A good newspaper gives more importance to a town than all other agencies combined. What passion is more universal than the passion for reading newspapers and learning the news ?-What disposition is more general and uncontrollable, than the disposition to visit places that we hear of and read of in every newspaper that comes to our door?

THE MESILLA VALLEY AND THE PACIFIC ROAD .- The Austin State Gazette of the 10 h instant, in noticing the fact that the United States and Mexican Commissioners have agreed on the initial point of the boundary between the two countries, says :

"We are now in possession of the whole country through which a railroad in this lavitude may be made. A friend of ours connected with the expedition is of opinion that gold will be found in the Mesilla Valley as in California, and looks forward to the Jay when a larger and more permanent population will be settled in the new outskirts of civilization."

THAT COMMISSION HOUSE OF TINLEY & HERRON'S.

(HARLESTON, S. C. PHE only house doing business in that city that actually had any experience in Receiving and Forwarding of Goods previous to the South Carolina Railroad quitting the business in July last, is still open for the RECEIVING and FORWARDING of all kinds of Goods, Wares, Merchandise, Machinery, Produce, &c. If you want your goods forwarded without the vexatious delays and enor nous expense bil s paid the last the above firm by account, will pease come forward season, and at the same time have your business done and settle, either by Note or Cash-the latter prefera. in such a manner that somebody will be made responsible for the damaged and lost packages, consign them to TINLEY & HERRON, who have Received and Forwarded all Coods consigned to them during the past season without any extra charge over those establish-

ed rates as given below, and up to this time have not encountered a solitary complaint. Our Mr. Herron was Clerk of the Receiving and Forwarding Department of the South Ca. olina Railroad for the past seven years, and is perfectly familiar with all their books, freight tariffs and rules of shipment, both by railroads and vessels, together with the mode of procedure to secure damages and pay for lost articles from other parties, the proper steps of which will be taken in all such cases without loss or delay to the owners. Another important advantage is that his thorough knowledge of all freights and rules of shipment, enables him instantly to detect and correct any overcharge in the bills of lading, which in all cases has to be done at that time, or be lost to the owner, in many instances greatly exceeding the commissions we charge. He was also raised in Charleston, is perfect. v acclimated, and free from the contagions of that ity, therefore we will under all circumstances faith-

fully discharge any business entrusted to us. All produce, such as Wheat, Flour, Corn, Corn Meal Ontons, &c., consigned to us, will be promptly sold and proceeds returned, without keeping the money a few months to speculate upon; for we wish it distinctly understood that we engage in no speculation whatever, all that we want is our commission, as follows:

For Receiving and Forwarding all ordinary packages of goods, 10 cents; large packages of ferniture and machinery, charges according to responsibility. Iron and steel in loose bars, 10 cents per hundred .bs and storable for advancing freights, and charges 21 also fill all orders in this market, making the best selections for our patrons, at 51 per cent.
