### From the Southern Agriculturist. GARDENER'S CALENDAR FOR MARCH

This is a busy month with the gardener and the mild days of genial spring should urge him to be up and doing-see that you have planted all the varieties of vegetables that will be necessary for your table, and if you have neglected to provide the proper seeds, lose no time in procuring them .-Early varieties of Peas may still be sown and succeed very well if the ground is carefully prepared. The Imperial, Prussian, Knights, tall Marrowfat and the New Mam? moth are fine late sorts, and should be planted now, in drills four feet apart. The two last are of a rich, buttery flavor, and are not equalled by any others; their height is the only objection to their culture; they will require stakes 6 feet high.

Beans .- The following varieties of this favorite vegetable should be planted as early as possible: Early Valentine, or Redspeckled Marrow, Yellow Six Weeks, the Mohawk and the China are of the best early warieties.

The White Cranberry, the Refugee, or Thousand to One, and the White Kidney Beans are some of the best late varieties, and a few may be plauted now to give a succession to the early varieties. The White Kidneys and the Cranberry Beans are highly esteemed for boiling as a vegetable in winter, and the planting of the principal crop should be deferred until late in the season. For Beans, a strong soil is decidedly best, but you must be careful that the soil is not too wet when it is worked. the drill, cover them over about an inch deep. When the Beans are up and have they require it.

Lima Beans should now be planted; the ground should be made very rich and planted in rows 5 feet apart. They can then either be trained to strong stakes or a trellis made by putting up a stake 8 feet high and pole. and placing small stakes on each side ; produces numerous large, succulent leaves | HOPE writes the poetry of a boy, but which has a solid mid rib running along the MEMORY that of a man. #### BEAUTIFY YOUR HOME.

Every man should do his best to own a home. The first money he can spare ought to be invested in a dwelling, where his family can live permanently. Viewed as a children to come unto me, and forbid them matter of economy this is important, not only because he can ordinarily build more cheaply than he can rent, but because of the expense caused by frequent change of residence. A man who early in life builds

Apart Shop formerly occupied by Messrs. George & Whisnant, adjoining Mr. J. Rudisill's Steam Planing Mills, where he is prepared to execun all work in his line as cheap and as good as cate from this, there is something agreeable to our better nature in having a home that we be done in the State

can call our own. It is a form of property Turning, Cutting Screws, Repair-It speaks to the heart, enlists the sentiments and ennobles the possessor. The associations that spring up around it, as the birthplace of children-as the scene of life's holiest emotions-as the sanctuary where the spirit cherishes its purest thoughts, are such as all value; and whenever their influence is exerted, the moral sensibilities are exalted. The greater part of our happiness in this world is found at home; but how few recollect that the happiness of the day Your hed should be well manured and dug, is increased by the place where we were ranked finely, laid off into drills three feet happy on yesterday, and that, insensibly, apart, and the Beans planted four inches in scenes and circumstances gather up a store of blessedness for the weary hours of the future ! On this account we should do all two or three leaves, stir the earth around in our power to make our home attractive. them and give them repeated workings as Not only should we cultivate such tempers as serve to render its intercourse amiable and affectionate, but we should strive to

It costs little to have a neat flower garden, and to surround your dwelling with those simple beauties which delight the eye far more than expensive objects. If you will let the sunshine and the dew adorn your yard, they will do more for you than any artist. Nature delights in beauty. She loves to brighten the landscape and make it agreeable to the eye .--She hangs the ivy around the ruin, and over the stump of a withered tree twines the graceful vine. A thousand arts she practices to animate the senses and please the mind. Follow her example, and do for yourself what she is always laboring to do for you. Beauty is a divine instrumentality. It is one of God's chosen forms of power. We never see creative energy the Stove, and quit selling and go our death without something beyond mere existence, and hence the whole universe is a teacher and inspirer of beauty. Every man was born to be an artist so far as the appreciation and enjoyment of beauty are concerned, and he robs himself of one of the precious object of his being if he fails to fulfil this beneficial purpose of his creation .- [Southern
