TWO GREENSBORO PLAYERS JOIN CHARLOTTE TEAM

Manager of Patriots Trades Doak and Futrell For First Baseman.

Special to The Gazette-News. Greensboro, Aug. 7.—In an effort to strengthen the Patriots and give the other five clubs in the North Carolina league a battle during every remaining game to be played, Charlie Doak and Catcher William Futrell were last night traded to the Charlotte club for First Baseman McCall. McCall is an experienced player and has given a good account of himself around first base since joining the Hornets some two months ago. He is hitting well, as is shown by him being placed in the lead off position by Manager Emery and when it comes to fielding his position no first sacker in the league can show him anything. McCall is an Indian and played last season in the Ohio state league.

MONTREAT SPEAKER WAS DR. MARTIN

Special to The Gazette-News. Montreat, Aug. 7.—The address of Dr. W. J. Martin, president of Davidson college, constituted one of the most interesting features of the program of the conference on Christian education and ministerial relief, now in session at Montreat. The theme of the address was the importance of the denominational school and Dr. Martin gave a number of interesting facts in support of his presentation of the subject.

Among other things, he showed that more than 80 per cent of the ministers of the Southern Presbyterian church and of all churches are men who have been educated in denominational schools and the same per cent applies to home and foreign missionaries; also more than 90 per cent of all other people engaged in Christian service are those who have been educated in these schools of the church and not more than ten per cent of Christian workers are educated elsewhere.

Dr. Martin spoke of the effect of the denominational college upon the public school system and showed that in proportion to the larger interest and greater support is given to the denominational college is the public school better. The public school system of North Carolina, he declared, is safer and surer than is true of that system in most states and this condition is due, he said, to the fact that the support given to denominational schools in this state is such as to make rivalry that results in good.

Speaking of the importance of making life count for as much as possible, he urged education in Christian schools as an important factor in accomplishing this great end, and of giving to the world great intellectual and great spiritual leaders.

Lafferty, formerly of Davidson, who has been registrar and business manager of the Charlotte college since its organization, has made no plans as to his future. He hopes to continue his residence here.

EFFECT OF THE WAR IS FELT IN DURHAM

Special to The Gazette-News. Durham, Aug. 7.—Durham has felt the effects of the European war in the depression of the bond market.

The city was to have sold \$60,000 sewerage bonds in order to get money for the construction of a disposal plant on Third Fork creek, but called this sale off because the mayor and aldermen did not believe they could get a fair price for the bonds as compared with the prices that Durham bonds have sold for in years past.

This sale of the bond issue was postponed till the first of October, when it is expected that the market will be somewhat settled.

His Suyaeta Bill

Editor of The Gazette-News: In examining the papers in the Hon. R. R. Reynolds and the Suyaeta Park hotel at Waynesville, I find I am charged in Mr. Reynolds' account with a board bill for \$10.50.

I registered at the Suyaeta Park hotel on Friday afternoon, May 29, and was a guest of this place until Saturday morning. I was there for three meals and one night's lodging. Under no circumstances is this charge of \$10.50 fair and just; in fact, my accommodation according to the rates of the hotel, as I understand it, for three meals and one night's lodging would be only \$2.00.
