JAPAN'S RULER IS CONFIRMED

(Continued From Page One)

The emperor in establishing new colonialization bureau following the example of the army in the United States.

The army issued a manifesto saying: "We opened two 'slum ports' in Tokio with the money granted by their majesties, and have also decided to start an ex-prisoners' home in Osaka."

"The work of the slum port is to have some well-tried army officer live right in the midst of the slum district visit the people from house to house daily, attend the sick, feed the hungry, clothe those who are in need, and work for those out of employment, write letters, etc., on behalf of those who can neither read nor write; and above everything, endeavor to lead them to the saving knowledge of Jesus Christ."

"This class of work is well known in western countries, but it is the first of its kind in Japan, and we are full of hope for its success."

Commemoration of the coronation is found in many other directions. The government issued a special series of postage stamps and picture postal cards and presented special coronation medals to all participating in the various ceremonies.

Naval Observance

A particularly impressive coronation celebration was that at the port of Kobe where the warships of the first and second squadrons which had been carrying out special naval manoeuvres joined with other units and formed a long line of war craft extending several miles from the port of Kobe to the mouth of Osaka bay.

Officials and clerks in the service of the government contributed one and one-half per cent of their salary to present suitable gifts to the emperor and empress. The army gave a miniature field piece and the navy a miniature ship.

Congratulatory lanterns were hung at every house in the empire. Thousands of betrothed have hastened their marriage so that it may occur during the auspicious year of the coronation and be sanctified by prosperity, health and joy.

Prior to the commencement of today's ceremony an imperial messenger was dispatched here from the imperial headquarters in Kioto to announce the celebration of the coronation ceremony before the Kofu-den, a shrine dedicated to the souls of the imperial predecessors, and the Shintzen, another shrine dedicated to the

souls of the imperial ancestors in the prehistoric deity period. The ceremony before the shrines, which are located in the imperial place, was conducted in a solemn manner according to Shinto ritual by court officials. Imperial messengers were also dispatched from Kioto on similar missions to the great shrine at Ise and to the principal Shinto shrines throughout the country, where similar ceremonies were performed this morning.

The imperial messengers to the prefectural shrines (there is a shrine in each province) were represented by prefectural governors.

The day was signalized by informal meetings and reunions given by public or private corporations in honor of the occasion.

Kioto, Japan, Nov. 10.—Most of the diplomats and special envoys who have arrived here to attend the coronation ceremonies are quartered at the Kioto hotel, which has been refurnished from cellar to roof. Every article of furniture has been manufactured under the direction of the imperial household, constituting one of the items in the \$6,000,000 budget provided to pay the expenses of the coronation.

Press representatives were entertained yesterday at hotel by Mayor Inouye at a historic Japanese dinner. Ancient dances presented by Geisha girls took the guests back 1000 years in the history of Japan.

Mayor Inouye paid tribute to the important role the press had played in promoting the progress of Japan and like the mayors of American cities took advantage of the occasion to point out the attractions of Kioto and the great industrial advances the city had made.

Many of the Americans in the city attended the celebration of the fortieth anniversary of the Doshisha Christian college which is supported largely by the subscriptions of Americans and which was founded by Joseph Neesima, who ran away from Kioto and settled in Boston in 1853. All the members of the cabinet are here and when not engaged in hearing for the coronation are considering the Chinese question. They are said to believe that President Yuan Shi Kai is disposed to postpone his enthronement as emperor for a time, even if he finds it "impossible" to check the monarchical movement.

The impression that prevails in Japan in regard to the policy of the Chinese president is that it is hostile to Japanese influence.

The United States cruiser Saratoga, the flagship of the Asiatic fleet, arrived at Kobe today and gave the salute. After official visits had been exchanged, Rear Admiral Albert J. Winterhalter, Commander Jay Sypher, his chief of staff, Commander Stanford E. Moses of the monitor Monterey and Captain Frederick J. Horne, naval attaché of the American embassy, came to Kioto and called on American Ambassador George Guthrie.

American officials and civilians predominate among the guests at the Kioto hotel at which there have been several luncheons and dinners. The Americans and other guests are greatly impressed with the perfection of arrangements for their comfort. The decorations of the hotel were undertaken without regard to cost. Each suite is decorated magnificently with Japanese screens richly embroidered in silk.

Emperor Yoshihito in commemoration of the coronation bestowed decorations on the ambassadors and ministers to Japan with the exception of the American and Swiss representatives who are presented by the laws of their countries from accepting such honors.

The emperor presented Mrs. Guthrie, wife of the American ambassador, a golden lacquer box. Gifts for the emperor are being received in great number.

The trial of the Gilbert-Hopkins case yesterday afternoon was postponed until March 7, 1916. This action was taken by Judge Boyd on account of the illness of Mrs. W. R. Hopkins, wife of the chief defendant in the suit.

In anticipation of a long hearing on this noted land suit all other cases had been continued and the ending of this action left the court without further business to transact. Court was convened for a few minutes this morning and then adjourned until Tuesday, January 11. Judge Boyd named J. S. Adams, A. S. Barnard and J. C. Martin a committee to prepare a calendar of civil cases for the January term.

Judge Boyd and his secretary, Lecher Blalock, will leave this afternoon for their homes in Greensboro.

American Passengers Reported to Have Been On Torpedoed Ancona

calling for diplomatic exchanges, the first steps will probably be to secure through Ambassador Penfield at Vienna and Ambassador Page at Rome official information from the Austrian and Italian governments.

Causes Sensation. News of the sinking of the Ancona caused a sensation here, as it was regarded as foreshadowing a new controversy between the United States and Austria similar to the critical dispute with Germany that followed the torpedoing of the Lusitania.

When local agents of the company learned of the sinking of the Ancona they called the home office at Naples for a complete passenger list, but the agents thought that the number of first cabin passengers, 83, as given in cabled reports, was too high. They said the Ancona had accommodations for only 50 first cabin passengers.

The Ancona had not been used as a transport, nor had she carried munitions of war. She has been a favorite steamer with grand opera singers and musicians coming to this country. Titta Ruffo, the baritone, is reported to have been aboard the Ancona, but the report is discredited by his brother.

Owing to the fact that the metropolitan opera season opens here Monday and that large numbers of singers of other countries are already in this country, it is not thought that any singers were on the Ancona.

The Ancona sailed from New York for Naples on October 17. She had on board 1,245 Italian reservists and a general cargo. She arrived at Naples on October 29 and was due to sail from Naples for New York November 9.

The Ancona had a gross tonnage of 8,210 was 482 feet in length and fifty-eight feet beam. For several months before Italy's entrance in the war, the Ancona was engaged in carrying home Italian reservists from this country and supplies for the Italian government. On one of her trips from New York to Naples late in August, last year, the Ancona was stopped by the British at Gibraltar and twenty-four Germans and one Austrian was taken off the ship. Late last summer the Ancona left here for Italy with 75,000 bushels of wheat, 2,000 tons of hay and 200 horses for the Italian government. On the same voyage she carried 300 Italians in the steerage, who went back because it was said at the time they could not get work on the New York subway.

When the Ancona left New York on her last voyage from here, on October 17, she was in command of Captain Pietro Maassardo. All of her officers, engineer force and members of the crew were Italians, who shipped from Italy.

Meager dispatches indicate that the Ancona was sunk with a comparatively small triangle, the points of which

are the southern end of Sardinia, the western end of Sicily and Bizerta, Tunisia. An Austrian submarine, it is thought, was probably lying in wait for the Ancona at or near the entrance of the Malta channel, which is a narrow strip of the Mediterranean between Sicily and the coast of Africa.

Austrian and German submarines have been active in that region recently, according to cable reports. War vessels and transports of the allies, en route for the Dardanelles as well as those carrying troops to Saloniki, all pass through the Malta channel.

war before it could be plucked out and thrown to the void. Then young manhood, nursing its youth, whole and undivisible, proven by trial of fire and dark days, opening its eye upon a new world of steam and force and seizing greedily and selfishly every coigne of vantage; and today the most venerable republic, the richest of nations, the champion and exemplar of world democracy.

"No nation, I venture to assert, was ever born grounded on so definite and fixed a principle and with so conscious a purpose. Suck a wealth of hope for humanity never before gathered about a mere political experiment, and such a mass of pure idealism never before suffused itself into the framework of a state. How can such a nation so begun, so advanced, be so guided that all of its citizens shall indeed become free men, entering continually into the possession of intellectual, material and moral benefits? How can a people devoted to individualism and freedom retain that individualism which guarantees freedom and yet engrain upon their social order that genius for cooperation which alone insures power and progress. These are the final interrogatories of democracy as a sane vision glimpses it robbed of its earlier illusions.

Different Mould. "The fathers of this republic did not understand the present mould of democracy. The very word was obnoxious to them. Their ideal was a state, the citizens of which chose their leaders and then trusted them. They did not foresee the socialized state. They did not envisage a minute and paternal organization of society which may be achieved alike by Prussian absolutism or mere socialism which is chronologically, if not logically, the child of democracy. The fear that tugged at their hearts was the fear of tyranny, the dread of kings, the denial of self-direction, which prevented a man from speaking his opinion or going his way as he willed. Their democracy was a working government which should give effect to the will of the people and at the same time provide sufficient safeguard for individual liberty."

New York, Nov. 10.—Five members of the French industrial and commercial commission landed yesterday from the steamer La Fayette, and said they came to arrange for the purchase after the war of at least \$100,000,000 worth of structural iron and steel, machinery and industrial supplies. The commissioners stated that while they were here primarily to purchase supplies necessary to reconstruct and modernize French industries after the war, they would endeavor to establish reciprocal trade relations between the United States and France.

The Glory relief has received a letter stating that two boxes were received at the hospital on the day of a serious battle, when the receiving room of the hospital was crowded with seriously wounded soldiers on stretchers and the supply of bandages and dressings was running very low. SCHOOL BONDS CARRIED HERE

(Continued From Page One) The generous donation by the public of automobiles; the hearty and dignified endorsement of the ministers and the press of Asheville; the co-operation of almost all fraternal and civic bodies; the volunteered service of the lady and gentlemen workers and the student body of the high school all assembled into an organization best of achieving the result.

"While the energy of all the workers was very marked in this election, the relentless and untiring efforts of the 150 high school students, both male and female, are especially deserving of congratulatory mention. This little band of workers entered the field promptly at the opening of the polls, and with intelligence and obedience carried out the work which had been assigned to them."

ALDERMAN SPEAKS ON "DEMOCRACIES"

President of University of Virginia Addresses N. C. Literary and Historical Ass'n.

(By W. T. Bost). Raleigh, Nov. 10.—Dr. Edwin Anderson Alderman answered his interrogatory: "Can Democracy be Organized?" in a splendid story of the oldest of the democracies, the United States, last night in his address to the North Carolina Literary and Historical association.

The president of the University of Virginia took democracy and sang it into beauty and strength. The president of the United States, in a somewhat singing mood today and likewise a master artisan in the making of phrases, could not have done it better if so well. It took the Alderman's fancy just thirty minutes to deliver as musical, rhythmic a thesis upon the most interesting question now before the world. The association has never sat a half hour more enthralled.

Dr. Clarence Poe presented Dr. Alderman who must have surprised his old North Carolina friends by claiming for the government of the United States the ancient democratic days. "England and Russia alone, among the nations of Europe, equal it in age," he said, "and even England has undergone such radical changes in the past century, as compared with the United States, as to constitute us, with our unchanged government since 1789 the most stable of modern nations.
