unwise and impolitic, and in a high degree oppresunwise and importing, and in a right digree oppressive. I shall promptly give my sanation to any constitutional measure which, originating in Congress, shall have for its object the restoration of a sound circulating medium, so essentially necessary to give confidence in all the transactions of life, to secure to industry its just and adequate rewards, and to re-establish the pub ic prosperity:-In deciding upon the adaptation of any such measure to the end proposed, as well a cits conformity to the Constitution, I shall resort to the Fathers of the great Republican school for advice and instruction, to be drawn from their sage views of our system of Government, and the light of their ever

glorious example. The institutions under which we live, my countrymen, secure each person in the perfect enjoyment of all his rights. The spectacle is exhibited to the world of a Government deriving its powers from the consent of the governed, and having imparted to it only so much power as is necessary for its successful operation. Those who are charged with its administration should carefully abstain from all attempts to enlarge the range of powers thus granted to the several departments of the Government, other than by an appeal to the People for additional grants, lest by so doing they disturb that basance which the patriots and statesmen who framed the Constitution de signed to establish between the Federal Government and the States composing the Union. observance of these rules is enjoined upon us by that feeling of reverence and affection which finds a place in the heart of every patriot for the preservation of union and the blessings of union-for the good of our children and our children's children, through countless generations. An opposite course could not fail to generate factions, intent upon the gratification of their selfish ends; to give birth to local and sectional jeulousies, and to ultimate either in breaking asunder the bonds of union, or in building up a central system, which would inevitably end in a bloody sceptre and an

In conclusion, I beg you to be assured that I shall exert myself to carry the foregoing principles into practice during my administration of the Government, and, confiding in the protecting care of an ever-watchful and overruling Providence, it shall be my first and highest duty to preserve unimpaired the free institutions under which we live and transmit them to those who shall succeed me in their full force and vigor. The idea was neted upon, and it was cuoff one by one. Her two lovers still waited upon her at first in her retirement, and Jane was more puzzled than ever which to choose. Frederick Englishe's visits in a short time became more like angel's that is, few and far between-while William Stanton's were constant. Upon one of them he said, 'My dear

They were both surprised at the magnificence of Jane's attire, and thought it high that they were obliged to leave the somewhat out of character with her circumstances, but how much more surprised were they, when stepping into a carriage with Jane and Eliza, they were driven to Jane's former residence, and found her still the mistress and the heiress, and learned the plot by which she had tested her lovers. The New President.

John Tyler, now President of the United States arrived in this city on Tuesday morning last at 5 o'clock, and took lodgings at Brown's Hotel. At 12 o'clock the same day, the Heads of Departments (excepting the Secretary of the Navy, who is absent,) waited upon Mr. Tyler, to pay

him their respects, personally and officially.

The Intelligencer says: He signified his deep feeling of the public calamity sustained by the death of President Harrison, and expressed his refound sensibility to the heavy response so suddenly devolved upon himself. He spoke of the present state of things with great concern and seriousness, and made known his wishes that the several Heads of Departments would continue to fill the places which they now respectively occupy, and his confidence that they would afford all the aid in their power to enable him to carry on the administration of the Government success.

The Passinger then took and subscribed the following oath of office :

I do solemnly swear that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, pro tect, and defend the Constitution of the United

The country has been overtaken by a great calamity, and such a course as recommended by the President, is right and proper, and will, we believe, meet the approbation of every soberthicking christian man. It is, if we recollect rightly, the first recommendation of the kind that has been made by a President, for more than twenty years past. To the fearful spread of licentiousness and infidelity is to be attributed that spirit of mobocraey and insubordination which has been too prevalent through a great portion of our country in past years, and is a clear comment upon the truth, too seldmoly alas, impressed upon the public mind, that a nation's safety is only in the living God!

We would most earnestly recommend to our readers, one and all, to observe the day nominated by the President, as a day of fasting and prayer in the true sense.
