THE LADY'S WORLD OF FASHION.

NEW Monthly Magazine with the above ti-A NEW Monthly Magazine with the above ti-tle, embellished with the earliest Fashions from Paris and London, elegant Steel and Mcz-zotint Engravings. Lace Work Embroidery. Music, cet., will be issued early in December, in advance of the other Magazines for January. The work will be devoted especially to the ladies, and will be issued in a style never before attempted in this country. It will contain articles from the most popular and pleasing writers of the day on every variety of subject; but the work will be in the main devoted to the cultivation of the home virtues. Hence most of the stories will be of a practical, domestic character, from the pens of our best female writers, while the earliest fashions in all their varieties shall be correctly given ;--so as to make the work welcome at every fireside. In the halls of the fashionable and the gay,-the supplies her raiment, as well as in the store and sewing room of the mantua maker and the mil-

The Main design of the Work. The prominent design of the Magazine will be est, most correct, and full report in advance of all the other Magazines, and prior to the issuing of them here, of the Monthly Fashions direct from Paris and London. The advantage of this to every lady who makes taste in dress the least matter of life, will at once be apparent, and to the professional dress maker and milliner of the United States the enterprise will be of incalcoable advantage. It is proposed to every month a number and variety of costume, which will put to the blush every thing in the way of monthly reports of the Fashions heretofore attempted. For this purpose the publisher has embarked the most ample means and resources in the enterprise, and has matured his plans both in this country and in Europe prior to commencement. It has been a favorite project and has been deliberately undertaken, and will be carried through vigorously. The first number will give an idea of the beauty and real

excellence of the plates.

Elegant Steel Engravings. In order to render the work ornamental in the highest degree, and to make it a perfect parlor companion, and an ornament to the centre table, as well as entertaining in its literature, and useful in the style of the fashion plates, it is proposed to the most elegant Steel and Mezzotint engravings from the first artists in the country, illustrated by choice and entertaining stories of domestic life. To vary the style of illustrations, occational Luce Patterns and Embroidery, got out in unsurpassed beauty and truth, by that excellent artist F. Quarre Esq. will also be given; and to leave nothing undone, at times will be given the most popular and elegant Music of the day, Songs, Gallopades, Marches, etc.

The Typography. The work will be printed on clear and beautiful type, on a paper larger than that of the present three dollar Magazines, with fine margin, and strong, white paper, and will contain as much mat-

the steamships which sail from Europe on the first of the month, usually arrive. Thus the work will be in the hands of every subscriber with the most correct fashions before they can be got out here in any other Magazine. The Terms.

To bring the work within the reach of all, it will be issued at two dollars per annum for a single copy, or three copies for five dollars, eight copies for ten dollars, invariably in advance, post paid. The cheapness of the work will be at once appreciated, when we state that the London World of Fashion retails in this country at \$10 per annum, and the Lady's Word of Fashion will include every variety in the same style of excellence.

THE undersigned propose to open a Shool for the instruction of Law Students, in the town of Hillsborough, on the first of January next, provided a sufficient number shall apply to justify the effort. They deem it unnecessary to allude to the advantages to be derived from pursuing such studies in the sechasion of a quiet village, nor to those benefits which spring from the association of minds engaged in the same pursuits. In addition to the usual course of elementary instruction, they intend to add, by meths of a Moot Court, some knowledge of the practice in the courts of this State. Examinations will be made monthly, and written or or all instructions given as often as required. Eight students is the least number with which they can commence.

The usual fees for instruction will be required, and that for preparing a student to obtain a county Court licence will be demanded whether he remain long enough for that purpose or not.

The proprietor has engaged the services of the most celebrated and eminents as cultural writer in America; namely, HENRY COLMAN, well known as the Agricultural Commissioner of the State of Massa-chusetts, and formerly Editor of the New England Farmer. Depending on the co-operation and support of the friends of agriculture in the Em-pire State and the Great West, Mr. Colman has consented to leave the field where he has labored with so much honor and success, and locate at Rochester, where, through the medium of the Genesee Farmer, he expects to find a more exten-

With such a combination of tulent, the New Genesce Farmer cannot fail to obtain an immense circulation—give a new impulse to the cause of agriculture—promote the best interests of communit, , and tend to increase the wealth and prosperity of the Nation. It is hoped, therefore, that every friend of agriculture

JOURNAL OF THE STATE & COUNTY SOCIETIES. VOLUME II. HAVING nearly completed the Second Volume of the "Journal of the Teennessee State and County Agricultural Societies," we send forth proposals to the friends of improvement throughout the Union, for the Third Volume. We are frank to say, the patronage of the Agriculturist has already surpassed our fondest expectations, and we have many demonstrations it has been useful wherever it has peen read. The circulation is, perhaps, greater than any other Agricultural work of the West, and therefore, those who read it, may expect to get information from a very large and respectable circle of contributors.

We again assure the public, we will give our attention to every science and subject which we think will be beneficial to our country. Educastrong, white paper, and will contain as much matter, as can be compressed into 36 large octavo pages:

This will lead us to examine whether Tennessee is intended as a planting, or provision growing and manu-facturing State, or both. We shall still dwell much upon the improvement of the sail, and fully investigate the science of breeding and rearing domestic animals. Horticulture will receive strict and constant attention. In a word, it is our in tention to expose error of every discription, give our readers every thing in our means, calculated to improve the physical, moral, intellectual and pecuniary condition of man, and we will use every exertion to make the Agriculturist the very best paper in the country.
