PROSPECTUS. INDER the above title the subscribers will publish on the 1st of April, 1942, and on the lst of each succeding month a Magazine of Facts Arguments, Statistics, Speeches, Editorials, &c. devoted exclusively to the advocacy and defence of the policy of Protection to American Labor against the selfiish and grasping policy of Foreign Nations, especially of those with which we chiefly trade, which shut out of their ports the great bulk of our Products, and especially those of our Free Labor, while they glut our markets, bank-rupt our Merchants, depreciate our currency and famish our Laborers and Artisans by pouring in upon us the products of their skill and Industry. on the casy terms proffered them by our low and non-Protective Duties. This Magazine will inflexibly and ardently advocate the true American Policy of COUNTERVAILING these gross exactions of

The AMERICAN LABORER will affirm and maintain the policy of encouraging and fostering by wise legislation the establishment and growth in our country of new or yet feeble branches of Industry, such as the Culture of Silk, the Manufacture of whatever fabrics of Wool, Cotton, Iron, &c., may be necessary for the supply of our own wants and to secure and perfect our independence. It will demonstrate that the true and permanent interests of all, but especially of the Agricultural and Working Classes universally, will be infall-bly and signally promoted by adopting and carry-ing out the Protective Policy, and that the Wages of Labor, the average price of its Produce, and the aggregate Product of the National Industry, will be surely and largely enhanced thereby. In short, this work is intended to form a complete text-book for the friends of Protection, and a thorough refutation at every point, of the perni-cious fullacies put forth by the foreign and misguided American spologists for the policy of onc-

ing 32 large double-column pages of closely print-ed matter. Each number will contain one great Speech, Report, or other convincing document, and a variety of shorter articles. The work will form one complete and comprehensive volume of 384 large and fair pages, and will be afforded to single subscribers for secenty-five cents cach, three copies for Two Dollars, five copies for Three Dollars, nine copies for Five Dollars, or twenty copies for Ten Dollars. Payment is required in advance, in all cases. The lowest possible price has been fixed in order that its circulation may be render-

carnestly solicited to aid us in extending the cir culation of The Lab
