In the refreshments the color scheme of pink, white and green was also carried out. The party was a very delightful affair for the many little friends of the small guest of honor attending as the afternoon was divided into two parts, the first part being taken up with interesting and enjoyable games and the latter half containing the entertaining feature of a trip to the Princess theater where a specially selected program of moving pictures was shown. ANURIC!

The Newest Discovery in Chemistry.

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and

simply ask for a 50-cent package of "Anuric" manufactured by Dr. Pierce, or even write Dr. Pierce, for a large trial package (10 cents). If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Dr. Pierce's chemist will examine it, then Dr. Pierce will report to you without fee or charge.

Note—"Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely used to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector. Dr. Pierce's reputation is back of this medicine.

REV. C. W. BATES TO BE RETURNED HERE

Delegates to State Conference of M. P. Church Leave For Greensboro Tomorrow.

MR. BATES RE-ELECTED.

Rev. C. W. Bates, pastor of the Methodist Protestant church of this city; Rev. T. E. Martin of Democrat and Delegate J. E. Swain of the local church, will leave here tomorrow morning for Greensboro, where they will attend the nineteenth session of the North Carolina conference of the Methodist Protestant church, which will convene tomorrow.

There is no time limit to the pastors serving their congregations, it being the rule of the church that when a congregation votes to elect its pastor again the conference passes formal approval on the action. The congregation of the local church has elected Rev. Mr. Bates for another year and Delegate Swain has been instructed to ask for his return. The many friends of the minister here will learn with pleasure that he is to be returned again.

A number of important matters will come before the conference. Rev. C. A. Cecil of High Point, president, has stated that he will not be a candidate for another term, although he has only served three years and is, under the constitution of the church, eligible for two more. A number of the members of the conference are being spoken of as successors to Mr. Cecil, among them Rev. A. G. Dixon, High Point; Rev. R. M. Andrews, pastor of the church at which the conference will be held; Rev. G. W. Holmes, Graham; Rev. C. L. Whitaker, Asheboro. This is the session immediately preceding the meeting of the general conference of the denomination which will be held in May, 1916, at Zanesville, O. Each conference of the de-

nomination is entitled to a ministerial and a lay delegate for each 2,000 members. These representatives will be elected at this session.

It is quite likely that at this session steps will be taken to put in the field a church extension evangelist and field agent. The conference has long realized the need of entering cities and towns in which there are many homeless members of the denomination. The plan now under consideration provides for the erection of a Methodist Protestant church in every important city and town in the state within the next ten years.

It is expected that a great many changes will be made in the appointments this year, due to the change of presidents. The conference has no time limit, but there will be considerable shifting about among the preachers.

The conference has 70 charges and 25,000 members. It maintains a publishing house at Greensboro, and a Children's Home near High Point, besides two schools. The body is composed of a minister and layman from each of the charges, all delegates being on equal terms in the transaction of business.

Wear Gossard CORSETS They Lace In Front

The Gossard Picture Event of last Friday was a most gratifying success. Hundreds of ladies viewed the picture and we have been warmly congratulated on the wonderful results shown by correct fitting.

Not a few ladies will say: "Yes, the figure improvement shown is remarkable, but none of the models shown had just my type of figure, and I am afraid I could not be so successfully fitted."

To all such we unhesitatingly say—"There is a Gossard model for you, one that is especially adapted to your particular figure."

Further, our Corset Department is in charge of an experienced corsetier, one who was trained in Gossard School in Chicago, and KNOWS what kind of corset is required by each particular type of figure, and she is not satisfied until you are.

New Gossard Corsets, including all those shown in Friday's picture, and a complete line of accessories always in stock.
