Empy's War Articles Will Appear in Times

The TIMES has secured the exclusive rights in this section of the country for the publication of the war articles written by Sergt. Arthur Empey. This is undoubtedly the big-

gest war feature of the period. Sergt. Empey is an American, a New Yorker, and when the newspapers told the story of the sinking of the Lusitania, he resigned his position in New York and crossed the water. Enlisting in the English army Empey went to the trenches and for eighteen months faced Prussian shells. Then came the shell meant for Empey and he was sent to the hospital and back home as an invalid.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at first sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizziness, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make mistake in having a good kidney flushing any time. Advise.

DR. KILGO'S RESIGNATION APPROVED BY THE DUKES

Their Representative Made Motion To Accept the Bishop's Withdrawal

Special to The TIMES: Durham, Nov. 23.—The conjecture that James B. and B. N. Duke, millionaire tobacco manufacturers, would withdraw their support from Trinity college in the event of the acceptance of the resignation of Bishop John C. Kilgo proves to be false reasoning. The events that transpired at the meeting Wednesday showed that the acceptance of his resignation met with the approval of the Dukes.

Clinton W. Toms, a New York representative of the wealthy tobacco-ists, introduced the motion to accept his withdrawal from the institution. Angier Duke, a member of the board of trustees, voted for its acceptance. The surmise was abroad that owing to the long friendship existing between Bishop Kilgo and the Dukes that they would look with disfavor upon the acceptance of his resignation. It was at the June commencement of 1913 that the bishop inaugurated a campaign to raise a more substantial endowment for Trinity and through his efforts contributions of \$80,000 for endowment and \$200,000 for buildings were obtained from J. B. and B. N. Duke; also \$150,000 was secured from the general educational board.

SCROFULA AND HUMORS GIVE WAY

There are many things learned from experience and observation that the older generation should impress upon the younger. Among them is the fact that scrofula and other humors, which produce eczema, boils, pimples and other eruptions, are most successfully treated with Hood's Sarsaparilla. This great medicine is a peculiar combination of remarkably effective blood-purifying and health-giving roots, barks and herbs, which are gathered especially for it. Hood's Sarsaparilla has stood the test of forty years. Get a bottle today—now—from your nearest drug store. Always keep this medicine on hand.

"Who Will Win This Battle?"

Much of your comfort depends upon knowing that your system will perform its functions properly. Your kidneys are the filters of the body. If they become inactive, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom. Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as stone in the bladder. Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric (double strength). Anuric was first discovered by Dr. Pierce and has benefited thousands of sufferers, as well as opposed and eliminated the ravages of the more serious kidney diseases. Now procurable at any good drug store, or send direct to Dr. V. M. Pierce, Buffalo, N. Y., for trial package. Enclose 10 cents. If you have rheumatism or kidney trouble, why not let Dr. Pierce's Anuric (double strength) win the battle? SPRINGFIELD, TENN.—I write a few lines to say that the Anuric Tablets gave me prompt relief. I consider them a great remedy for kidney trouble. My back doesn't hurt at all and the excretion doesn't burn and smart as it did. When I had used up the trial package, my druggist at Springfield, Tenn., gave me a bottle from Nashville and I have been using them ever since. I don't expect to be without Anuric when in need of a kidney medicine.—G. W. HEAD, Route 4, Box 34.

CARGO OF SUPPLIES IS NOW MOVING TO RUSSIA

Washington, Nov. 23.—Although steps have been taken to hold up certain shipments to Russia until the situation there clears, the war trade board today officially denied that no supplies would be permitted to go from the United States to Russia and announced that "cargo is now moving."

Officials of the board declined to add to the brief statement making this announcement. Large consignments of railroad material already are on the way to Russia but it is understood before they are delivered the United States government will satisfy itself that they are not likely to fall into the hands of any Russian faction opposed to the prosecution of the war.

SUFFRAGISTS IN JAIL GET GOOD TREATMENT

Washington, Nov. 23.—An inquiry into conditions at the workhouse at Occoquan, where militant suffragists are confined, has been made by physicians named by the commissioners for the District of Columbia at the request

of President Wilson. A report completed today is said to exonerate the workhouse authorities of charges made by the militants and to state that the food and sanitary conditions are excellent. As a result of charges put out by the Women's Party headquarters, many protests against the treatment of the women have reached the White House.
