### THE LADY'S WORLD OF FASHION.

NEW Monthly Magazine with the above ti-A the, embellished with the earliest Fashions from Paris and London, elegant Steel and Mcz. zotint Engravings. Lace Work Embroidery. Music, cct., will be issued early in December, in advance of the other Magazines for January, The work will be devoted especially to the ludies, and wil' be issued in a style never before attempted in this country. It will contain articles from the most popular and pleasing writers of the day on every variety of subject; but the work will be in the main devoted to the cultivation of the home virtues. Hence most of the stories will be of a practical, domestic character, from the pens of our best female writers, while the earliest fashions in all their varieties shall be correctly given ;so as to make the work welcome at every fireside. In the halls of the fashionable and the gay,-the home of the virtuous matron, whose own needle supplies her raiment, as well as in the store and sewing room of the mantua maker and the milliner.

The Main design of the Work. The prominent design of the Magazine will be county and State ; and in all cases to send the to furnish in elegant and attractive style, the earli- money with the order, so that the perplexity of est, most correct, and full report in advance of all keeping accounts may be agoided. the other Magazines, and prior to the issuing of M. B. BATEHAM, Prop. them here, of the Monthly Fashions direct from Paris and London. The advantage of this to every lady who makes taste in dress the least matter of life, will at once be apparent, and to the professional dress maker and milliner of the United States the enterprise will be of incalcuable advan. tage. It is proposed to every month a number and variety of costume, which will put to the blush every thing in the way of monthly reports of the Fashions heretofore attempted. For this purpose the publisher has embarked the most ample means and resources in the enterprise, and has matured his plans both in this country and in Europe prior to commencement. It has been a favorite project and has been deliberately undertaken, and will be carried through vigorously. The first number will give an idea of the beauty and real excellence of the plates. Elegant Steel Engravings. In order to render the work ornamental in the highest degree, and to make it a perfect parlor companion, and an ornament to the centre table, as well as entertaining in its literature, and useful in the style of the fashion plates, it is proposed to the most elegant Steel and Mezzotint engravings from the first artists in the country, illustrated by choice and entertaining stories of domestic life. To vary the style of illustrations, occational Lace Patterns and Embroidery, got out in unsurpassed beauty and truth, by that excellent artist F. Quarre Esq, will also be given ; and to leave nothing undone, at times will be given the most popular and elegant Music of the day, Songs, Gallopades, Marches, etc.

ITLAW SCHOOL. J

THE undersigned propose to open a Shool for the instruction of Law Students, in the town of Hillsborough, on the first of January next, pro-vided a sufficient number shall apply to justify the effort. They deem it unnecessary to allude to the advantages to be derived from pursuing such studies in the seclasion of a quiet sillage, nor to those benefits which spring from the conscistion of minds engaged in the same pursuits. In addi-tion to the usual course of elementary instruction, they intend to add, by means of a Moot Court, some knowledge of the practice in the courts of this State. Examinations will be made monthly, and written or eral instructions given as often as re-quired. Eight students is the least number with which they can commence. which they can commence. The usual fees for instruction will be required

and that for preparing a student to obtain a county Court licence will be demanded whether he re-

main long enough for that purpose or not. FREDERICK NASH, HUGH,WADDELL. Hillsborough, Nov. 3d, 1841. 4 72

> " The Agriculturist," AND

JOUBNAL OF THE STATE & COUNTY SOCIETIES. VOLUME II.

HAVING nearly completed the Second Volume of the "Journal of the Teennessee State and County Agricultural Societies," we send forth proposals to the friends of improvement through-out the Union, for the Third Volume. We are frank to say, the patronage of the Agriculturist has already surpassed our fondest expectations, and we have many demonstrations it has been useful wherever it has peen read. The circulation is, perhaps, greater than any other Agricul-tural work of the Weat, and therefore, those who

read it, may expect to get information from a very

large and respectable circle of contributors. We again assure the public, we will give our attention to every science and subject which we think will be beneficial to our country. Education-particularly Agricultural, or that kind best

discuss more fully than has yet been done in America ; it will be our object to clearly define the true policy for working men generally, and especially for the laboring classes in Tennessee. This will lead us to examine whether Tennessee is intend-15th of the month preceding the month for which it will be published, or dated, or about the time the steamships which sail from Europe on the first of the month, usually arrive. Thus the work will be in the hands of every subscriber with the most correct fashions before they can be got out here
