#### A Costly Funeral.

The most costly state funeral which has ever taken place was perhaps that of Alexander the Great. A round mil lion was spent in laying Alexander to his rest. The body was placed in a coffin of gold filled .with costly aromatics, and a diadem was placed on the head. The funeral car was embellished with ornaments of pure gold. and its weight was so great that it took eighty-four mules more than a year to convey it from Babylon to Syrin.
