Give your Child Dr. King's New Discovery for Coughs and Colds.

Dr. King's New Discovery is a Doctor's Prescription used for over 45 years. It is pleasant and children like it.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system.

covery is antiseptic—kills the cold germs and soothes the irritation. "I have used Dr. King's New Discovery for the past three years and use it continually in my family. My children are very fond of it for it keeps them free from cold. I can't say too much for it, and take pleasure in recommending it to my friends." Mrs. A. S. Haines, Franconia, N.H. Don't put off treatment. Coughs and colds often lead to a chronic cough, pneumonia and other serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All druggists.

UNCONDITIONAL ORDER TO REINSTATE BURKITT

President Changes Instructions to P. O. Department Regarding Dismissed Employee.

Washington, Nov. 17.—Definite instructions went from the white house yesterday to postoffice department for reinstatement of George Burkitt as assistant postmaster at Winnetka, Ill., regardless of what other charges there might be in addition to his criticism of the president for his engagement to be married, pending against him.

Instructions sent to the postoffice department yesterday were to the effect that Burkitt was to be reinstated if there were no other charges against him. The question was again taken up today and as a result an order was issued that Burkitt was to be reinstated unconditionally, without delay. Any other charges against Burkitt will probably be investigated by postoffice inspectors later.

Save The Baby Use the reliable HORLICK'S ORIGINAL Malted Milk

Upholds every part of the body efficiently. Endorsed by thousands of Physicians, Mothers and Nurses the world over for more than a quarter of a century. ENDOWMENT WILL BE RAISED FOR COLLEGE

Mass Meeting Called in Hickory for Next Thursday Night—Other News.

Hickory, Nov. 17.—Dr. R. L. Fritz, J. M. Rhodes, Dr. W. A. Deaton, Rev. B. D. Wessinger, D. W. Aderholdt and John J. George, composing the endowment committee of Lenoir college, have issued a call for a mass meeting in the intrat of the endowment fund to be held in the chamber of commerce rooms here Thursday night at 8 o'clock. Several years ago the Lutherans started a movement to raise a \$100,000 endowment fund for the college and after \$5,000 had been raised in cash and subscriptions the work was suspended in order to raise \$10,500 for the new Yoder memorial science building, which the rapid growth of the college demanded. Recently this canvass has been resumed and the subscriptions now stand at \$9,000. Following the instructions of the Evangelical Lutheran Tennessee synod the board of trustees is prosecuting the work of raising the endowment through its endowment committee.

The Hickory township road force is now engaged in grading a road from the Piedmont Wagon company's plant in the western part of the city, to Horseford bridge over Catawba river, a distance of two and a half miles. The road will only be graded and not top-solled.

Rev. Waldo E. Murray was formally installed as pastor of Holy Trinity Lutheran church at the morning service Sunday. Mr. Murray began his pastorate of Holy Trinity October 1, coming to Hickory from Rochester, N. Y. Rev. A. L. Stanford, pastor of the First Methodist church, Rev. E. O. Smithdeal, pastor of the West Hickory Methodist church, and Rev. B. A. Yorke, pastor of the Hickory circuit, are expected to leave for Reidsville where they will attend the annual meeting of the Western North Carolina conference of the M. E. church, south.

At the three services at the First Baptist church of Hickory, where Rev. J. T. Riddick, of Durham, is conducting a revival meeting, there were 25 conversions and 14 additions to the church. The meetings will continue through Thursday night and probably longer. Interest is being manifested to a large extent.

REFORM SCHOOL BOYS WILL ATTEND

Superintendent Dick Penland of the Buncombe County Industrial and Reform school yesterday afternoon arrived in Asheville with all of the boys confined in the county institution, there being 17 of them, for the purpose of attending the afternoon service of the Chapman-Alexander meeting at the tabernacle.

"YEAR OF THE TIGER" DISASTROUS FOR JAPS

London, Nov.—The year 1914, says a British consular report from Japan, but issued, was, according to the old Japanese system reckoning, the Year of the Tiger, and in conformity with Japanese superstitions should have been a year of tragedy and disaster. To a great extent this was so, says the report. The year began with the eruption of the Sakurajima volcano in the south of Japan, in the spring the Empress Dowager died, later on the disclosure of certain scandals contributed to the fall of the cabinet, in early summer the Kitahama Bank failed, and in August war broke out.

PREMIER ENCOURAGED OVER ENLISTMENTS

London, Nov. 16.—Premier Asquith stated today that he hoped that the voluntary system of enlistment recently inaugurated would prove to be successful. The premier said this afternoon in the house of commons that he hoped and believed that conscription would not have to be resorted to.

BRYAN HEARD SUNDAY BY IMMENSE CROWD Talks on European War to the Students of the University of North Carolina.

Chapel Hill, Nov. 17.—Not even the extreme inclemency of the weather here Sunday was obstacle enough to dissuade the great throng of people that desired to hear the Hon. W. J. Bryan speak. The immense auditorium of Memorial hall was taxed to its capacity.

Mr. Bryan took as his subject "The War in Europe and its Lessons for Us," a subject, he said, which he could not with propriety have discussed a year ago, and which he hoped it would not be necessary to discuss a year hence. In the course of his address and in referring to "preparedness," Mr. Bryan said that "there is a dangerous propaganda being spread in this country today. It is the policy that says that we must arm and drill in order to avoid war. We have always had a few who insisted on the doctrine that preparedness would prevent war, but their doctrine never took much hold on the people. If preparedness would prevent war, we would have no war in Europe now. They had spent a generation preparing for war. They were all ready; there was nothing to do but to apply the match. I believe if we had been prepared for war, we would now have been in war. I believe that this preparedness that is asked for will inevitably lead us into war."

"I do not want you to be misled. If this country was attacked, it would defend itself. If this country ever has a war, it will rely in the future, as it has in the past, on the people who work. And again, our president says we are not threatened from any quarter; he says that we are at peace with all the world. The question is not whether we will defend ourselves if attacked; the question is whether we will adopt the false standards of Europe. If we change our policy now, we confess to the world that we have been wrong, and that Europe has been right, and we encourage them in their folly. We would set an example also for the nations of South America. If we cannot stop the war in Europe, I believe we ought to keep hydrophobia out of this country."

The Weather a Year Ago To-Day Fair. Temperature, High 34 degrees, Low, 16 degrees—remember Laxative Bromo Quinine cures a cold in one day. There is only one "Bromo Quinine." Look for signature E. W. GROVE, 25c.

RECORD FOR MAYOR AND POSTMASTER

Western Carolina Said to Have Tallest Mayor and Largest Postmaster in U. S.

Western North Carolina has long boasted of its record in having the largest postmaster in the United States, Thomas Frisbee of Hot Springs, six feet and six inches tall and weighing 360 pounds, being so far as is known, the most physically impressive representative of the federal postal system in all the states.

With the election yesterday of J. L. Crook as mayor of West Asheville this region may now lay claim to the further distinction of having the tallest city executive who ever called city councilors to deliberate on municipal affairs.

Mr. Crook is six feet nine, or three inches taller than the Madison county giant who presides over the postoffice at Hot Springs.

Asheville residents will remember Mr. Frisbee as the unsuccessful opponent of the Japanese wrestler, Ono, in a wrestling bout here several years ago. "Big Tom" had agreed to use Jiu Jitsu methods for the contest and his great strength could not overcome the wiles of the oriental.

If any one speaks ill of thee, consider whether he hath truth on his side; and if so, reform thyself, that his censures may not affect thee—Epicetus.

HEADACHE FROM A COLD? LISTEN!

"Pape's Cold Compound" ends severe colds or grippe in a few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which cost only 25-cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitutes.

ASK HOW OUR STOCK SELLS

HUNDREDS COME FOR THE SERVICES

Brevard and Hendersonville Will Be Well Represented at Tabernacle Today.

A message from Brevard this morning to Division Passenger Agent James H. Wood stated that about 150 people from that place were leaving on the morning train for Asheville to attend the Chapman-Alexander meetings this afternoon and this evening. A telephone communication from Hendersonville was to the effect that from 200 to 300 persons from there would arrive here at 2:10 o'clock and attend the tabernacle services in a body. A special train will leave Asheville at 10 o'clock tonight after the meeting to take the delegations home.

MEMORIAL PROGRAM FOR WASHINGTON

Colored Teachers at Allen Home Hold Exercises In Honor of Leader.

This morning from 10 to 11 o'clock exercises appropriate to the memory of the late Booker Washington were held at the Allen Industrial Home school, colored. Addresses were made by Rev. C. J. Brown, Maud Greenlee and A. J. Dole, superintendent of the school.

After the memorial program a voluntary collection of \$3 was reported for the orphan home at Winston-Salem.

ADDITIONAL SOCIAL

Mrs. Ralph G. Lee and small son Waddell Lee, have returned from Columbia, S. C., where they have been guests of Mrs. Lee's sister, Mrs. E. A. Childs, Jr.

Jewish Ladies Meet. The Jewish Ladies Aid society will hold the monthly meeting with Mrs. A. Samuels at 173 Hillside street on Wednesday afternoon at 3:30 o'clock.

Rev. W. A. Newell, president of Weaver college, left this morning for Reidsville to attend the annual Western North Carolina conference of the Methodist church.

Rev. Mr. Fox, pastor of the Weaver-ville Methodist church, left today for Reidsville to attend the annual conference of his church.

Mrs. Guyot to Spend Winter Here. Mrs. Arnold Guyot and her niece, the Misses Tucker, of Raleigh, have taken a cottage for the winter at No. 3 Aston place.

Mrs. Guyot is the wife of the late Dr. Arnold Guyot, a noted geographer and geologist, who was at the time of his death in 1884 professor of geology and physical geography at Princeton university.

Born in Switzerland, Dr. Guyot first attained distinction in the natural sciences as the result of observations made in 1838 in the Alps in regard to glaciers. He first discovered a number of laws in regard to ice, finding that the movement of glaciers is due to the movement of their molecules.

In the winter of 1848-9, Dr. Guyot lectured in Boston on the relation of physical geography and history. The lectures were later published in volume entitled "Earth and Man." The famous scientist's work for the United States government in meteorology laid the foundations for the present activities of the federal weather bureau. He also did important work in ascertaining the elevation of mountain ranges in the southern Appalachians.

Other books by Dr. Guyot are "A Memoir of Agassiz" and "Crestion, or the Bible Cosmogony in the Light of Modern Science."

There is a little superior difference in Larabee's Best Flour that you could never explain, but can easily taste. 235-1f.

First Surgeon—I'm really too busy to operate on him. But I suppose I ought to.

Second Surgeon—Is it necessary? First Surgeon—Well, no; but I don't want to establish a precedent—Life.

Financial

NEW YORK STOCKS. New York, Nov. 17.—Coppers and such new speculative favorites as Sugar shares, Petroleums, United Fruit and Mercantile Marins were again the engrossing features of the early stock market. Anaconda, Utah and Chino Coppers, each on an active opening ascended from fractions to over a point, incidentally scoring new high records. Cuban Sugar also made a new maximum, opening four points higher at 138, to which another five points was soon added, and Southern Porto Rican rose 10 1/2 to 120. Fruit gained 5 1/4 at 160. California Petroleum, preferred, rose five points to 67 and Mexican Petroleum rose four points to 90. Bethlehem Steel was 4 1/2 points higher at 464 and other war shares averaged advances of a point each. Madras, preferred, declined 2 1/2 to 73 1/2.

--and the Worst Is Yet to Come
