OF To make room for Mr. FRANCIS' speech this week, we have omitted several editorials which we designed to publish.

Mr. GRAHAM'S answer to Mr. CLING. MAN's letter of last week, will be found in this paper.

### HARD TIMES.

The cry of " hard times," " hard times is ringing louder and longer through our section of country, and truly we think they solely for want of sufficient food-while knowledge. Now, will not the people learn on his bare back-which was accordingly a lesson? We can assure them that they done, and the prisoner set at liberty. will do much better without money than without bread, and if, instead of all turning politicians to discuss the affairs of the Government to the neglect of their domestic duties, they will go to work-yes, lay off their tattered broadcloth, and go seriously to work, they will soon find " better times" at least so far as it regards the necessaries of life. One very great cause of hard times is to be found in the fact that there are too many great strapping lazy young men who are trying to live without work. " I want to get into business," is the cry from June to January. Well, we will tell you how you may do it. Go and dispose of your fine canes and other evidences of dandy ism, and if you can do it in no other way, pawn them for ploughs, hoes, mattocks, uxes, dec., and then lay off your finery and go to have just been received. work and keep at it--live economicallylet your wives or sisters make your clothes -and take the produce of your farm, orchards, and potato patches to the southern market, and there exchange for your family supplies of sugar, coffee, salt and molasses, but he sure not to deal in, or use spirituous liquors for any other than medicinal purposes; and the overplus you can bring back in money, to pay your taxes, and then times will get " better fast." We are almost all complaining of the scarcity of money while we are about to lack something to cat. And why? Was the last season unfavorable to cropping ? By no means. It was quite iavorable; and good crops were made by those who exercised the proper industry. But many of those who succeeded last season, sold their grain in the fall at a very low rate, not because they were in debt, but bedollar or two as they thought they ought to has come out second best. have had, and in consequence, the same cattle have caten far more than the differonce between what they asked and what Wilson, Sr., a very worthy and respectable they could have got ; and after cating up citizen of Yancey county, residing on the kvep well. New paper .- We have received a num her of the "North State Whig," a new paper, published at Washington, in this State. It is handsomely prited, edited with ability, and, as its name indicates, advocates Whig principles. We wish the proprietor a long list of subscribers, and a well filled purse.

DOGS : DOGS !! We have long been satisfied that our village was cursed with dogs-"there being at least from five to ten where there should be but one-and recent events have proven that our conjectures were right. In one night this week, Mr. J. M. Smith, had no less than twelve sheep killed and several others severely wounded by dogs. The guilty in this case will, we suppose, suffer death, as the penalty due their offence, but what is to be done with the scores that yet remain ? Let them run, we suppose, until a few more dozen sheep shall have been killed.

ASHEVILLE, AHRIL 8, 1843. To the Edutors of the Messenger :

State.

I have just read a communication pub ished in your last paper signed T. L. Clingman, in which he refers to a proposition which, he says, he authorised his friends to make to me two years ago at Haywood Superior Court. I will now present the specific charge which he has made against me : Mr. Clingman says in the Messenger, that he informed his friends that they were authorised on his part to say to me, that he would then withdraw and allow me to run without opposition, provided I would agree

to decline being a candidate at the end of two years, if my political friends should then think it expedient to do so. He says that proposition by his authority was accordingly submitted by some of his friends to me, and by me at once rejected ; and as

ther buy out nor sell out. That is the charge. What may have passed between Mr. Clingman and his friends I do not

know. So far as I am concerned the facts of the case are these : At Waynesville, during the Superior Court of Haywood then think it expedient for me to do so." I answered immediately and promptly, date in consideration that he would sell out to me. All other men in the district had

equal rights with myself to run or not to OT The venerable ROBERT R. ROBERTS. run : to be or not to be, candidates for Congress then or at any other time. If I had agreed to that proposition, and ratified and confirmed that political bargain, in my opidion, I would have been unworthy to receive the votes of the people. I now re-

peat. I will neither buy out nor sell out. I would not, if I could : and I could not, if I within twelve years. No wonder our financial would. All political power is, and of right ought to be, vested in the people. There let it be and remain. Let their will be done;

rangements that were mide and making to defeat me soon after the last session of Con-gress met. After all that flourish and other preparations to oppose and condemn my public course, I resolved to be a candimy public course, I resolved to be a candi-date and defend myself before my generous and noble constituents, who have stood by me and sustained me in six troubles, and I firmly believe they will not descrit nor fortake me in the seventh, when all manner of evil reports and groundless charges have been circulated in my absence to try to prejudice the people against me, and to preudge me without a hearing. I have an abiding confidence in the virtue and intelligence and justice of the people. I have no charges to make against any body; but I shall endeavor to defend and justify myself

against the unfounded charges that have been, or may be, made against me. Mr. Clingman says he has a firm conviction the majority of the people of this district are opposed to my election. Perhaps his wish s father to that thought. He said so two years ago, but a majority of 1357 freemen

differed with him in opinion. I cannot say low the people are disposed, but I would rather take the verdict of seventy thousand disinterested freemen than one interested candidate. Yours, JAMES GRAHAM.

INDUSTRY AND ECONOMY .- The following anecdote which we found in an Eastern paper, while it excited our risible propensities to a degree very alarming to our neighbors, served at the same time, to open our eyes to an entirely new view of the ad-

let them select whomsoever they please to at one time, and another at another time. Such agreements should never in my opinion be made by candidates; and if made, they are a violation of the privileges of the people and the rights of freemen. The people, not the candidates, are to say who

shall represent them. Mr. Clingutan says the proposition he made by his friend two years ago, he thought a reasonable one. Mr. Chingthan says, I seem to regard myself as possessing a vested estate in the office of Representative. He is mistaken. I have no vested estate in that office; and hat is one strong area. that is one strong reason why I said to his friend, I could not buy out, nor sell out. I desired to do then, just as I intend to do now, trust to and depend on the voluntary votes and freewill offering of the people,

I have been elected to five different Congresses, and had one contested election. Mr. Clingunn objects to the length of time I have been in Congress. Well now, he is the last man in this district who should make

that objection. He moved here some six or seven years since from Sorry county. That district was ably and faithfully represented for 27 or 8 continuous years by the election after he had been in Congress 18 or 20 years. I presume the real cause of his objection to me is not length of time, or he would not have voted for Mr. Williams cause he is uncommonly anxious to become a member of congress himself I make no objections to Mr. Clingman, or any other man in the district becoming a candidate has not been well ploughed. It must be of any man; and I hope I have that right which is common to all other men. I do not think Mr. Clingman ought to plead the political statute of limitations on me, after going down to Raleigh during the last Leagain three times before planting corn than gislature and sending on to Washington and getting a copy of the Journals of Con-
