Nothing is done from the Camps.

The Executive of this morning intimates that a long Cabinet Session took place yesterday, on the policy of pushing the War beyond the Confederacy.

It says the Cabinet is divided into some preferring the ordering of the 2nd into winter quarters, and others favoring the onward movement.

SECOND DISPATCH. RICHMOND, Sept. 24.

A well informed gentleman, recently from New York, gives it as his decided opinion, based on facts communicated through well informed and interested circles here, that a yankee proprietor of a large interest in Brunswick, Ga., has induced Lincoln to fit out a large and expensive Expedition, with about 20,000 men, to take Brunswick, Ga., and establish a Navy Yard there, and open that port for the shipment of Cotton, Naval Stores and Live Oak.

Sagacious men here think there is much reason to believe this, as the Federal Government is wholly controlled by Schemers and Speculators.

From Baltimore. RICHMOND, Sept. 24.

A lady who arrived here to-day, from Baltimore, reports the Baltimore Exchange, the South and Republican have been suppressed, and that the Sun soon will be.

The Peasantry Institute is being fitted up as a prison for Secession Ladies.

The Bulletin CHARLOTTE, N. C., THURSDAY, SEPT. 26, 1861. \$6 PER ANNUM.

They Talk of Short Work in Kentucky.

The Cincinnati Commercial, of the 12th inst., says: There are ten regiments now in camp in Ohio, ready, and we believe quite as many in Indiana. There will be force enough to make the struggle in Kentucky very short.

The twenty regiments that we have named can cross the river within a week, and ten more will be ready in less than a fortnight, while the greatest abundance of arms, rifles and cannon, and of ammunition, is at hand.

From the Richmond Dispatch.

Potash-A Hint to Farmers.

The great scarcity of soap at the present time arises from the want of potash and soda-ash. Either will make soap. The latter is found in its natural state (natron) in Egypt and South America, but the principal supply has been obtained from Great Britain, procured by the burning of seaweeds. The former (potash) is supplied mostly from Canada and the State of New York.

There is in the Southern States any quantity of material to make potash, and I would call the attention of farmers to its production. It requires but a simple process in its manufacture. A few large iron kettles or pots, and a half dozen whiskey barrels with heads out, and an iron ladle, being all the apparatus required. Most weeds furnish potash in a greater or less quantity to every 1,000 pounds. The following plants will furnish of potash: Oak wood, 24 lbs. Corn stalks, 17 lbs. Wheat straw, 44 lbs. Oak, beach, Barley straw, 5 lbs. and elm.

Potatoes 55 lbs. leaves, 24 lbs. Those articles can be obtained by the farmer at little cost. Select a shaded position, gather in a large heap, set fire to them, keeping the fire up until several bushels of ashes are obtained; fill each barrel about a quart of salt water, mixing with them a quart of alkali lime; fill it then with water, stirring the ashes well; let it stand overnight, or for about twelve hours, stirring frequently; strain off the ley as clear as possible; pour in the kettles, and evaporate over a wood fire. The kettles should be kept constantly full for two days. [A little experience will soon teach the quantity of ley it will require to make them half full with potash.] The evaporation should be continued until the mass obtain the consistency of brown sugar; then increase the fire, by which it will be fused; continue it until quiescent, and looks like melted iron, with a ladle transfer it to iron pans or baking ovens, and allow it to cool; it may be then broken in pieces, and packed in tight boxes or barrels.

The experiment will cost very little, and the result is certain. The water cannot now be obtained at a high rate, and can be sold at a high rate. We hope this may induce some to try it. The expense of fixtures is small, and the material cheap and plentiful. P. S.—Pine wood furnishes but little potash.

The Brownsville (Texas) Flag of the 23d ult., says rumor has it that 3,000 Federal, or rather United States troops have been landed at San Blas, or at some other point on the Pacific coast of Mexico; for the purpose of marching across the country towards Tucson, and forming a junction with the troops in New Arizona and Mexico, and entering Texas by way of El Paso. If such is the case, they will probably be surprised to learn that their friends have been captured, and that they will have to meet a strong Texas force instead of a strong body of Federal friends.
