

ANNUAL MEETING SANITARY ASS'N

Will Convene Here May 25-26
—Health Exhibits and Pa-
pers on Sanitation.

The third annual meeting of the Southeastern Sanitary association will assemble in Asheville May 25-26 and plans are being made for very complete health exhibits and for papers on many phases of sanitation by physicians who are recognized as authorities on the subjects that will be assigned to them. Asheville Aerio of Eagles have offered the use of the two halls on the first floor of their new home on Broadway and the exhibits will be shown in these rooms. Dr. Clarence E. Smith of Greenville, S. C., secretary-treasurer of the association, is in Asheville today making plans for the meeting with Dr. L. M. McCormick who is chairman of the executive committee and this afternoon these members of the association gave out a preliminary announcement of the program for the gathering here in May.

In one of the rooms of the Eagles' building the North Carolina state board of health exhibit will be shown. It will be arranged to show the progress that has been made in educating the public on matters of sanitation. In the other room will be found the exhibits from several states and from towns and cities in this state. Dr. C. E. Terry of Jacksonville will bring his city's exhibit and probably that of the state of Florida. Dr. J. A. Hayne of Columbia will have charge of the South Carolina exhibit. In addition to these exhibits are expected from Atlanta, Savannah, Winston-Salem, and Richmond.

All these exhibits will furnish interesting information on the sanitary measures in use in the various cities represented and the progress that has been made in the science of sanitation in recent years. Definite assignment of subjects for the papers has not been made in every case as yet; but it is stated the following physicians will read papers before the association: Dr. Hayne and Dr. Cowan of Columbia; Dr. Davis Furman of Greenville; Dr. C. E. Terry of Jacksonville; Dr. E. C. Levy of Richmond; Dr. E. A. Hines of Seneca; Dr. W. L. Eggleston of Hartsville, S. C.; Dr. W. S. Rankin of the North Carolina state board of health and Dr. Ernest Kelly, of the dairy division of the United States department of agriculture.

Dr. Smith stated that Dr. Hines of Seneca was the pioneer in the south in medical inspection for school children, and that Dr. Eggleston is an authority on sanitation in small towns, and these doctors will probably select subjects connected with their specialties.

Asheville Men on Program.
A number of Asheville men will be on the program for papers, Frank S. Smith will probably take as his subject sanitation as applied to soda fountains; Dr. F. L. Hunt will present the subject of dental and oral hygiene, and it is probable that there will be further discussion of this subject by Dr. Hunt and Dr. J. A. Sinclair. It is probable that some Asheville physician will be asked to discuss some phase of sanitation and to tuberculosis.

The health exhibits will be open to the public and on May 24 and will be kept open all of the week beginning on that date. The meeting of the association here promises to be of great interest not only to the physicians but to laymen.

NOTED FRENCH AVIATOR CAPTURED BY GERMANS

Berlin, April 20.—The Berlin official report just issued, says that Lieut. Roland G. Garros, the famous French aviator, has been captured by the Germans at Ingelmunster.

After Winter's Wear and Tear

one requires a food in
Springtime that builds up
both brain and body.

Grape-Nuts FOOD

made of wheat and malted
barley—supplies in
splendid balance, the elements
necessary for up-
building and keeping in
repair the brain, nerve
and muscle tissue.

Grape-Nuts has a rich
nut-like flavour—always
fresh, crisp, sweet and
ready to eat direct from
package.

Thousands have found
Grape-Nuts a wonderful
invigorator of both brain
and body—

DENIED THAT M'COMBS RESIGNED AS SECRETARY

Secretary Tumulty Denies Mc-
Combs Resigned and That
He Was Appointed.

Washington, April 20.—The published report that William F. McCombs had resigned as chairman of the democratic national committee drew the following statement from Secretary Tumulty at the white house yesterday.

"The story in the morning papers that Mr. McCombs has resigned and of my selection to succeed him as chairman of the democratic committee is out of the whole cloth; and is merely the gossip of persons whose purpose is to make trouble and create discord in the ranks of the party."

Another report was that H. S. Cummings, vice chairman of the national committee might succeed Mr. McCombs in case he resigned.

ASHEVILLE TO ASK FOR ROYAL ARCANUM MEET

Through representatives from this city who will attend the annual Royal Arcanum, which will be held at Rocky Mount on Wednesday and Thursday of this week, the local councils will make a fight for the 1916 meeting of the grand council in this city.

John Machin, grand guide; G. L. Guischard, grand representative and Captain Thomas Branch, chairman of mileage and per diem of this city, will leave tomorrow morning for Rocky Mount to represent the local councils at the meeting and they will carry with them invitations from the local councils, asking for the next annual meeting of the grand council.

Also from this section of the state will go Dr. J. Howell Way of Waynesville, supreme representative and Dr. E. L. Allen grand vice regent. Representatives from Haywood council at Waynesville and Pisgah council at Canton will also attend the grand council meet.

Captain Branch has missed but two sessions of the grand council since it was organized in this state about 20 years ago and Dr. Way of Waynesville has not missed any, while Mr. Machin has attended each session for the past 15 years and Mr. Guischard has attended for eight years.

The grand council is attended by about 125 representatives who gather from sections of the state and the surrounding states for the annual meeting of the grand council in this city.

ST. GENEVIEVE'S COLLEGE.

The most enjoyable event at St. Genevieve's college last week was the straw ride and picnic of Saturday the entire outing being planned as a surprise by the first academy girls to the graduating class. Only members of the two classes together with a few especially selected teachers were a part of this gay adventure, which led them along the Swannanoa river for some miles and ended with the delicious lunch.

Friday afternoon the college girls will entertain for the fourth academy, with a bridge luncheon at the Woman's exchange.

Monday, April 26, the Hillside Literary society will hold its April meeting in the school auditorium.

Miss Stockell, who for the past month has been giving lectures on "Diction," left today for Boston, where she will give the same course of instruction in a select girls' school there.

Perhaps the most interesting event in the near future at St. Genevieve's centers on the arrival of Mrs. Jeannette Jewell Kellogg, who arrives on the coming Thursday. Mrs. Kellogg is, as the Montpelier, Vt., Morning Journal states "one of the most gifted Lyceum platform readers of the present day." She has given elocutionary selections for a great many years, with rare success, having spoken at Y. M. C. A. meetings, and school principally. Of her ability the secretary of the Y. M. C. A. at Decatur, Ala., says:

"It is seldom we have the same pleasure in recommending a person that we have in the case of Jeannette Jewell Kellogg who gave her inimitable programs for us recently. Two large audiences were entirely satisfied. Needless to say more as the audience is the court of last resort."

The selections to be given by Mrs. Kellogg Thursday afternoon at 8 o'clock are among the best in her repertoire, and includes: 1. Keeping up with Lizzie... 2. Charlot Race from Ben Hur... 3. When Love and Duty Meet... 4. Poems... 5. Cuttings From Adventurers of Tom Sawyer... 6. Seeing Things at Night.—Eugene Field.

The Field day exercises for this year promise to be the most varied ever given. The teachers are training the small children for the running and jumping contests, while the larger girls spend most of their time on the tennis courts. Twelve couples have been scheduled to play in the tournaments, the two best individuals playing the finals on Field day, which is May 1. Three sets have been already played, those taking part being: Margaret Manley against Gretchen Guarrá, Adelaida Morrison against Dorothy Ambler, Frances Ariz against Onie Phasal. Those winning were Miss Manley, Miss Morrison and Miss Ariz.

"CLEAN-UP" CAMPAIGN IS IN PROGRESS TODAY

Wagons From Sanitary De-
partment Making Rounds,
Removing Trash.

Early this morning the trucks of the sanitary department began their calls throughout the eastern section of the city, removing the boxes, barrels and other receptacles that could be seen yesterday waiting on the street curbing for the dawn of the first day of Asheville's annual "clean-up" campaign. On Thursday morning the work of removing the trash in the western part of the city will be begun.

"The preparation for the work to begin today has been very thorough. Through the efforts of the civic league, the board of trade, and the Boy Scouts, in co-operation with the city authorities, more interest in the campaign than usual even in a town priding itself on cleanliness has been aroused. In many parts of the city painters may be seen co-operating with householders in the work of beautifying the premises, and the prospects are that by the end of the week Asheville will be clean as well as beautiful.

PRINCESS TROUBETSKOY SEES SPIRIT OF HUMAN KINDLI- NESS BORN IN WAR TIMES.

New York, April 20.—"We are just beginning to feel our responsibilities to others," asserts the Princess Pierre Troubetzkoy, better known perhaps as Amelie Rivers, authoress, in explaining her belief that the war has resulted in the birth of a new spirit of human kindness throughout the world.

"The American woman's activities are the manifestation of this new spirit which is abroad in the world," she continued. Women are interesting themselves in legislation in bettering conditions of other women, in bettering conditions of other children than their own. This activity started in this country before the war, but it is spreading rapidly in Europe since the conflict began."

HERMAN SCHAFFER, known better known as "Germany" known all over the American league circuit as the comedian coacher and the funniest man in baseball, who has been dropped from the payroll of the Washington club. The rule to reduce the number of players has undoubtedly hurried the release of the veteran, who was one of the infield stars of the Detroit team, when Huchey Jennings whipped that team into a pennant winning aggregation.

GRANDMA NEVER LET HER HAIR GET GRAY

Kept Her Locks Dark, Thick,
Glossy, With Sage Tea,
And Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wayth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wayth's Sage and Sulphur and look years younger.

HOROSCOPE.

Tuesday, April 20, 1915.

"The stars incline, but do not compel."

(Copyright, 1915, by the McClure Newspaper Syndicate.)

According to astrology this is not an important day. Early in the morning Mars is adverse, but the rule of the stars is not particularly significant. Owing to world condition, believed by those who delve into occult laws to be exceedingly disturbing to persons of every nation, the most conservative policies should guide the inhabitants of the United States.

While the planetary government today is held to cause irritability and unrest, which affect domestic as well as business conditions, positive, unswerving systems of action will do much to overcome unsatisfactory influences. This should be a day for extreme watchfulness on the part of surgeons, soldiers, engineers and all who pursue occupations attended by danger to themselves or those whom they serve. There is a high road as warning against perils that will come through air and water. It is predicted that the seas and borders of our land will be defended by men who bear arms. Mexico is still subject to a sway that is threatening and indicative of turmoil and revolution.

The need of frugality and economy is emphasized. Waste of any sort will bring ill luck and disappointment; it is declared by the seers who prophesy a period of such stress in Europe that every one must join in helpfulness.

The Moon today is in a place that should be beneficial for all born between June 21 and July 22. The summer will be a period of much illness among persons of prominence, it is predicted. The death of a financier is foreshadowed.

Persons whose birthdate it is have an ominous sign for travel or change. A year of anxiety is probable. Children born on this day may be self-willed and obstinate, but they are likely to combine the traits of Aries and Taurus subjects. They have great possibilities.

SAYS VILLA MOVEMENT COLLAPSING ON W. COAST

On Board U. S. S. Colorado, Mazatlan, April 17, by wireless to San Diego, April 20.—The Villa movement on the west coast of Mexico is said to be rapidly collapsing. Guaymas is the only point on the main land now in command of Villa, and it is believed that Lower California towns will be unable to resist attack.

The Yaqui Indians are now conducting independent warfare and are giving trouble to both Villa and Carranza forces.

TO THE SCHOOL CHILD- REN OF WESTERN NORTH CAROLINA:

Not Over 21 Years of Age.
**The Wachovia Bank & Trust
Company, Asheville, N. C.**
Offers Prizes for Correct Solutions to
the Following Problems:

PROBLEM 1—What sum earning 4 per cent per annum, compounded quarterly, must be deposited with Wachovia Bank & Trust Company at your birth and each year thereafter to amount to \$20,000.00 when you arrive at the age of 71?

PROBLEM 2—If you save \$100.00 a year and improve it at 4 per cent per annum, compounded quarterly, how much would you have at the end of 21 years?

PROBLEM 3—What must be paid for a bond maturing in 10 years with 4 per cent interest, payable semi-annually, to pay the purchaser 5 per cent?

For the first correct solution received to all of the three problems, \$5.00; and for those received thereafter, \$2.50. For a correct solution to any one of the problems, \$0.50.

Work must be done by contestant with aid only of text books. Contest closes May 31st, 1915. (Any answers received, postmarked after May 31st, 1915, will not be considered.) Advt.

Free During Our Big Range Exhibit

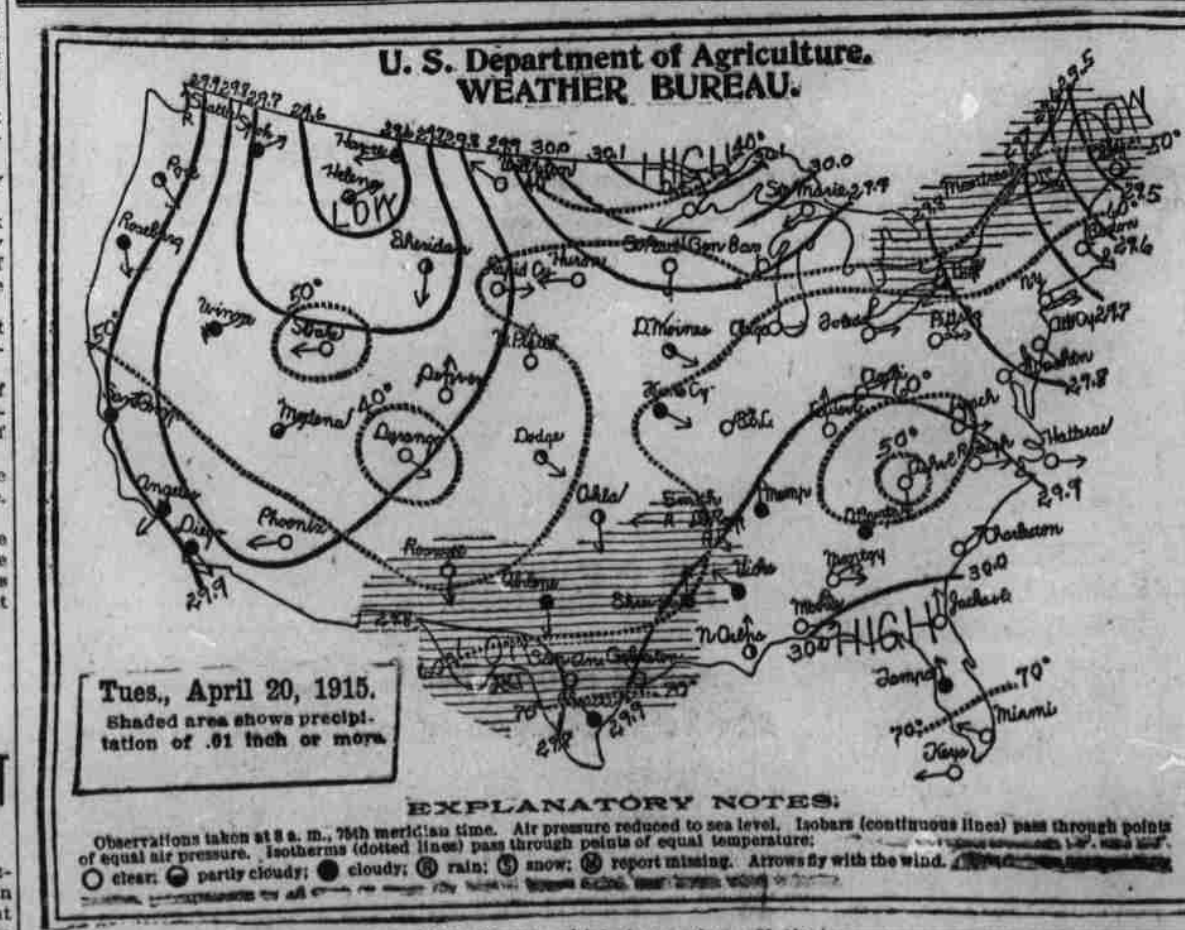

This Set of High Grade Pure Aluminum Cooking Ware

How to Get the Ware Free

Come to the exhibit of The South Bend Malleable April 21, 22 and 23rd. An expert demonstrator will show you the range; tell you all about the way it is made, and why it is such a good baker and consumes so little fuel. He will also show you the Patented Aluminum-Fused, Rust-Proof Flues. No other range made has flues of this kind of metal. We know it is the best range made, and you will find out for yourself that this is true.

If you buy one of these ranges during the exhibit we will make you a present of a complete set of High Grade Pure Aluminum Cooking Ware, worth \$12.00. This offer is good for the week of the exhibit only, and you cannot afford to miss it. Be sure and come early. You will see and hear many useful things. Remember the date, APRIL 21st, 22nd and 23rd.
