# SIGNALS MISREAD

Wireless Operator Mistook the Code Name For "S. O. S." Signal of Distress

San Francisco, May 2.-How wireless operator heard the steamship Persia sign her code signal "M. B. S." after giving her latitude and longitude, and misread it into "S. O. S." the signal for assistance was explained today by those familiar with the international code used for wireless work. The mistake probably caused the report yester-day that the Pacific Mail liner Siberia was in distress off the coast of Formo-

The symbols for the two sets of letters are as follows: "M B

0 8"

A steamer in giving her longitude and latitude sends her own code name thereafter twice. It is considered probable that on the first sending some operator failed to receive the "M" and "B" and caught the "S." Naturally alert at the first letter of the distriss signal, he caught the two dashes of the "M" as the Persia startpause between two dashes and the first subdivided into residence Thus he had:

and the final three dots of the "B" The operator having the location of

the vessel and what he thought was "S O S" relayed the call. The Persia, having given her location and name, proceeded. This explained with nothing more was heard from her.
