Our Agricultural department we endeavor to fill with Agricultural department we endeavor to fill with the best selections we can make from all sources, the best selections we can make from all sources, giving preference to such as will be of practical use to the farmer and cultivator; and in this particular we hope to make the RECORDER as valuable to the agriculturist as any periodical of a purely agricultural character. In our Miscellaneous department, we shall contine to be, as we have always been, careful to select such articles as will have a tendency not only to samuse, but to improve the mind and heart.
