Fenway Park, Boston, Oct. 14.—The Boston Braves, George Stallings' invincible Boston National League team broke all records yesterday, defeating the veteran Philadelphia Athletics, thus winning the world's baseball series, taking every game of the four played. Such a feat had never before been accomplished in a world's series contest. The Braves literally battered themselves to victory, especially in the last game. Shawkey was knocked from the box after the game was won. Shawkey was relieved by Pennock. Rudolph was never in serious danger except in the fifth inning when Philadelphia's only run was made.

Attendance and Receipts. Boston, Oct. 14.—The official attendance and receipts for yesterday's game is as follows: Attendance 34,365. Receipts \$62,653. National commission's share \$6,265.38.

Players share \$33,832.62. Each club share \$11,577.54. Total for series four games: Attendance 111,009. Receipts \$226,739. Players share \$121,900.94. National commission's share \$23,473.73.

Each club's share \$40,632.58. The world's series of 1914 was the tenth between the pennant winners of the two major leagues since the national commission, the highest court of baseball, took charge of the annual autumn championship battle in 1905. The victory of the Braves brings about a tie for inter-league honors, since the American League and National League clubs each have won five championship pennants. The American League victories and the club that won them follow:

- 1906—Chicago. 1910—Philadelphia. 1911—Philadelphia. 1912—Boston. 1913—Philadelphia. The National League triumphs were: 1905—New York. 1907—Chicago. 1908—Chicago. 1909—Pittsburgh. 1914—Boston.

Connie Mack, the Athletics leader, is the only manager who has won three world's championships and he appears to have stumbled over the myrtle fourth just as Managers McGraw, Jennings and Chance have failed to win four league pennants in a row.

Batting Averages. The official batting averages of the Braves and Athletics for the 1914 world series, given out last night, follows:

Table with 6 columns: Name, G., AB., R., H., PC. Rows include Gentry, Evers, Whitford, Deal, Moran, Cather, James, Tyler, Devore, Gilbert, and Totals.

Table with 6 columns: Name, G., AB., R., H., PC. Rows include Wyckoff, Shawkey, Wash, Schanz, Rudolph, Collins, Murphy, Schanz, McInnis, Barry, Oldring, Spib, Bender, Plank, Pennock, Lapp, and Totals.

Rudolph and Gowdy were announced as the battery for Boston; Shawkey and Schanz were announced as battery for Philadelphia. Evers struck out Collins three out of four. Whitford walked. Oldring was out to Evers. No runs; no hits; no errors. (Continued on Page 5.)

PORTUGAL GOES TO WAR, REPORT SAYS

Austrian Horde Makes A Final Effort to Crush Foe on River Drina

GREAT BATTLE IN POLAND INDICATED

Report of Allies' Success In Center Of Battle Line In France Is Confirmed In Paris.

London, Oct. 14.—A Central News dispatch from Madrid says it is reported from Lisbon that Portugal has declared war against Germany. The message, which lacks official confirmation, is published in Madrid with all reserve.

London, Oct. 14.—There is hope in London today that the 108th anniversary of the battle of Jena, in which the French gained a victory over the Prussians and Saxons, may be celebrated along both battle fronts by events recalling this great and decisive struggle but whatever the outcome brief reports are received of what is now transpiring in Belgium, France and in Russian Poland.

The latest French official communication declares there is nothing to report, except a notable advance in the region of Berry-au-Bac, while Petrograd gives out the corresponding statement that warlike operations continue along the Vistula and San rivers as far as Przemysl and south as far as the Dnieper. A great battle along this front may even now be under way and in any event it cannot be long postponed.

Vienna reports that the Austrian offensive continues north and south of Przemysl and that Jaroslau, an important fortress taken by Russia several weeks ago, has been re-occupied by the Austrians. A dispatch from Nish says that acting on instructions from the German general staff, Austria has concentrated on the banks of the Drina the greatest army yet sent against Serbia, in a final and supreme effort to crush that country. A dispatch from Nish says that acting on instructions from the German general staff, Austria has concentrated on the banks of the Drina the greatest army yet sent against Serbia, in a final and supreme effort to crush that country.

Nearer home news of military operations is even more meager than in the eastern area. It is claimed, however, that all the efforts of Gen. Von Kluck to smash the allies' left have been repulsed. In the Baltic the German fleet is showing unusual activity. Submarines or a torpedo boat recently sunk a Russian cruiser at a point distant two days' steaming from their base, and a great German squadron flying the flag of Prince Henry of Prussia is today reported cruising about the Aland Islands.

The ferment over the question of neutrality of the countries of southeastern Europe is increasing everywhere. An exception is found in the case of Italy, where discussion has been checked while the country awaits the news from the sick-bed of its foreign minister.

London, Oct. 14.—Cabling from Lisbon, the correspondent of the Central News says it is reported that the German minister to Portugal and other Germans residing in Lisbon are about to leave for Madrid.

CRITICISES NEW BANKING SYSTEM

President of Association Says Extraordinary Power Is Given to One Man.

Richmond, Oct. 14.—Discussion of the nation's new currency system today marked the first general session of the American Bankers association. "Only the wisdom of management by the directors and officers of the various reserve banks and of the federal reserve board can insure the success of the experiment," declared Arthur Reynolds, president of the association, in his annual address.

"It has been popularly supposed," Mr. Reynolds continued, "that with the opening of the federal reserve bank government funds would be deposited in those banks and the independent treasury system and its consequent expense both to the government and the business of the country would be a thing of the past.

ADVISES HUNT NOT TO SEND MILITIA

Will Complicate Matters to Send State Troops to Border, Garrison Says.

Mexico City, Oct. 12.—(By Courier to Vera Cruz, Oct. 14.)—The Mexico tramways company lines were seized by the Carranza government today at the point of the bayonet.

Washington, Oct. 14.—Secretary Garrison today telegraphed Governor Hunt of Arizona that the dispatch of state militia to Naco or Douglas, as proposed by Arizona officials, was unnecessary and would greatly complicate the border situation.

Mr. Garrison said the United States border forces were capable of doing everything possible short of actual entry into Mexico to protect the American lives and property from the danger to which they are exposed by the fighting of the Mexican factions across the line. "We have at the present time at Naco fourteen troops of cavalry and two machine gun companies," the secretary's message said.

"We are doing everything short of invading Mexico and driving the combatants away by force that we possibly can do. Additional troops would not be of any use to us in doing what is proper for us to do under the circumstances. Were you to send state troops to Naco it could only have the effect of further complicating the situation and adding a new element of risk. It would also introduce the great peril which arises out of divided responsibility. An ill considered move on our side may precipitate an armed conflict between the American forces and the Mexicans with ultimate consequences that no one can foresee.

The laboring men carried to the park with their wives and children and everybody seems to be having a good time.
