compete in the four mile championship relay event, heads the list in the championship class. Cambridge university, England, is also included in this grouping, although it has not yet decided to send a team. It was said that institutions in Germany and Sweden are contemplating entering teams.

The championship events, which will be open to all colleges and universities in the world, include a one mile; a two mile and a four mile event. In the first each man will run a quarter of a mile, in the second a half mile and in the third a mile.

The games will take place on April 25 and the entry list will close on April 1. In addition to the relay races the institutions have been asked to enter their best athletes in the following scratch events open only to undergraduates: 100 yards dash; 120 yards hurdle; high jump; broad jump; shotput; hammer throw; discus; javelin and pole vault.

Tampa, Fla., Jan. 27.—Johnny Evers, manager of the Chicago National League Baseball team, has arrived here to spend ten days on business for his club, which will train here again this spring. Evers states that the ball tossers will all be here by February 20. He says there will be none of the stars missing from the up-line despite Joe Tinker's activity in behalf of the Chicago Federal league team. Evers will get the signatures of Tommy Leach and that of Wilbur Goode to 1914 contracts while here. Both men have orange groves near Tampa and have been here for several weeks.

The Cubs' manager looked over the local ball lot, which is being put in shape for his team, and said it would do with a little more work. The Philadelphia Athletics, who train at Jacksonville this spring, will come here to spend ten days in this city for three games, and the Cubs will go to Jacksonville for a similar engagement. The St. Louis Browns, training at St. Petersburg, across the bay from here, will also play a short series with the Cubs.

Chicago, Jan. 27.—President Murphy of the Chicago Nationals, declared yesterday that Ward Miller, outfielder, who jumped from the Cubs to the St. Louis Federals would be enjoined from playing with the latter at least in Illinois, if the courts look favorably on a suit the club plans to bring.

Dinner for Players.  
New York, Jan. 27.—A dinner in honor of the Giants and White Sox world tourists will be held in this city March 7 by the National and American leagues. The committee of major league players appointed recently to arrange for welcoming the baseball globe trotters home, met here today and planned the banquet.

Chicago enthusiasts are planning to charter a vessel to meet the players down the bay.

U. S. Players Win.  
Pinehurst, N. C., Jan. 27.—Tennis players representing the United States yesterday defeated their Canadian opponents in the opening round of singles in the annual mid-winter tennis tournament here. Russell Dana, Providence, R. I. former Rhode Island champion, handily defeated T. H. Hall of Toronto. Lawrence Cowing, Cincinnati, won from Walter Goldstein, Toronto; and H. A. McKinney, Providence, defeated E. S. Glasco, Toronto.

Goes in Business.  
Amherst, Mass., Jan. 27.—Henry H. Hobbs, for the past three years coach of the Amherst college football team, has notified the college athletic officials that business duties will prevent his acceptance of their offer to return for another year.

Quimet's Position.  
New York, Jan. 27.—For the handicappers of the United States Golf association there is this year an interesting problem that will keep the student from guessing until the national raking list makes its appearance. This is the position Francis Quimet is in reason to believe that Quimet will take the unprecedented jump of four strokes and join Jerome in the Travers at scratch.

It will not be necessary for him to win the open championship again or to take the British titles to maintain his place, which is a jump over the heads of about twenty players. What he will now be required to do however, is to walk step for step throughout the season with Mr. Travers unless the latter shows a remarkable falling off in form.

## Bad Blood

is a poisonous and dangerous thing. It affects every organ and function and brings about that low condition that predisposes to most diseases and ailments. HOOD'S SASSAPARILLA corrects it, and makes pure blood.

Philadelphia, Pa., Jan. 27.—Frank Kelly who won the 110 meter hurdle race at the Olympic games in Stockholm, and Howard Drew the Springfield training school sprinter, have notified the University of Pennsylvania authorities of their intention to compete at the annual relay races here on April 25.

New York, Jan. 27.—Ben Sayers, for more than 40 years a prominent figure in British golf, is coming to America for a visit in May or June. Tom Patterson, the professional of the Knollwood country club, who recently returned from Scotland, brings this information with him.

Sayers has competed in 33 championship tournaments in Great Britain, finishing second once, third once and fifth three times. Sayers has been especially successful at teaching the game. He was instructor to King Edward.

## STUDYING THE CANAL IN THE SCHOOLS

Panama canal study clubs are being organized in some of the public schools by progressive geography teachers. Seeing that it is now possible to secure a book on the canal which is vouched for by Chief Engineer Goethals, so far as the engineering chapters are concerned, some of the teachers have organized their classes into co-operative clipping clubs for the purpose of gathering the coupons and getting books for the whole class together. A prominent woman teacher in Washington obtained a copy of the book and was so delighted with it that she asked her pupils to bring in all their coupons and she went down to the business office of the paper handling the book and ordered nine copies. Other teachers have been following her example, with the result that Young America will know as much about the canal as their elders hereafter.

President Wilson said the other day that the Panama canal is typical of the American genius for achievement. Nothing so stirs the patriot heart in these days of peace as the real story of the Panama canal, and the author who can tell it renders a service to his country, just as the newspaper which brings it to its readers renders a service to its community. That is why The Gazette-News is distributing at cost "The Panama Canal," by Frederic J. Haskin.

Special to The Gazette-News.

SCENE FROM "MR. PLASTER OF PARIS," WHICH COMES TO THE MAJESTIC THURSDAY, FRIDAY AND SATURDAY.

## SMUGGLING CHARGED AGAINST LITTAUERS

One Brother Former Member Of Congress—Necklace Valued at \$40,000.

New York, Jan. 27.—Lucius N. and William Littauer, brothers, the former at one time a member of congress have been indicted by the federal grand jury here, charged with smuggling into this country a diamond necklace valued at \$40,000.

The defendants are prominent glove manufacturers of Gloversville, N. Y.

The government alleges that Lucius Littauer brought the necklace with him when he returned from abroad a few weeks ago. By the time the customs authorities heard a rumor concerning the alleged irregular importation, the necklace was in Washington. Then, it was said, the ex-congressman surrendered the necklace, which he had turned over to his brother, William.

In the indictments the Littauers are charged with conspiracy to defraud the United States, and in a separate indictment Lucius Littauer is charged with the smuggling and William Littauer with receiving the necklace, knowing it to have been irregularly imported.

## NO CLUE TO MRS. W. LYNCH'S MURDERER

Special to The Gazette-News.  
Raleigh, Jan. 27.—Coroner Chas. A. Seaparks has returned from Wendell after fruitless attempt to get any clue to the murderer of Mrs. William Lynch, who was found near her home, a short distance from Wendell, late Saturday night. There is nothing the officers can find to put them on the track of the murderer, who evidently used an axe and then dragged the body of the woman probably fifty yards to hide it in a brush heap. The Lynch home is just on the Wake and Johnston county line. Indeed, the indications are that the murder was really committed in Johnston county.

## A Neglected Cold Often Affects the Lungs

Many serious cases of Throat or Lung Trouble can be directly traced to a cough or cold which has been neglected. If you notice that a cough persists in clinging to you take warning. If you neglect trying to stop this supposed trivial trouble the throat and lungs later become affected. In many cases Eckman's Alternative has been the means of bringing permanent relief. Investigate this case—

Saratoga, N. Y.  
"Gentlemen: For five or six years I was troubled with cough and expectoration. I also had a high fever. My case was declared Lung Trouble by my physician. I was given Cod Liver Oil, Crescote, and other medicines, all without benefit. At Christmas time, 1906, I was not expected to live. Calling Dr. R. H. McCarthy, he advised the use of Eckman's Alternative, which I took with excellent results. I have gained in weight. I go out in all weathers and have had no cough or cold whatever. I give these facts to encourage others to use Eckman's Alternative."  
(Affidavit) JAS. W. KANALY.  
(Above abbreviated more on request)  
Eckman's Alternative has been proven by many years' test to be most efficacious for severe, Throat and Lung Affections, Bronchial Asthma, Stubborn Colds and in rebuilding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by leading druggists. Write the Eckman Booklet telling of recoveries and additional evidence.

COMING ATTRACTIONS  
MAJESTIC THEATRE.  
"At Saratoga Springs" today and tomorrow.  
"Mr. Plaster of Paris" Thursday, Friday and Saturday.  
Max Bloom and his horse in "The Sunny Side of Broadway," February 2, 3 and 4.  
"Mr. Plaster of Paris."  
James L. McCabe and a competent supporting company come to the Majestic on January 29, 30 and 31 in the farce comedy with music entitled "Mr. Plaster of Paris." The show is reputed to be the best of the condensed musical offerings, having more meat than the average show that occupies twice the time.  
Max Bloom and his horse will be seen at the Majestic in the musical farce comedy "The Sunny Side of Broadway," commencing with a regular matinee Monday, February 2, 3 and 4. "The Sunny Side of Broadway" is claimed by the management of the Majestic to be one of the best offerings of the season. It is seldom that a star like Max Bloom can be seen at Majestic prices.  
Cured the Dryness.  
Mother—How did papa's new book get in this condition? Bobby—Why, mamma, I heard papa say last night that the book was too dry for him. So I put it in the bathtub and let the water run.
