

# NOSE AND HEAD STOPPED UP FROM COLD OR CATARRH, OPEN AT ONCE

My Cleansing, Healing Balm Instantly Cleans Nose, Head and Throat—Stops Nasty Catarrhal Discharges, Dull Headache Goes.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

## ASHEVILLE SCHOOL FOR GIRLS TO BE CONTINUED

Reports to the Contrary Denied in Statement Issued By Trustees.

Following a number of reports that have become current lately to the effect that the Asheville School for Girls is to be discontinued after the present session, the following statement has been issued by the trustees, in which the patrons and friends of the school are assured that the work of the institution is to be continued:

"There seems to be some misapprehension concerning the continuance of the Asheville School for Girls, arising possibly from the fact that it has become known that the property was under offer of sale, and also that one or two of the teachers were severing their connection after this year.

"The board of trustees wish to state that they have made arrangements with Miss Carbutt, who has so ably managed the school this year, to continue same on through 1914 and 1915, and she has, moreover, arranged to add some new features that it was found impossible to introduce this year.

"This school is the result of an expression of opinion by a few business men in Asheville that the city should have a high-class non-sectarian school for girls. So far it has been run at some financial sacrifice, but they feel as time goes on its work will be better appreciated and that the attendance will increase so that finally it will be a paying proposition, as well as an asset to the city.

"The school is capable of taking care of upwards of 200 pupils, and if the parents who wish or are expecting to have their children educated at a high class private school will look over the work that is being done it is certain that they will join with those who are carrying on the work and send their children to a home school of this character."

Secretary T. M. Duckett of the local baseball club yesterday afternoon received a letter from Noojin, who played centerfield with the Asheville club last year, in which he states he will not be in Asheville this year, as he has accepted an offer from Howard college at Birmingham, which he is loathe to turn down. He has been coaching the Howard college team this year and states that he desires to remain much as he would like to play with the Asheville team. This will be bad news to many fans in the city, as Noojin was well liked here and did good work last year.

## BAD WATER WILL BE WORST FOE OF ARMY

New York, April 24.—Bad water will be the army's worst foe in Mexico if war is declared, according to Colonel M. L. Maus, chief surgeon of the first army division, which has headquarters at Governor's island. The water supply and sanitation system of Mexico, he explained, were so far behind modern methods that if an army should be sent into Mexico City an entirely new system would have to be provided. He estimated that millions of dollars would be expended by the United States for sanitation and that from a health standpoint American occupation of Mexico would be a good thing for that country.
