

UGH! CALOMEL IS HORRIBLE! IT SHOCKS YOUR LIVER, IF BILIOUS

Calomel Sickens! Don't Lose a Day's Work! Clean Your Liver and Bowels With "Dodson's Liver Tone."

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a

spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Grave Decision By Italian Government Expected Soon

Rome, via Paris, April 28.—Italian ambassadors at Paris, London, Vienna and Berlin have been summoned to Rome for a conference with Foreign Minister Sonnino. In Rome this is regarded as preliminary to the announcement of a grave and important decision by the Italian government.

Signor Tittoni, the ambassador to France, reached Rome yesterday. He had left the city only two weeks ago for Paris. The Marchese Carloti, ambassador to Russia, will not come back here because of the distance and the difficulties of travel, but a message has been sent to him with instructions.

Austro-German Casualties Two Days 20,000, Report

Geneva, April 28.—The Russians have begun another strong offensive at Uzok pass in the Carpathians, according to the Tribune. The dispatch says that the Austro-German casualties in that region in two days of fighting numbered 20,000. The melting snow has hindered the Russian advance between Stry and Matarnaros.

PRESIDENT QUESTIONED ABOUT JAPAN'S DEMANDS

Knows of no Further Developments in the Negotiations, He Says.

Peking, April 28.—President Yuan Shi Kai and his counselor had a conference yesterday concerning Japanese demands. Nothing has been given out concerning their decision. The Chinese reply to the latest Japanese communication will be given within a week. The Chinese do not wish to give Japan further excuse for charging procrastination. There are no indications that Japan has withdrawn from the attitude she has already made known.

Washington, April 27.—President Wilson said today that he knew of no further developments in the Japan-China negotiations. That Japan was pressing hard for the acceptance of her demands, the president pointed out, had been indicated ever since the negotiations began. He did not know what the latest aspects, as reported in Peking news dispatches, might turn out to signify.

President Wilson said that no reply would be made to the cablegram from American missionaries in China concerning the Japanese demands. The communication, he said, had been for the information of the American government and apparently did not call for a reply.

ENGLAND PROHIBITS THE EXPORTATION OF COTTON

Certain Exceptions Are Made—Russian Ports on Baltic Are Included.

London, April 28.—The export of raw cotton from the United Kingdom has been specifically prohibited in a special supplement of the official Gazette. The prohibition covers all the foreign ports of Europe on the Mediterranean and Black seas except those of France, Russia, Spain and Portugal. The Russian ports on the Baltic are included in the prohibition. The demand by the British public for a specific prohibition against the export of cotton has been insistent, but the government heretofore has contended that the exportation was prevented by the general blockade against Germany.

A Physician's Opinion

A physician who uses Grape-Nuts in his family was recently asked his opinion of this food. He said—

"It is a concentrated, palatable, nourishing and healthful food. Sweetened slightly and moistened with good rich cream, Grape-Nuts makes a very toothsome dish."

There's a reason for these excellent qualities in Grape-Nuts. This food is made of whole wheat and barley, thoroughly baked and processed to render it easily and quickly digestible—generally in about one hour.

Grape-Nuts contains all the rich nutriment of the grains, including the phosphorus, iron, sulphur, and other mineral elements so necessary for proper nourishment of body and nerve cells. It's a healthful food, and economical also.

"There's a Reason" for Grape-Nuts

KNAPP SPEAKS ON AGRICULTURE

Says South's Largest Problem Is Market for Local Produce and Loans to the Farmers.

Muskogee, Okla., April 28.—Self-supporting agriculture is the largest problem offered to the south for solution, according to Dr. Bradford Knapp, head of the farmers' co-operative demonstration division of the department of agriculture of the United States, who spoke before the Southern Commercial congress yesterday.

"To solve it a cash market for locally grown produce should be established," Dr. Knapp said, "and loans should be made upon condition that the farmer make his farm as nearly self-supporting as possible."

Dr. Knapp pointed out that it is the duty of the city to make constructive contributions to the country surrounding them. "The country is the important thing," he continued, "and the city should lend a hand to help the country to prosper, and thus the city helps itself to prosperity."

The speaker pleaded against the one-crop practice and pointed out that millions of dollars worth of fruits, vegetables, livestock, hay and grain are imported annually in the south which could be raised as cheaply there as elsewhere.

To Col. Robert M. Mixson, a planter of South Carolina, a farmer is "generally like an ostrich which sticks its head in the sand and won't see." He asserted that the farmer of today refused to use business judgment and supply that for which there is a demand in such quantities as is needed. Col. Mixson urged the perfection by government or state agencies of agriculture in the southern cotton states by the establishment of the warehouse system modeled after that in South Carolina under which the farmer can store his crop and obtain certificates of storage on which he can secure loans.

SPEAKERS CRITICISE ONE-CROP PRACTICE

Col. Mixson Urges Development of Warehouse System for Lending Money on the Crops.

Muskogee, Okla., April 28.—Self-supporting agriculture is the largest problem offered to the south for solution, according to Dr. Bradford Knapp, head of the farmers' co-operative demonstration division of the department of agriculture of the United States, who spoke before the Southern Commercial congress yesterday.

"To solve it a cash market for locally grown produce should be established," Dr. Knapp said, "and loans should be made upon condition that the farmer make his farm as nearly self-supporting as possible."

Dr. Knapp pointed out that it is the duty of the city to make constructive contributions to the country surrounding them. "The country is the important thing," he continued, "and the city should lend a hand to help the country to prosper, and thus the city helps itself to prosperity."

COTTON MEN WILL GIVE PRIZES AT MEET HERE

Prizes by Southern Textile Ass'n. for Garments Made of Southern Cotton.

A recent issue of The Mills News, published at Charlotte has the interesting account of the prizes story regarding the meeting in this city in June of the Southern Textile association:

"Members of the Southern Textile association are taking hold of the plan to show off Southern cotton suitings and dress goods at their convention in Asheville in June. The G. J. Peacock Clothing Co., of Columbus, Ga., reports having tailored a number of suits for the mill men, and J. O. Jones Co., of Greenville, S. C., are fitting out some of the mill men of that vicinity. G. S. Escott of the Mill News has received from the Columbus firm a handsome spring suit of pin stripe made from Eagle & Phenix suiting which was the gift of Supt. H. O. Davidson of the Eagle & Phenix Mills. Alonzo Her, chairman of the convention arrangements committee has had two suits made of southern cotton, and he finds many members of the association getting suits ready with which to compete for a prize at Asheville.

"There will be given away, as prizes on garments made of Southern cotton goods, worn by male members:

Prizes for Men.
 \$5.00 for the best suit.
 1.00 for the best hat.
 3.00 for the best shoes.
 .50 for the best socks.
 .50 for the best necktie.
 .50 for the best shirt.
 .50 for the best collar.

\$10.00 Total.
 "There indeed would such an affair be without the airy creations of organdy and lace which the ladies will wear.

"In contesting for the following prizes, the kinds and colors of goods are unrestricted. The only requirement is that they shall be made of goods made in southern cotton mills.

Prizes for Ladies.
 \$5.00 for the prettiest coat suit.
 \$5.00 for the prettiest evening dress.
 \$5.00 for the prettiest North Carolina-made singham dress.
 \$1.00 for the best hat.
 1.00 for the best shoes.
 \$1.00 for the best dress trimmings.

Prizes for Exhibits.
 Besides the prizes to wearers of cotton goods, there will be prizes to cotton mills as follows:
 \$5.00 for best exhibit of southern-made damask.
 \$5.00 for best 66-cent work shirt made of southern shirtings using

Quality—The Keystone of the Chalmers Arch

It is the painstaking care given to every one of the thousand minute details connected with the Chalmers product and Chalmers construction that has made the Chalmers car pre-eminently the quality car of its class.

Time and science have tested every stone in the Chalmers arch and have proven them granite strong.

The Chalmers is not a great car just because it has a wonderful engine, or superior transmission or an exceptional beauty of design.

It is a great car because all of these things work together in an harmonious and sturdy whole.

That's why Quality is the key-stone of Chalmers' success.

An aristocrat in motordom is the Chalmers—not to be measured by dollars and cents—but rather by inward worth and outward grace.

It is a difficult matter to make these things apparent in cold type.

The car itself must be seen and carefully examined for one to appreciate just what this quality claim means.

Come in and see it today.

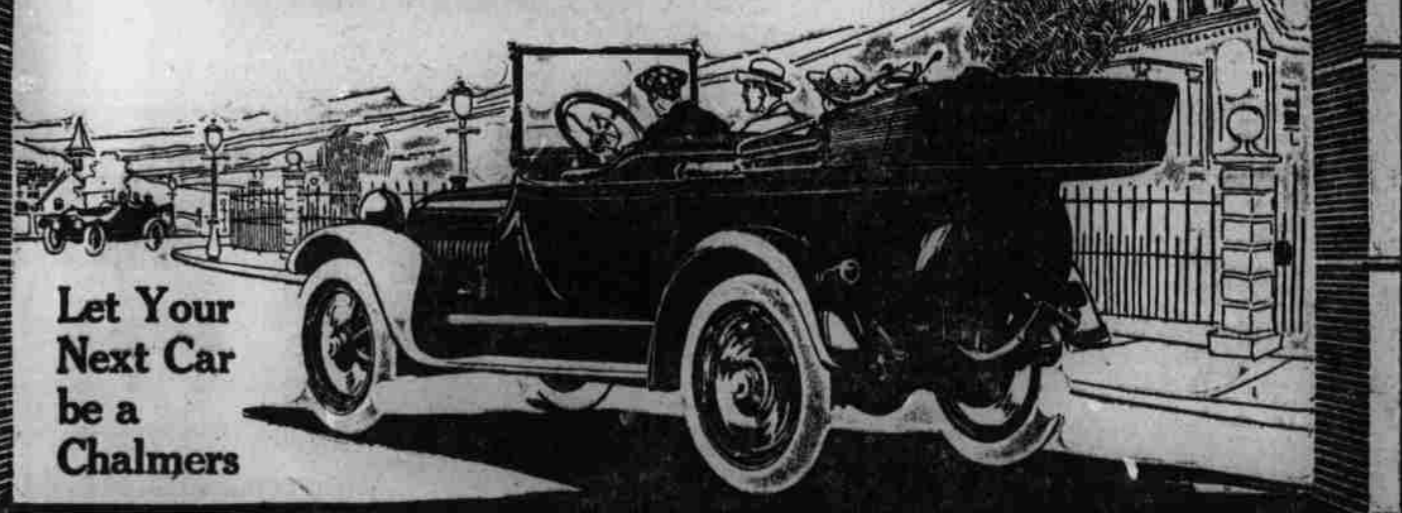

And then compare—compare—compare.

We shall have no fear as to what the result will be if the comparison is thorough and unprejudiced.

See the three great "Sixes"—the new Six-40 at \$1400—the light Six-48 at \$1650—and the Master Six-54 at \$2400.

Asheville Automobile Co.

Let Your Next Car be a Chalmers

Yarns coarser than 20's.

Mills are invited to add to the list, prizes for any line of goods they make or which they wish to popularize. If such prizes are for garments they must be offered without delay so as to give the members and the ladies time to have them made, and it would facilitate the making of the suits and dresses if the mill will tell what to call for in the stores.

General Conditions.
 "To compete for these prizes a man must be a member of the Southern Textile association, and a lady to compete must accompany some member and be a registered guest of the association at the convention.

"The goods used may be bought of a southern cotton mill or of a store, and the name of the mill known and stated when entering the contest.

"The judges will be selected from distinguished gentlemen in Asheville, outside the industry, to pass upon the men's garments, and from distinguished ladies of Asheville to pass upon the ladies' garments.

"Secretary A. B. Carter has learned in his travels throughout the country, that there will be a record attendance at Asheville June 25-26."

MUNICIPAL TICKET IS CHOSEN AT BILTMORE

The municipal nominating convention of Biltmore met Monday to select candidates to be voted on at the regular election May 4, and the following were chosen: for mayor, Julian F. Kitchin; for members of the board of aldermen, Almond Jones, Dr. L. W. Elias, James C. Lips, Captain J. P. Gillard and Rev. Dr. R. R. Swope.

The ticket selected shows an increase of two names in the number of the board. Dr. Elias is a member of the present board and Mr. Jones is serving out the unexpired term of E. W. Dodd, who is no longer a resident of Biltmore.

The convention Monday was non-partisan and members of the various political parties in the city took part in the deliberations.

Proven, practical value appeals to the buyer of a motor car. More than 700,000 satisfied Ford owners prove the practical qualities of Ford cars. In town or country, in the professions or on the farms, for business or pleasure, the Ford serves everybody. An average allowance of two cents a mile keeps it going. It's cheaper than walking.

Buyers will share in profits if we sell at retail 300,000 new Ford cars between August 1914 and August 1915.

Runabout \$440; Touring Car \$490; Town Car \$690; Coupelet \$750; Sedan \$975, f. o. b. Detroit with all equipment.
