

Come Let Us Reason Together

The warm summer days are here, the real first time of the year. Cool, refreshing drinks are not only a pleasure but have become a necessity.

IS IT NOT SO?

In addition to normal physiological waste the push of our modern business and social life makes one rush to "keep up with the procession" and, especially at times of excessive heat, results in physical, mental and nervous waste that demands something more than water to relieve fatigue and restore worn vitality.

TRUE ALSO!

For sound, economic, business, social and patriotic reasons, quality being equal or superior, a home product has first call on the support of a community.

FAIR, ISN'T IT?

To meet the emergencies of our life, times and the season the Ideal Drink must be refreshing, healthfully invigorating, pure and clean with no harmful qualities and enough vim to keep one up to the mark.

SOUNDS REASONABLE!

THE IDEAL DRINK—THE ONE PRODUCT WHICH ACCURATELY FULFILLS ALL THE ABOVE CONDITIONS IS PEPSI-COLA.

It is refreshing, cooling, invigorating, healthful, harmless, pure, clean—Good for all the family.

It is a North Carolina product; made at Newbern by a corporation that pays taxes and spends its money in North Carolina.

It is bottled and distributed in Asheville by well known and responsible citizens who live, pay taxes and spend their money in Asheville.

THEREFORE: In the name of reason, uniting Health and Pleasure and also talking—or as Bill Nye used to say, "tudin' at"—Patriotism, Fair Play and The Square Deal why not be a good sport and come across!

DRINK PEPSI-COLA

On Ice in Bottles and at Fountains.

ASK FOR IT—DEMAND IT—INSIST UPON HAVING IT.

DECLARES PROHIBITION IS NOT PROHIBITING

Head of Whiskey Association Thinks It Merely Changes Whiskey Channels.

Cincinnati, June 9.—The solution of what is commonly called the liquor question depends on what such problem is considered to be, Samuel Woolner, jr., of Peoria, Ill., president of the National Wholesale Liquor Dealers association, said at the opening of the meeting of the organization yesterday. He outlined opposing claims of the prohibitionists and liquor men and in closing made a plea for local control of the sale of whiskey.

Mr. Woolner read a report of the commissioner of internal revenue in which it was said that illicit distilling had gained slightly during the past fiscal year over the year before and he declared this showed that prohibition does not prohibit but merely changes the channels of traffic from legitimate to illegitimate agencies.

SPANISH-AMERICAN WAR VETERANS WILL MEET

The Spanish-American War Veterans of Asheville will hold a meeting this evening in their hall in the central fire station. Further consideration will be given to the question of the suggested appointment by President Wilson of William E. Harvey as a brigadier general of the Spanish war veterans, against which the camp here as well as others all over the United States have protested. A large attendance is expected.

UGH! CALOMEL IS HORRIBLE! IT SHOCKS YOUR LIVER, IF BILIOUS

Calomel Sickness! Don't Lose a Day's Work! Clean Your Liver and Bowels With "Dodson's Liver Tonic."

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if, in fact, you have a bad stomach, just try a spoonful of harmless Dodson's Liver Tonic tonight. Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go to the store and get your money back. Dodson's Liver Tonic is a safe sale of calomel because it is real liver medicine; entirely vegetable therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

LAD NOW HAS SKIN FROM THIGH ON FOOT

St. Louis, June 8.—Five square inches of skin was removed from the left thigh and grafted to the left foot of Kenneth Davis, 13, at the City hospital. The boy fell beneath a freight car more than a month ago and the foot was so badly crushed that it was amputated at the heel, leaving only a small part of the instep. When new skin failed to form, the boy was told that he would have to submit to skin graftings or it would be necessary to amputate the foot at the ankle. He was given an anesthetic and the skin, in five pieces an inch square, was transplanted.

PRESS COMMENT

Easy Reading.

Under the above heading the Asheville Gazette-News carries a thoughtful editorial on the subject of journalism, in the course of which the State Journal is referred to in such complimentary terms that we quote it in full with our grateful acknowledgements: Some publications are easy to read—both in matter and make-up plays in contributing to ease of reading. We all know there are certain journals and newspapers—fewer than there should be—that we pursue with a marked degree of satisfaction. If we seek causes we conclude that these publications are happy in their literary style. The language is concise, unlabored, and pointed. But if we go further we find that much of the satisfaction, both mental and physical, comes from the mechanical way in which the matter is presented. The State Journal is one publication we have in mind in saying this.

The concise presentation of reading matter is not so rare. Excellence in mechanical presentation is so rare as to the fear that it may be a gift.

In reading such publications as the State Journal we feel secure in the knowledge that we will not overlook something we ought to see. How many times are we made to have an uneasy feeling that it is only by accident that we see an article—tucked away somewhere—that we would not have missed seeing! We turn through The State Journal and certain things catch the eye; but we can finish our glance through the paper, knowing that we can easily find those things again; that it is not necessary to stop and read them, on the wing, as it were.

It is cheering and inspiring for our humble efforts to be recognized by one whose high position as a journalist is already assured. It is our ambition to make The State Journal not only thoroughly useful, but entertaining and pleasant to read as well. It is no easy task. It is still far from what we hope to make it, but such generous praise as the above makes us hope and believe that our effort is worth while.—The State Journal.
