GREENSBORO FINDS SOURCES OF TYPHOID

Greensboro, July 23.—Although the typhoid epidemic in the city has not been productive of a great number of cases, the infection has been extraordinarily virulent one and the number of deaths to the number of cases has been high. There have been 33 cases reported and up to date seven deaths have resulted. Some of the other cases are very serious ones and fears are entertained as to outcome of some of them. Only two sources of the typhoid germ have been found so far. One was a well used by a dairy for washing the vessels of the dairy and the other was a spring in the suburbs. So far as is known none of the cases of typhoid came from the spring, but more than half of the cases are directly attributable to the dairy that used the infected well. It is probable that all other cases were due indirectly to the well.

CREAMERY PROJECTED FOR FOREST CITY

Special to The Gazette-News. Forest City, July 23.—Forest City's next industrial plant will in all probability be a creamery. Realizing the opportunity of such an enterprise, Prof. B. H. Bridges, ex-superintendent of public instruction of the county, has launched the movement and states that the subscription already attained practically assures the creamery.

The Morganton Methodist district conference, which has been in session at Gilky, has come to a close after a most successful session. The delegates report one of the most profitable conferences since the organization. Dr. Parker of Trinity college, Dr. Turrittine, president of the Women's college, were among those who delivered scheduled sermons. Several young men were licensed to preach during the conference. The next conference will be held at Dyoartsville.

ROTARIANS WILL VISIT RALEIGH AUGUST 10

Asheville to Send Delegation—Elaborate Program Is Being Arranged.

Raleigh, July 23.—Over two hundred Rotarians from Richmond, Norfolk, Asheville and Wilmington will be the guests of the Raleigh Rotary club on August 10. Yesterday, the membership committee of the Raleigh club mapped out tentatively the general features of the entertainment to be accorded the visitors. While the schedule of hours and like details have not been arranged, enough has been done by the committee to assure the guests that it will be a day of events.

With breakfast at the Yarrowborough hotel the day will begin. A get-together meeting in the hall of the house of representatives, an automobile ride, and a big barbecue will fill up the morning hours and extend over into the afternoon. A baseball game here between Raleigh and Durham will furnish amusement for the lovers of the sport and at the same time there will be golf on the Country club links for those who may desire it. A band will render music for the clubs during the whole day.

The total membership of the four clubs which will be the guests of Raleigh is 346 and the entertainment committee yesterday had received reports indicating that practically two-thirds of these will be in Raleigh on August 10.

The Wilmington delegation will arrive at 12:30 on the morning of August 10 and instead of remaining on the special Pullman will be at the Yarrowborough hotel for the rest of the night.

The Asheville Rotarians will arrive at 4:30 a. m. by way of the Southern. The Richmond party will come in at 5:25 by the Seaboard.

Thus far the Norfolk Rotary club has not announced its hour of arrival. With the Raleigh club numbering sixty-two at the present and with more than two hundred visitors coming in, it will be a day such as Raleigh does not often see, this gathering together the progressive business men of five cities and two states.

There is no better

Hutchinson, Kas., July 22.—To those who care and to those who seek for PURITY, for nutrition, for beauty in the flour they use, we say to you—You have not known until you have used LARABEE'S-BEST in your own home. It may be a revelation.

Try it and see. If it were possible to take you through the plant, and talk to you face to face of our sanitary mill, show you the wonderful process of milling LARABEE'S BEST—how the choice wheat is selected, fanned and cleaned, and show you how it is aerated, and sifted through white spun silk cloth, and reveal to you the wonderful way, from years of experience, thought and toil, we have come to know best how to separate the coarser flour and bring from the hopper the sweetest, purest and whitest flour contained in the berry,—you could then realize what we mean, and what we are doing, and we then beg you to have your next order to your grocer worded "for LARABEE'S-BEST. Try it. Be yourself the judge and the jury.
