Rome, Feb. 7, 1855. "Sunny Italy" has been chilled and clouded for weeks. We have scarcely had an entire clear day this winter, and the provoking coquetry of the sun only serves to make us more sensitive to the wet winds of the winter-looking hills, everywhere covered with snow, from Rome to the Alpine passes. An American family arrived this morning-from Florence, inquiring in despair for the bright clime of the poets:

-Know you the land Where the citron and olive are the fairest of fruit And the voice of the nightingule never is mute? It is even worse in the South of France, where

the cold is actually biting. The mails are habitually retarded over and beyond the mountains; on this side where snow becomes rain before it reaches the plains, the roads and railways are always passable, for storms and tempests, which elsewhere deform the face of the earth, are here unknown.

In Italy, nature is always quiet, though she is sometimes sulky, as in winter. Thus it is that her monuments remain uneffaced for ages, that bued with the spirit of ancient poesy, for, though | ply with a superior imported article of the "fair humanities of the old religion" laid no longer in the faith of reason, yet, whorever we of all the popular Brands, among which will be found turn, some statue, some temple, some fane, some old image or inscription, bewitches the imagination with something beyond and above all her visible charms-

The light that never was on sea or land, The consecration and the poets dream.

This is the secret of the celebrity of the climate of liny, which is actually detestable in comparison with that of the West India Islands. The truth is that heretofore the world has been more influenced by poetry than science in the matter of climates. Thanks to the active efforts of our own countrymen, it is now likely to become more enlightened on the subject. The official Journal has a long article in commendation of what it justly denominates "the vast design conceived by Licut. Maury, Director of the Observatory at Washington, and adopted at the Scientific Confercontinued and uniform meteoroligical observations by sea and land all over the globe." And the government of the Pope has honorably ordained that the system and instruments thus prepared be strictly employed by its marine in the observation of the Papal States. The Holy See has just sanctioned the institution of the "Roman Society of Navigation," an association for the promotion of commerce.

M'LANE'S VERMIFUGE .- No remedy ever invented has been so successful as the great worm medicine of Dr. M'Lane. All who have used it have been equally astonished and delighted at its wonderful energy and efficacy. To publish all the testimonials in its favor would fill volumes; we must therefore content ourselves with a brief abstract of a few of them.

Japhet C. Allen, of Amboy, gave a dose to a child to years old, and it brought away 83 worms. He soon after gave another dose to the same child, which brought away 50 more, making 133 worms in about 12 hours. Andrew Downing of Cranbury township, Venango county, gave his child one tea-spoonful, and she passed 177 worms. Next morning, on repetition of the dose,

she passed 113 more. Jonathan Houghman, of West Union, Park county, la writes that he is unable to supply the demand, as the people in his neighborhood say, after a trial of the others, that none is equal to Dr. M'Lane's Vermitinge. Messrs, D. & J. W. Colton, of Winchester, Ind. happened last spring to get some of this Vermilage. After selling a few bottles, the demand became so great for

it that their stock was soon exhausted. They state that it has produced the best effect wherever used, and is very popular among the people. IF Purchasers will be careful to ask for Dr. Mc-Lasz's Celebrated Vermifuge, and take none else. All other Vermifuges, in comparison, are worthless. Dr. M'Lane's genuine Vermifuge, also his Celebrated Liver Pills, can now be had at all the respectable Drug Stores

[Printer's fec, \$6.] 33 - 6w THAT COMMISSION HOUSE OF TINLEY & HERRON'S, CHARLESTON, S. C.

THE only house doing business in that city that ac-I tually had any experience in Receiving and Forwarding of Goods previous to the South Carolina Railroad quitting the business in July last, is still open for the RECEIVING and FORWARDING of all kinds of Goods, Wares, Merchandise, Machinery, Produce, &c. If you want your goods forwarded without the vexatious delays and enormous expense bil s paid the last season, and at the same time have your business done and settle, either by Note or Cash-the latter prefera- in such a manner that somebody will be made responsible for the damaged and lost packages, consign them to TINLEY & HERRON, who have Received and Forwarded all Coods consigned to them during the past season without any extra charge over those established rates as given below, and up to this time have not

encountered a solitary complaint. Our Mr. Herron was Clerk of the Receiving and Forwarding Department of the South Carolina Railroad for the past seven years, and is perfectly familiar with all their books, freight tariffs and rules of shipment, both by railroads and vessels, together with the mode of procedure to secure damages and pay for lost articles from other parties, the proper steps of which will be taken in all such cases without loss or delay to the owners. Another important advantage is that his thorough knowledge of all freights and rules of shipment, enables him instantly to detect and correct any overcharge in the bills of lading, which in all cases has to be done at that time, or be lost to the owner, in many instances greatly exceeding the commissions we charge. He was also raised in Charleston, is perfect. ly acclimated, and free from the contagions of that ity, therefore we will under all circumstances faith-

fully discharge any business entrusted to us. All produce, such as Wheat, Flour, Corn, Corn Meal Bacon, Lard, Butter, Eggs, Cotton, Rice, Rye, Oats, Hay, Tobacco, Wool, Feathers, Beeswax, Potatoes, Omons, &c., consigned to us, will be promptly sold and proceeds returned, without keeping the money a few months to speculate upon; for we wish it distinctly understood that we engage in no speculation whatever, all that we want is our commission, as follows:

For Receiving and Forwarding all ordinary packages of goods, 10 cents; large packages of ferniture and machinery, charges according to responsibility. Iron and steel in loose bars, 10 cents per hundred ibs. and storable for advancing freights, and charges 21 per cent, which you can save by depositing the money with us; for selling produce 21 per cent. We will also fill all orders in this market, making the best selections for our patrons, at 51 per cent.

# LAND FOR SALE.

THE subscriber offers for sale (privately nntil Tuesday of May Court, and if not sold by that time will be exposed on that day to public sale at the Court House in Charlotte) THREE TRACTS OF LAND, lying about five miles from Charlotte, on the Lawyer's road, one containing 259 acres, one 70 acres, and the other 53 acres. The tracts all join, and will be sold together, if necessary. They are well watered, and lying on the head waters of McAlpin's Creek, and is well adapted to the raising of Cotton, Corn, Wheat, and in fact any crop that a farmer would desire to cultivate. On the 250 acre tract is a well of good water, that never fails, 2 lots for drovers, a good orchard, and a good dwelling and other out-houses and on the 70 acre tract is a dwelling 164 by 181 feet. About 100 acres has been in cultivation, and is in good repair, the balance is woodland, and 100 acres is as well timbered as can be found. On the premises is about twelve acres of excellent meadow land, and some as good bottom land as can be found in any seetion. Terms will be made to suit the purchaser, if possible. Any person wishing to purchase, can call on Mr. Taylor, on the premises, who will show the lands, or on
