

"The Thinkers of the Country Are the Tobacco Chewers"— said one of the greatest thinkers this country ever produced.

Says the Carpenter: "Every time you see a good joint, it means some carpenter has put in some clear thought and followed it up with a steady, sure hand."

"It's when you have a ticklish job to do that you need a chew of PICNIC to "whet" brain and hand to a cutting edge without any dulling after effect."

You can take chew after chew of PICNIC and get all the uplift without that after effect of heavy, dark tobacco.

Only the mild mellow part of the leaf goes into this soft, convenient twist. That's the secret of its sweet, long-lasting flavor and its extraordinary mildness.

### ANOTHER BURGLARY REPORTED IN CITY

Ernest L. Mace, a letter carrier, residing at No. 11 Grady street, was awakened Friday by his wife, who told him that someone was in the room, and upon investigation, it was found to be a negro who, after a struggle with Mr. Mace, made his escape.

Mr. Mace was up earlier in the night and, finding the front door slightly ajar, he closed it, thinking that perhaps it had been left that way by some member of the family. He retired again and it was shortly after this that his wife awoke him and told him that someone was in the room. Although Mr. Mace could not see him close enough to be able to recognize him, it is said, he thinks, however, that his wife would be able to recognize the man.

The matter was reported to the police and a thorough investigation is being made of the case.

### WILL ASK VERDICT IN SECOND DEGREE

Jarrett Will Be Tried for Murder in Second Degree, Mr. Swain States.

After having disposed of 103 cases in five and one-half days, Superior court for the trial of criminal cases, which convened here last Monday with Judge James L. Webb of Shelby presiding adjourned at noon Saturday until this morning. The present term will continue for another week and, while such a large number of cases have been disposed of, the two most important cases on the docket will not come up for trial until this week.

The most important case on the trial docket is that against E. M. Jarrett will be tried for murder in the second degree. Solicitor Swain states and the case is set for Tuesday morning.

The other important case is that against James Hudson, colored, charged with burglary, the grand jury having returned a true bill against him this week.

When Superior court convened here last Monday there were 149 cases on the docket, but since then this number has been increased until at noon Saturday a total of 167 cases had been docketed. With 103 of these cases disposed of, there is a total of 64 cases left for trial this week. While a good many of the cases disposed of last week were by submission, the work of Judge Webb and Solicitor Swain has been very strenuous and the business of the court has been speedily dispatched.

L. K. Harris was found not guilty of assault. Alf Snyder was fined \$5 and the costs on charges simple assault. Phillip Thompson was fined \$5 and the costs on charges of interfering with an officer in the discharge of his duty, and taxed with the costs on charges of drunkenness. Griley Moss was fined \$5 and the costs and ordered to report at next term and show good behavior, on charges of assault with a deadly weapon. C. B. Gibson and Star Wells pleaded guilty to assault with deadly weapon.

### Uneeda Biscuit

Tempt the appetite, please the taste and nourish the body. Crisp, clean and fresh—5 cents in the moisture-proof package.

Round, thin, tender—with a delightful flavor—appropriate for luncheon, tea and dinner. 10 cents.

### Zu Zu

Prince of appetizers! Makes daily trips from Ginger-Snap Land to waiting mouths everywhere. Say Zu Zu to the grocer man, 5 cents.

Buy biscuit baked by NATIONAL BISCUIT COMPANY Always look for that name

### Austrians Are Trapped By Russian Maneuvers

Geneva, Switzerland. (By way of Paris) Jan. 11.—The Austrians have been caught in a trap set by General Ruzsky and Ivanoff, according to advices from Hungarian sources which were not censured. In conformity with the Russian plans, the advance Austrian columns, after crossing the Nida, found themselves stopped by dangerous, marshy ground. Simultaneously, the Russians attacking Cracow suddenly abandoned their operations and resumed the attack, employing new maneuvers.

With the Russians occupying important positions in the Carpathians on the side of Bothnia, the Austrians can advance no further toward Warsaw, not only because the roads are thickly mined but because they are also strongly held by the Russians. On the other hand, the Austrians defending Cracow, because of Russian maneuvers, can only meet along the line from Wlodek to Bothnia under the most unfavorable conditions, the Austrian commanders being unable to discover whether the Russians intend to occupy Hungary, or attack Cracow, or both. They have already lost five or six days and it is now too late to call in more troops necessary to oppose the Russian maneuver.

### Roumania To Mobilize Last Week In January

Paris, Jan. 9.—Roumanian mobilization of troops will begin the last week in January, according to the Petit Parisien, by the calling out of three classes totalling 135,000 men; and the mobilization will continue until 600,000 troops are ready for the field.

It is expected that Switzerland will be asked to take charge of Roumanian interests in Germany and Austria, the Petit Parisien says, but adds that the Roumanian cabinet has made no definite arrangements as yet.

### DISCARDED RIFLES IN GOVERNMENT ARSENALS

Officials Do Not Believe Discarded Guns Have Been Sold to the Belligerents.

Washington, Jan. 9.—The war department officials believe that an inventory by Secretary Garrison will show that none of the government's discarded Craig-Jorgensen army rifles have been removed from the arsenals since the beginning of the war and that it will be shown that there was not ground for the rumor that the weapons were being sent to Europe for the use of belligerents.

### FOOD, FINGERS AND FLIES.

Three of the Factors Most Active in Spreading Disease. There are three principal ways in which disease germs are carried from person to person, and these ways may be easily remembered by three catch words—food, fingers and flies.

The most important foods which carry disease are those which are eaten raw, since thorough cooking destroys disease germs and most cooked foods are only dangerous when they have been infected in the kitchen after cooking. Among raw foods, too, many, like oranges, are safe because they are peeled before eating.

Of all foods the most dangerous are water and milk, because they are often polluted (by sewage in the case of water, by human contact in the case of milk), because they are drunk promptly without time for the disease germs to die out and because, usually in the case of water and often in the case of milk, they are not cooked.

The second way in which disease germs are commonly spread is by means of contact between people themselves. Fingers, in the catch phrase, which all who value their health should try to bear in mind, stands not only for the fingers themselves, but for all sorts of ways in which disease germs may be exchanged.

In measles and whooping cough and scarlet fever and diphtheria and tuberculosis and many other diseases the germs are present in the nose and throat and are spread from person to person by the fingers, which go too often to the mouth and nose, by drinking cups and spoons and other things which too often are used in common and by the fine spray thrown out from the mouth in coughing and sneezing.

In typhoid fever and diarrhea and similar diseases the germs are found in the intestinal discharges, and here, too, soiled fingers play an important part in the transmission of the disease.

The third common way in which disease germs are spread is by means of insects. Flies are perhaps the most important insect germ carriers in most states. They often pick up infected material on their legs and bodies and carry it to food, and where there is no good system of sewage disposal they may play a part in the spread of such diseases as typhoid fever. A certain kind of mosquito carries malaria, and this, too, is important in certain districts. In tropical countries a whole host of diseases is carried by insects—New York American.

### COWBOYS OF SPAIN.

Splendid Horsemen, but They Use Spurs Without Mercy. The perfection of Spanish horsemanship is to be seen among the vaqueros, ganaderos and garrocheros, by which various names the mounted herdsmen of the Andalusian plains are known. In brief, what we should call a cowboy. Every farm seems to maintain a large number of these, for each herd, flock or drove has its own herdman, goatherd or swineherd, as the case may be. The vaqueros are a fine looking lot of men. Tall, thin, light and loosely made, they look ideal horsemen, as, in point of fact, they are, though their mounts are poor.

The vaquero rides very high on a huge saddle, with a long stirrup and straight leg, using a single rein and a very heavy curb, but he has such beautiful hands that, although using this barbarous bit, he never cuts his horse's mouth about. It is different with the animals' sides, however, for he uses his spurs without mercy, and the white horses of which there are a large number—all have countless red stains behind the girths.

All the herdsmen who look after cattle carry a long lance, called a garrocho, of thick and heavy wood, which, except when standing still, they always carry "in rest" and not "at the carry," presumably on account of the great length and possibly the weight. With this weapon, in the use of which he requires amazing dexterity, the garrochero is able to control the most unruly herds in the herd, not excepting the average fighting bull—Wide World Magazine.

Braxton Kennedy led the men in making points last night, making a total of 149 points during the contest. In the pull-up, his score was perfect and he "chinned" the pole 20 times.

The result of the contest last night follows: Golds, attendance 133; athletics 549; total 682. Blues, attendance 85; athletics 275; total 460. Reds, attendance 55; athletics 70; total 125.

### ALL DOWNSTAIRS SEATS HAVE NOT BEEN SOLD

Manager Bailey Makes Important Announcement Relative to Maude Adams Shows.

Manager George W. Bailey of the Auditorium announced Saturday he still had on sale between 150 and 200 seats in the dress circle for the presentation of "The Legend of Leonora" and "The Ladies' Shakespeare" by Maude Adams and her company here next Monday evening. He says that the impression seems to have become prevalent that there are no seats left for the production except general admission seats in the balcony and gallery. It is his desire to correct such an impression.

Mr. Bailey also announced that the doors of the Auditorium and the box office windows will be opened at 7:30 o'clock Monday evening in order to avoid the rush of those seeking to purchase general admission tickets, of which there will be about 700.

### MEXICAN PROBLEM PRACTICALLY SOLVED.

Washington Jan. 11.—Progress of negotiations between the warring factions in Mexico by which "the problem" of pacification of Mexico has been practically solved, was announced Friday by General Gutierrez, provisional president of Mexico, at the convention in Mexico City.

### BREAD MAY RISE.

Chicago, Jan. 11.—Over 200 baking establishments are complaining at the high price of flour. Some of the bakers stated today that unless the price of flour fell sharply within two or three weeks bread would have to be advanced to six cents a loaf.

### TWO MEN ARE KILLED BY FALL AT CLINTON

Grady Mendenhall and Owen Taylor Drop Ninety Feet to Their Death.

Special to The Gazette-News. Clinton, Jan. 9.—Yesterday afternoon at 5 o'clock at the pumping station of the municipal waterworks, there happened one of the most deplorable accidents in the history of the town, when Grady Mendenhall, whose home is two miles out from Thomsville, and a local negro, Owen Taylor by name, were killed. The men were at work on the tower for the water tank and were working on a platform supported at each end by temporarily horizontal wooden scantlings. One of the scantlings was splined in the middle, and this splint gave way dropping the platform and the men on it to the ground. The negro was hit by some of the falling timbers, it is thought. At any rate he died instantly. Mr. Mendenhall, was horribly broken up, suffering a fractured jaw in several places. His wonderful vitality kept him alive till 5:06 last night.

### NO FESTIVITIES FOR BIRTHDAY OF KAISER

Amsterdam. (By way of London) Jan. 11.—The Prussian ministry of state, according to news from Berlin to the Telegraph, has issued a notice that "in view of the serious times, the great public festivities, such as dinners and theatrical attractions, be postponed for the forthcoming birthday of the kaiser on January 27."

### FIRST SENIOR CONTEST STAGED AT Y. M. C. A.

The first of the contests to be held by teams in the senior class of the Y. M. C. A. was held last week with 28 members present. The contest was very interesting, several very exciting exhibitions being given by the members. The contest will be held each Friday night in the gymnasium of the association and it is thought that the same will be added to weekly, as the interest grows.

### JUMPS THROUGH WINDOW OF TRAIN AND ESCAPES

Robert Helt, in Custody of U. S. Marshal, Makes Escape at Pittsburgh.

Chicago, Jan. 11.—Robert Helt, who was being taken from Chicago to New York, charged with using the mails in an attempt to extort money, escaped at Pittsburgh by jumping through the window of the slowly moving train on which he was riding, according to information conveyed in a telegram from Federal Marshal Stach, who had Helt in custody.

The fugitive is charged with threatening to murder H. A. Guess, a construction engineer of New York in the employ of the Guggenheims, if Guess did not give him \$1700, which Helt claimed Guess owed him.

### TROUBLES OF THE DAY IN THE POLICE COURT

The following cases were called in Police court Saturday: Edward Mance, colored, was found not guilty of disorderly conduct. Prayer for judgment was continued in the cases against Ethel and Gus Young, on charges of a disorderly nature.

Mrs. Lucy E. Moorman was fined with the costs and the costs remitted on charges of violating the city ordinance in regard to keeping sick people.

Roy Blackwell was discharged on a promise that he would refrain from smoking cigarettes. One "drunk" was up.

### SUIT TO RECOVER BIG TIMBER TRACT

Pennsylvania Men Plaintiffs in Action to Secure Possession of 28,400 Acres of Land.

Honore B. Packer and Leonard Harrison of Pennsylvania have recently filed suit in the United States District court here for the recovery of 28,400 acres of timber land situated in Burke and McDowell counties. The action is brought against Mrs. Maria

S. Gibbs, A. J. Branch, N. O. Pitts, J. H. Giles and the Hutton & Burbonnais company. It is likewise asked in the complaint that the defendants be enjoined from carrying on further operations in the removal of timber from the boundary until the suit is settled.

The plaintiffs claim title to the lands through North Carolina grants to A. C. Avery, J. C. Tate, William and Robert Tate, E. W. Lyon, G. A. Follet, Richard Williams, S. L. Williams, Jonathan Perez, S. T. Pearson, James Hunter, J. R. Chapman and A. Lowery, the title being acquired through these at a later date.

The plaintiffs also ask damage for timber that has already been removed from the property. They are represented by Avery & Erwin of Morgantown and James H. Merrimon of Asheville.

### Why Have the People Used Over a Hundred Million Boxes?

The extraordinary merit of Laxative Bromo Quinine explains the reason why the people of all nations have used the enormous quantity of over One Hundred Million (100,000,000) Boxes of this famous remedy.

After reading the accompanying label from the box of Laxative Bromo Quinine, telling what it does and how it does it, you can understand why this remedy is used so effectively by so many millions of people. Whenever you feel a cold coming on think of the name Laxative Bromo Quinine.

—but remember there is Only One "Bromo Quinine" To Get The GENUINE, Call For The Full Name Laxative Bromo Quinine USED THE WORLD OVER TO CURE A COLD IN ONE DAY Look for this signature on the box. Price 25c. E. W. Grove
